Reference: Proposed Magnum Communications Radio Tower

Date: June 10, 2014

I am writing to add my support for the proposed Magnum Communications radio tower in the Town of Rutland. I agree with the other area chiefs who have voiced their support for what has the potential to be a valuable addition for each of our public safety entities as well as for our respective communities as a whole. I recognize that our village president has already gone on record in support of this proposal and I concur that our citizenry will be most appreciative of the value added by the improved communications coverage to the benefit of both public safety and community needs.

Respectfully,

Dale G. Burke

Interim Chief of Police

Village of Oregon
