To Whom It May Concern:

I am writing to you today in regards to the tower that Magnum Radio would like to set up in Dane County. Radio has been an integral part of Sauk County Communications since the 1950's.

Currently, Magnum Radio has two radio towers in Sauk County. One of the towers is located just west of Reedsburg on Highway 33. The tower located on Highway 33 has a guy wire that crosses the major highway; to date we have never had any safety problems with the guy wire. Magnum Radio has been a great partner in the Communications infrastructure of Sauk County. As Sheriff, we are always looking for towers that can be beneficial for Law Enforcement use. The radio towers that are currently in Sauk County have been a multi-purpose tower for both radio and law enforcement.

If you should have any questions and/or concerns in regards to the potential new tower and the effects on the safety in the community, please contact me at 608-355-3208.

Sincerely,

A handwritten signature in black ink that reads "Chip Meister". The signature is written in a cursive style.

Chip Meister
Sheriff
