

TOWN OF RUTLAND ROAD WORK

Town of Rutland Residents

The Town of Rutland will be repaving Lake Kegonsa Rd between County Road A and State Highway 138 in the next few weeks.

The tentative schedule is to place gravel on the road starting on June 17th. Payne and Dolan will then come in and pulverize the surface around July 2nd. The Rutland road patrolmen will then grade and shape the road. Weather permitting, Payne and Dolan will begin the repaving starting around July 10th. The shouldering will take place later in July or early August.

Please feel free to share this information with your neighbors!

Thank you for your patience while this much needed work is completed.
