## **Showcasing Creativity in Rutland**

The Town of Rutland is known for its rural character and natural beauty, but there is also a sizable community of working artists here. As we proudly open the new Town Hall, we're showcasing the work of our local creatives with a display of artwork in the public areas of the Town Hall. Come see artwork in glass, paint, fiber, sculpture and mixed media. Nine artists will be featured in the display, which will be up until December 18.
