Meters to Measure Outside Water Usage

Additional meters can be installed to monitor water used for watering lawns & gardens, washing cars, filling pools, etc. Customers will be billed for water usage on these meters along with the monthly customer rental charge based on the size of the meter installed; no sewer charges are billed. There is a one-time meter installation charge of **\$45.00**.

It is the homeowner's responsibility to have the necessary plumbing done for this meter. The utility will provide the meter, the plumber will install the meter. Once the meter is installed the utility will inspect and seal the meter. Installation of a second water meter is to be used to measure water not discharged into the sewer (for example water used to water lawns & gardens, wash cars and fill pools). Any changes to the plumbing, for the installation of this additional meter, are the owner's responsibility. The additional meter will be read and billed monthly.

ADDITIONAL METER RENTAL CHARGE

If a customer requests the installation of an additional meter to receive credit for clear water not discharged into the sanitary sewer system, or if a sewerage service customer who is not a customer of the water utility requests the installation of a meter to determine the volume of sewage discharged in the sanitary sewer system, Somerset Utilities shall furnish and install this additional meter. A monthly rental fee shall be charged for the use of this meter and the following monthly rates (Am-1) shall apply:

NOTE:

If at any time the owner decides to discontinue

the use of the additional meter, it shall be their responsibility to make any necessary

5/8" - \$5.50	1" - \$8.50	1 1/2" - \$13.00
3/4" - \$5.50	1 1/4" - \$11.00	2" - \$19.00

plumbing changes. This shall include capping of the unused irrigation line upstream any existing valves. A time will be arranged for the utility to shut the water off so that this can be done.

Any questions or to arrange for the delivery of a meter, please call our Water Department at (715) 247-5555

How do I obtain an additional meter?

1. Get quotes from local plumbers to re-

plumb your existing water service to accommodate an additional meter for your outside usage.

2. Choose a plumber and have them re-plumb the work that is necessary. This is the homeowner's cost.
3. Your plumber will contact the water department at 715-247-5555.
4. The water department will deliver the meter for the plumber to install.
5. The water department will then inspect the installation and you will be charged a one time fee of \$45.00.
6. You will be charged a monthly meter charge based on meter size. (per Am-1 rates)
7. Water used to water your lawn, fill your pool, wash your car etc. will not be charged a sewer volume fee.
