Rajasthan launches India's first Digital Lok Adalat

CHANDIGARH, JULY 19

India's first AI-powered, end-to-end digital LokAdalat was launched by Mr. UdayUmeshLalit, Chairman, National Legal Service Authority(NALSA) during the 18th All India Legal Services Authorities' Meet held in Jaipur,.

The digital LokAdalat by Rajasthan State Legal Services Authority (RSLSA 22) was designed and developed by its technology partner Jupitice Justice Technologies. The two-day event was inaugurated by Chief Justice of India, Mr. N V Ramanawhich was also attended by Minister of Law & Justice, Mr.KirenRijiju and Rajasthan CM Mr.

Ashok Gehlot. The digital LokAdalat will be utilized to dispose of pending disputes or disputes that are at the pre-litigation stage by the Rajasthan State Legal Service Authority.

It facilitates end-to-end dispute resolution processes such as easy drafting & filing of applications, one-click generation of e-notices, smart templates to draft settlement agreements, digital hearings powered by tailor-made video conferencing tools, etc. Additionally, it offers an AI-powered voice-based interactive chatbot along with advanced data analytics tools to help gain deeper insights into the functioning of LokAdalat through custom reports and

BI Dashboards for data-driven decision making.

The world's first JusTech (Justice Technology) company- Jupitice has been working with various quasi-judicial bodies and ADR centres across India to digitally transform and reboot the dispute resolution ecosystem.

Jupitice has researched, developed and designed the digital LokAdalat to bridge the existing justice gap addressing problems of digital divide by ensuring that justice reaches to the common people even in the remotest villages through web, mobile and CSCs, making affordable justice delivered as a service like other services.
