

# PBL:

## Progress Assessment Tool

Instead of a rubric, we have the PAT. Rubrics are great, but it turns a project into people fitting into a “box” of how you SHOULD learn and how I should assess you. This makes the process more personalized and customized to you as a learner focusing on feedback, reflection, and collaboration.

Use the  to write 8 Learning Targets. Learning Targets should be written in SIMPLE language that you understand.

Learning Targets “The What”	Success “The How”	Feedback & Reflections Ongoing Feedback & Reflection
Target 1:		
Target 2:		
Target 3:		
Target 4:		

Target 5:		
Target 6:		
Target 7:		
Target 8:
