Level 1: Kami Tools to Help You Get Started

Challenge 1: The Markup Tool

Highlight the word or phrase you find most interesting:

The solar system is a group of planets circling the Sun.

Challenge 2: The Comment Tool

1. Add a **Comment** reacting to one idea.
2. Add your **Comment dot** in the light purple circle on the right:

Each planet follows its own invisible path around the Sun.

Challenge 3: The Drawing Tool

Circle or **underline** the part that is most interesting to you:

The Sun gives energy and light to every planet in the solar system.

Level 2: Kami Tools to Help You Learn & Create

About the Understand Menu:

The Understand Menu is your go-to for tools like the **Dictionary**, **Picture Dictionary**, **Translate**, **Explain**, and **Adjust**:

Dictionary:

Look up any word to see what it means.

Picture Dictionary:

Look up any word to see what it means through a picture.

Translate:

Select text to see it in another language.

Explain:

Highlight text or an image, and it will explain it to you.

Summarize:

It makes long text shorter and easier to understand.

Adjust:

Rephrase text at different levels to help you understand it.

Challenge 5: The Understand Tool (Explain)

1. Use the  **Explain Tool** within the **Understand Tool** to generate an explanation of the sentence below
2. **Copy** the explanation
3. Use the  **Comment Tool** to paste the explanation as a **Comment**
4. Place your **Comment dot** inside the circle

An ecosystem is a community of living things that depend on each other to survive.

5. Use the  **Explain Tool** again and see if you can use it to explain the diagram below
6. Use the  **Text Box Tool** to label the missing labels in the diagram below:

Parts of a Volcano

Level 3: Kami Tools to Help You Share Your Ideas

Challenge 7: The Add Media Tool (Stickers)

- Choose a spot in the sentence below where a 🗨️ **Sticker** would help someone understand the main idea
- Add the **Sticker**
- Then write a short note using the T **Text Box Tool**, explaining why you placed it in that spot:

Sentence:

Gravity keeps the planets moving in steady paths around the Sun.

Your Note (Why did you place the **Sticker** in the spot above?):

Challenge 8: The Comment Tool (Voice Comments)

Record a short 🗨️ **Voice Comment** (10–15 seconds) answering this question. Place your **Comment dot** inside the light purple circle:

Name one place in space you want to explore.

Challenge 9: Turning In or Sharing Your Work

Your teacher will explain how you can share a Kami activity once you've completed it. Add a 🗨️ **Sticker** in the correct box:

I know how to share my activity with my teacher:

I need more help:
