

Emoji Summer Vacation!

Choose five or more emojis, images, or stickers that best summarize your summer vacation. Feel free to repeat the same emoji more than once and type these emojis into a text box below.

When you have finished, find a partner, and each of you share your “emoji summer vacation” Kami document with them. Each student has to make sentences into English, guessing what the other student did (e.g. they went dancing, they ate pizza, they laughed...). Each of you should do this on the other person’s Kami document.
