Welcome, Explorer!

Mission Control has selected you for an important journey across the galaxy.

Your Kami tools are your space gear. Use them to complete each mission!

Level 1: Kami Tools to Help You Get Started

T

Mission 1: Every Space Explorer Needs a Badge

Use the **Text Box tool** to type your name on the line.

This will activate your Space Explorer ID so you can enter the ship.

kami

Official Space Explorer Badge

Name

Complete each level to get familiar with some of our powerful tools.

Level 3: Kami Tools to Help You Share Your Ideas

Mission 6: Report your findings to Mission Control

- Choose a spot in the sentence below where a 🗒️ **Sticker** would help someone understand the main idea
- Add the **Sticker**
- Then write a short note using the T **Text Box Tool**, explaining why you placed it in that spot:

Sentence:

As you explore Planet Stardust, your scanner suddenly flashes. Bright stars swirl together to form a glowing, moving pattern in the sky.

Your Note (Why did you place the Sticker in the spot above?):

Mission 7: Sketch Your New Planet Discovery

Your spaceship travels across the galaxy. You enter a glowing nebula with bright, swirling colors. Suddenly, you see a new planet in the mist. No one has ever explored it before!

Use the **Drawing Tool** to draw an image of the new planet:
