

Creating a Digital Citizenship Pledge

BRAINSTORM —• **WRITE** —• **SIGN** —• **DECORATE** —• **DISPLAY**

In the space provided, **brainstorm** phrases to pledge as a class about how to be a good digital citizen. Examples might include "I will be kind online" and "I will show empathy in my comments."

Then, on the next page, **write** your class pledge and have everyone sign it, showing their commitment to being good digital citizens.

Feel free to **decorate** your pledge with stickers and images, maybe even a class selfie.

Finally, **display** your pledge in your digital or physical classroom as you wish.
