PROFILE

I always apply rigorous standards to everything that I do. Mistakes are rectified as soon as they are uncovered. During my time as a professional software developer I have always continued to improve myself and find faster and more efficient ways to get things done.

EXPERIENCE

KASIKORN BUSINESS TECHNOLOGY GROUP

SOFTWARE ENGINEER | Aug 2017 - Dec 2020

Contributing project name **K+ Shop**. Provided to CallCenter and operation team. I used Angular + Golang integrated with MongoDB, Redis, and Elasticsearch. We don't have a designer for our web. So If I got a requirement. I will design and develop with myself and assign it to the team.

- **Technology** : golang, Angular 7, mongodb, elasticsearch, dantium sed ut
- Coding follow requirements and delivery code in time
- Maintenance system (fixed bug, tuning system, upgrade dependency version)

WEB DEVELOPMENT FOR MADRIS HAIR SALON

FREELANCE | 2019

I create a similar website for my client website. They are BackOffice for **Madriss Hair Salon** that acts like POS and Product Master. The main feature

- Create an order, PO, PR
- Member Wallet
- Reports

I create all systems from scratch and deploy it on ubuntu with the manual script. And also create a cronjob for a backup database to the cloud.

WEB DEVELOPMENT FOR MY KDBEER.DEV

FREELANCE | 2019 - PRESENT

I create my own website <https://kdbeer.dev> with Angular and Golang. I use MongoDB for my database and use Redis for store sessions. I have 2 sites.

- Website that allows everybody to access
- BackOffice for manage freelance and I have an editor to write a blog.

SKILLS

- Golang
- Typescript, Javascript
- Queue (Kafka, Pub/Sub)
- Kubernetes, Helm
- Database (Mongo, Postgresql)
- Elastic Stack (ELK)
- Angular, Vue
- Cloud (GCP, Azure)
- CI/CD (Jenkins, Gitlab CI)
- Microservice (Design, Implement)
- Team Management

INTERESTS

- Coding
- Reading
- Trading
- Writing Some Web UX
- Write a blog
- Make Some Video Tutorial

KORANIN DUANGMALA

SOFTWARE ENGINEER

KRUNGTHAI BANK (CONTRACT)

SOFTWARE ENGINEER | Dec 2020 - Jun 2021

Join the KTB Innovation Team to develop applications for banks and government sectors that have a large number of users and have an impact on the whole country. I have been using Golang as my primary language for web service development and have used many databases. For example PostgreSQL, MongoDB, Elasticsearch. Applications that have been published are as follows.

- Tungngern (ถุงเงิน)

INFINITAS BY KRUNGTHAI

SOFTWARE ENGINEER | Jun 2021 - Present

I got a promotion as a contractor. Become a full-time employee under **Infinitas** a subsidiary of Krung Thai Bank itself. The technology used is not much different from before, but more proficient and got a new role as a temporary tech lead, besides having to develop the system as usual, also have to manage the team to be able to deliver features according to the timeline. Applications that have been published are as follows.

- Gold Wallet Platform
- Paotang GLO (The Government Lottery)

EDUCATION

KASETSART UNIVERSITY KAMPHEANGSEAN CAMPUS

BACHELOR DEGREE | 2013 - 2017

As a Computer Engineering student, I have learned a lot in the fundamentals of software development, algorithms, and electronics.

- GPA: 2.74
- Won NSC 2017 western region
