Profile: 8/11/1990 – 2/8/2009 - Chestnut - 21 Registered AQHA progeny

The great cutting mare and Australia's top progeny earning cutting mare, ONE MOORE SPIN, was put down on 2nd August, 2009 due to a blocked small intestine that resulted in a large section being deprived of blood and dying. The story of this great cutting mare starts back in 1987.

Dave Christensen purchased ONE MOORE ROC R2-6074 for the Graham family in 1987. Dave had seen and been impressed with this mare at Rockhampton Sale. She was so intense on a cow and was just cow crazy. By ROC'O'LENA Q-1662 and from ONE MOORE R1-10265, she proved to be a handful when they got her home. They soon discovered that she needed nearly a whole day loping just to get her shown, but with unbelievable ability when finally ready to show. She was just too hard for Todd and Scott to prepare, even though Todd did show her with limited success.

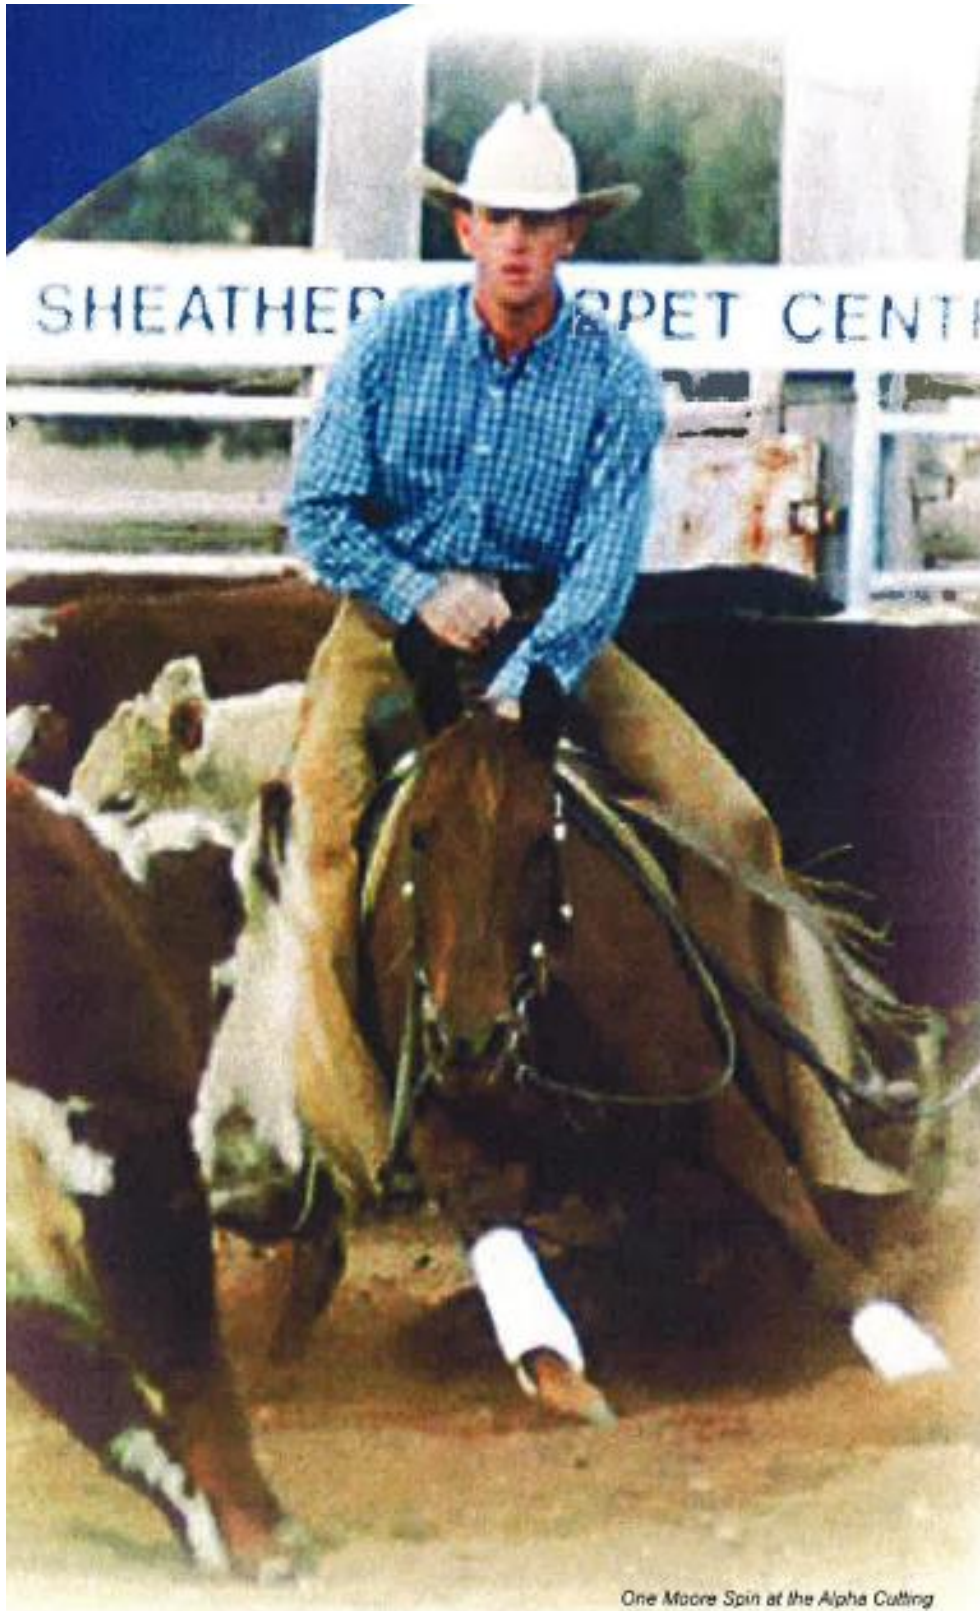

Trevor and Marilyn Graham then decided to send her down to Robert Woodward to be bred to DOC'S SPINIFEX Q-5015. ONE MOORE ROC foaled a chestnut filly down at Garrison and was rebred back to DOC'S SPINIFEX in 1990. Robert phoned Trevor to say he was sending the mare home as he didn't want the responsibility of looking after this tiny little filly foal that Trevor and Marilyn named ONE MOORE SPIN. ONE MOORE ROC foaled another filly the following year that the Graham's named SPIN N ROC Q-26113.

Todd was just nineteen years old at the time and already was an accomplished cutting horse rider and when the mare was ready to be broken, he was the one that commenced her career. Todd says "she was very small when he started riding her, very light in the face and very quick with her feet and had this uncanny ability to suck back in her moves that made her very hard just to sit on. She also had many of her mother's traits, cow crazy, very physical and a tendency to try and take over when on a cow". Todd turned Professional Trainer when he was 21 years old and was just 23 years of age when he had to show ONE MOORE SPIN in the Futurity in 1994. A back fence in the first round and again in the second round saw them not final. The only final they made that year was at Goondiwindi where again earning a back fence penalty in the first round and marking 150 in the second round saw them make their first Cutting Futurity Final and post a win. As an aged event horse, bad luck seemed to haunt ONE MOORE SPIN and while she was the talk of the fans with her stunning ability, she never won the NCHA Futurity or the Derby where the big money was. She won and placed in other Futurities and Derbys run by Affiliates of the NCHA. She won the NCHA Spring Derby in 1995 and the Classic at Goondiwindi in 1997. She also won the Diamond Mare Challenge at Daybro in 1996. From 1997 onwards she was virtually unbeatable in Open competition where most of her lifetime earnings of \$111,000 plus came from.

Three times NCHA Gold Cup Champion in 1997, 1998 and again in 2001 where she set an equal World Record score of 232 points from three judges.

That year, the NCHA found some bigger Brahman cows that had all the challenge needed to set the scene for a great Open and the little mare rose to the challenge in spectacular fashion with the toughest run ever witnessed in a cutting pen in Australia. She won the Equitana Masters Open Cutting twice and almost every other major Open event on the NCHA circuit.

One Moore Spin at the Alpha Cutting

The full sister to ONE MOORE SPIN, SPIN N ROC won the NCHA Futurity in 1995 and was the first of three consecutive Futurity wins for Todd. SPIN N ROC was lost foaling a few years later and there are two full sisters to ONE MOORE SPIN that Todd still retains in his broodmare band.

ONE MOORE SPIN was finally retired from competition and spent her remaining years as an embryo donor, never having a natural foal. She was just 19 years old at the time of her passing and her mother, ONE MOORE ROC was also lost that year at age 28.
