PRESIDENT REPORT 2024

RICKY GLEN - PRESIDENT

Dear Members,

Firstly, I would like to thank the Board of the AQHA for having the faith in me to elect me again into the Presidents position. I feel that over the past 12 months, we have strove to keep the membership informed of the going on within the AQHA by expanding our social media presence and this has been well accepted by the general membership. The board has been very cohesive and it has been a pleasure to work with them in getting things done for the AQHA as a whole.

The AGM held recently in Brisbane was a very quick meeting and this was followed by the awards dinner were members, after receiving their end of year accolades, let there hair down on the dance floor and a good night was had by all. It was an honor to have Terry O'Hanlon and his wife Kate attend, Terry was a past president of the AQHA so many memories were discussed at the dinner. I would like to welcome the 4 newly elected board members for the next 3 year term, Kane Skopp, Kim Johnson, Liz Keating and John Steel who was a past board member but rejoins us again.

I would also like to thank the other people who were nominated but were not elected. Peter Belden, a past president for many years and a board member for 20 plus years chose not to re stand and thanks to him for his help and guidance in the past to help the AQHA become one of the leading horse bodies in Australia today.

The next 12 months will again be a busy time with the new portfolio holders getting their sub committees ratified and then getting down to business and I will ensure the membership is advised of our progress moving forward.

I also would point out that all of the directors are available to the membership if you have any questions at all, you will find a list of directors along with the portfolios so you can direct your questions to the right people to get the answer you are seeking.

Christmas is not far away so no doubt you are all in the planning mode for this and if I don't catch up with you before this, I wish you all the best for this and have a great new year.

Yours Faithfully Ricky Glen - AQHA President

Angela Balton & SURE A FINE CRYSTAL

A GARRYOWEN JOURNEY

Q-78145

WORDS BY: LYN HOFFMANN © 2024 ★ PHOTOS BY: ANGIE RICKARD PHOTOGRAPHY & ANDREA DUNN

Garryowen Equestrienne Turnout competitor, Angela Balfour and her lovely gelding, Sure A Fine Crystal Q-78145, recently turned the heads and hearts of many competitors and spectators at the event. Used to the traditional class breeds, like Thoroughbreds and Warmbloods, they could not believe there was a Quarter Horse competing, and so well, too!

or Angela Balfour, of Werribee, Victoria, the Garryowen dream unintentionally began for her when she was a 10yo, riding her Welsh Pony at Pony Club. The level of presentation in traditional showing had caught her eye, and she knew in her heart it was what she wanted to do. With dreams to compete at the Royal Melbourne Show, qualifying for the Royal became her biggest goal. She showed various Thoroughbreds and Warmbloods at Agricultural Shows, and not only qualified to compete at the Royal, but also the Show Hack Council HOTY Show. In 2011 and 2012, she competed twice in the Garryowen, then riding Thoroughbreds, going on to continue showing and riding the more traditional class breeds.

I'd been having bad migraines,' Angela explained. 'So had sold my Warmblood, with no idea that I'd soon be meeting my next top level show horse. It was early 2023, and an 11yo palomino Quarter Horse was advertised on social media, as a beginner's horse. A friend was keen, so I helped her buy the gelding, sight unseen. But after just a few rides at home, it was clear Duncan wasn't for beginners.'

Wanting to know the horse's history, Angela called Duncan's breeders, Lizzie and Don Newnham. Sired by

the outstanding imported stallion, Sure A Fine Cowboy Q-70898, and out of the mare, Good N Slick Q-64585, Angela and her friend learned that Duncan had been sold to a buyer, 12 months prior. Rather than confront anyone, Angela's friend simply asked her to take the horse, work him and sell him on for her.

'Duncan definitely had issues, but in August, 2023, I felt there was something about him, so I decided to buy him myself, to train and show him in what I knew—traditional classes. Duncan, who was 16hh, was very naughty to show, often refusing to leave the line-up and trying everything he could to avoid doing as he was asked, to the point of going sideways, pig-rooting, rearing, backing up out of the ring, or simply freezing up. I sometimes thought we were never going to get through it, but in 12 months, I managed to turn Duncan's behavior around. Karen Blythe, my wonderful Dressage coach, helped me through all of it and I so appreciated her help.'

Angela says he's learned a lot, and that now, she and Duncan have a great understanding, but adds that he's a horse that does like to destroy rugs and feed bins, so distracting him with paddock toys is a must.

'Persevering with Duncan has been so rewarding, with all my expectations surpassed! Today, he is a far different horse than the one I started with. We worked very hard in the short time we had, qualifying for entry to the Royal Melbourne Show by earning nine wins in Show Hunter for his height, and three wins for my Rider classes. We actually exceeded the wins required, all while competing against the more traditional breeds.'

Prior to the Garryowen, Angela was grateful to be able to benefit from some amazing lessons with Lynda Hayes, who'd won the Garryowen in 2009. She credits Liz & Don Newnham, for always giving her their wonderful support, and Karli & Wes Roderick, of Rockview Ranch, who granted Angela with the use of their facilities.

THE GARRYOWEN

Steeped in tradition, the Garryowen Equestrienne Turnout, one of Australia's most prestigious equestrienne events, has just celebrated its 90th year. The award is named after three-time Royal Melbourne Show Champion saddle horse, Garryowen, whose owner, Violet Murrell, died in 1934, trying to save the horse from a stable fire. As a mark of honour and respect to Violet, a fresh, white gardenia is worn by riders in the event

This year, 30 horses and riders were judged on conformation and soundness, manners and paces, saddlery, costume, riding ability and overall appearance. As long as prior eligibility criteria are met, female riders, 18 years and over, who have also entered a class at the Royal Melbourne Show, are eligible to enter. The rules can be found on the Royal Melbourne Show website. Angela explains that the Garryowen is all about precision and perfection, all according to the rules of high-level, historically accurate presentation and showing.

For the Garryowen, it's crucial to have everything fitting perfectly, from the rider's attire and tack, to the grooming and presentation of the horse, all must be precise. With the bridle,

everything must fit on the middle hole, and the buckles must do up at the right eye-level. I purchased a made-to-measure bridle, colour-matched to his saddle, which complemented his colour, and a custom-made number holder. I sourced two three-buckle girths for him. When doing those up, the two outside girth straps must sit on the 4th hole of the two outside buckles, and the middle girth strap must sit on the 3rd hole of the middle buckle. Your stirrup leathers can't go back behind the edge of the flap of your saddle. It's precise.'

At the Royal Melbourne Show for five days, Angela was so indebted to her dedicated help team, Leanne, Lisia and Lucinda, who went above and beyond for the whole time! Duncan had come a long way, and at times, it was hard to keep the emotions in check.

'When Duncan and I walked out to the ring for my first class—my rider class—I was quite teary.' Angela admitted. 'I couldn't believe we were actually there. Duncan worked beautifully in every class he was entered into. We placed 6th in my Novice Rider 25 & over, then 3rd in the Novice Show Hunter Hack 16-16.2hh. Open Hunter Hack 16-16.2hh, Providence Cup. Duncan performed so beautifully and I could not fault his workouts.'

Garryowen day started very early, with Duncan saddled by 6am and ready for arena familiarization, which he handled well.

He'd later be washed, groomed and plaited ready for the day's competition, before Angela got herself ready. When the time come for each of the two turnout events, Duncan excelled in performance and behaviour, with Angela, quite lost for words.

'In the Garryowen Equestrienne Turnout, and the Esquire Turnout class,' Angela said. 'Duncan gave me the most beautiful workouts in each class, and stood perfectly to have his gear inspected. In the line-up for the Garryowen, Duncan kept it together, despite the huge length of time it took. I was immensely proud of him.'

Yes, Angela is proud to be riding her Quarter Horse, and is even looking forward to trying a few AQHA show classes, perhaps some Western classes, and a class that Duncan has previously been shown in, the Hunter Under Saddle. With his looks, size and lovely movement, he's sure to be noticed!

'When I started with Duncan,' Angela says, thinking back.' I never dreamed that 12 months on we'd be competing at the Garryowen! In the lead up, we had some tough times, but we never gave up and we still got there, and the rewards have been incredible! Competing at the Garryowen was mind-blowing, so if our story has inspired someone, don't hesitate! Have faith in yourself, your horse and never give up, because the sky is the limit and anything is possible!'

AQHA INCENTIVE AWARD WINNERS

2024 NUTRIEN MASTERS SALE & GRADUATE CAMPDRAFT

Premium genetics, training and confidence in the concept have all played a part in delivering a recording breaking result at this year's 2024 Masters.

utrien Equine were delighted with the 3rd Nutrien Masters Sale results. The strength in statistics reflects the quality offering of open age horses from vendors and is a true testament to the commitment and resilience of the industry and its members.

With sales negotiations still underway, the 2024 Nutrien Masters Sale has generated \$1,697,000 from 81 horses offered for sale, 76% sold for an overall average of \$27,371, which shows growth of nearly 9% on last year's returns to vendors.

There was good demand for proven female lines again this year, with a range of quality mares bringing an average of \$29,891. Lot 87 METALLIC BOOTS Q-97488 (Metallic Cat x Dora Rey) was the star of the show as top price mare and lot of the sale, selling for \$92,500 to C King & M.M King of Barraba, New South Wales. American genetics were a common theme amongst other top prices of the 2024 sale, with the 11-year-old PIMPED UP CAT Q-82364 on account of Frederick L & Carlee A Neilsen achieving the top price stallion. By High Brow Cat out of Dainty Pepto Girl (Peptoboonsmal) he boasts proven genetics on both sides and was purchased by JLH Cattle Co for \$60,000.

The gelding market grossed more than half a million dollars and averaged \$22,125, with 24 notable lots sold. Top priced gelding was sold at Lot 40–JACK REACHER Q-92511 on account of Koobah Performance Horses. The 7-year-old Koonamara Spoonfula Badge x Lady So Smart gelding sold for \$75,000 to PR & SJ Knudsen.

The level of competition at the Nutrien Masters is undoubtedly improving every year – with 2024 seeing some of the best performances.

Classic Challenge excruciatingly close in the end. Backing up their win from February, Leah Read and Lethal King Cole Q-94012 claimed victory with an aggregate score of 348. An exceptional young sire that was purchased back in 2021 as a 2-year-old colt for \$80,000 from breeder and vendor Brydie Hughes by the Challenge Syndicate.

After a nail biting final on Saturday night, Wallendbeen competitor David Thorn on One Stylish Jewel Q-97341 claimed the title of the 2024 Nutrien Graduate Campdraft winner. Purchased from Parker Investments at the 2022 Classic for \$40,000, the One Stylish Pepto x Destinys Fancy Jewel picked up the \$26,000 winners cheque.

Sunday morning continued on with some spectacular campdrafting with long time supporter Mat Holz and Nonda Last Frontier holding the lead to win the 2024 Navaho Open Campdraft. With a staggering 4-point lead, the Hazelwood

Conman x Nonda Dottie Papunya Stallion continued to add wins to his belt.

Wrapping the event up this year was the 2024 Nutrien Nursery Campdraft. Run and won by Emerald Hill competitor Michael Wilson on Royalish Q-97404 by 1 point. This Hottish colt was purchased at the 2022 Classic for \$72,000.

Nutrien Equine would like to extend thanks to staff, sponsors, cattle donors and vendors for their hard work in preparation for the sale and traders, spectators, AELEC staff, contractors and volunteers for their ongoing support.

The strength of the Australian Performance Horse industry is evident despite current economic conditions and Nutrien Equine are extremely proud to be at the forefront of its future growth and success.

66 'IT'S A PRIVILEGE TO HAVE A MARE OF THIS CALIBRE,' MAT SAYS

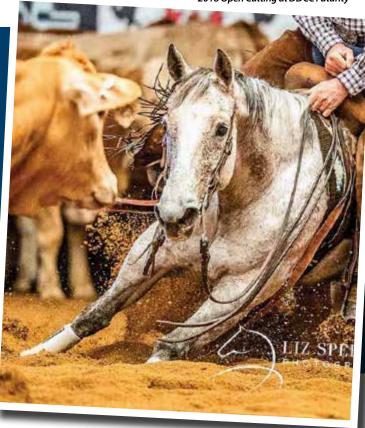

Chisums Blue Spin Q-72444 (Bluey) - winning the 2018 Open Cutting at DDCC Futurity

GREG & TRACEY CLAVARINO
OF CLEARVIEW QUARTER
HORSES BRED 'ONE TIME
BLUES' AND WITH A GROUP
OF THEIR FAMILY AND
FRIENDS ARE ENJOYING
SYNDICATED SUCCESS!

ne Time Blues, or affectionately known as Katie, was named after the UK royal, Princess Kate. Greg says, "true to her namesake, she has a lovely, kind nature".

Katie, is sired by the great USA-based stallion, One Time Royalty, which is owned by SDM Quarter Horses, Australia.

He is an earner of \$447,543, and the 2010 NCHA Open Futurity Champion (USA) and is the sire of money-earners in excess of \$3.5M. Her dam, Chisums Blue Spin, known as Bluey, was purchased from Corey Holden, as a yearling. She was sired by RS Chisum, and out of the Doc's Spinifex mare, Cash's Spin.

Bluey also had an impressive cutting career, before she retired to the Clearview Quarter Horses broodmare barn. Winning the Open Cutting at the 2018 Victorian Futurity, she also won two Open Derbies, two Open Classics and the Deb Elliott Memorial Mare Stakes in 2018 to name a few.

Katie was broken in by Ian Stringer's son, Caleb. He did a great job and had her for a little while to put some miles on her. After that she was sent to Corey Holden, who originally started her on cattle and set her up for the 2022 Futurity.

Greg has commented "her mother, took a little time to mature but seemed to really come on strong as 4 and 5 year old" so while Katie was home for a break the discussion was had around selling her. "We've been in the Cutting industry for around 35 years and have been breeding for about 25 years". We'd thought about doing some other things, however, a group of my family and friends convinced us otherwise. A syndicate was formed, "Nunya Investment Syndicate, which is managed by my wife, Tracey". The syndicate then leased Katie for 12 months with Katie half-way through her Futurity year, it was mutually decided to send her off to Mat Oakley, of Mat Oakley Cutting Horses, at Walcha, NSW."

Under Mat's training, Katie and Mat just clicked straight away, as she started to follow in her dam's footsteps. It's certainly brought a lot of excitement for us all, and their combined success has really blown us all away.

Mat says "Katie's the kind of horse you always want in your program, she has a very big motor & is enthusiastic about her job. He continued "She has to be one of the fastest 3 year olds, when she turns to get back to a cow".

Greg and Tracey have enjoyed following the success of Mat and Katie. Mat also has her two half sisters in his string, "Metallic Blues", by Metallic Cat, which is in joint ownership with Kim and Carole Landsdowne, and "Outta The Blue", by Smooth As A Cat so Greg and Tracey get to watch all three of them in action. Greg and Tracey travelled to all but one of the Aged event Derby's and other weekend shows in 2023. The times they didn't get to a show, they would have family and friends around for a barbecue to watch it online together, which was a lot of fun for them all.

Greg says that Katie has made them all very proud, earning around \$30k throughout 2023.

It has been very exciting for everyone connected with her and although half of those within the syndicate have never even ridden a Cutting horse, they have had all the fun and excitement of being an owner through the Nunya Investment Syndicate.

'Katie only gets home for a spell,' Greg says. 'But when she's home, she's treated like royalty!"

'Also, as part of the 12 month syndicate deal, an embryo transfer with Smooth As A Cat was done, so that's now in the recipient mare, and hopefully, in a couple of years' time the syndicate may see a repeat of the fun and success they've had with Katie!'

A YEAR OF GREAT RESULTS!

With Mat Oakley in the saddle, the combination had a phenomenal 2023 year. Katie made three Open Derby

Finals and in addition to that they were the 2023 NCHA Open Derby Reserve Champions. Mat finished out the year on such a high stepping out of the arena as the 2023 Victorian Open Derby Champion and she is also in the Top 10 2023 NCHA National Standings in the Novice Horse event. Mat couldn't be more happier with Katie's success.

'It's a privilege to have a mare of this calibre,' Mat says. 'Because mares like her don't come along every day. Thanks to the Nunya Investments Syndicate for entrusting us with Katie, we're honoured to have this mare in our show team. We'd like to thank our help team, for every show, for their hard work, care and preparation of each horse, it's all much appreciated.

Greg and Tracey Clavarino, along with the Nunya Investment Syndicate, would like to thank Mat and Casey Oakley for the outstanding job and great effort they and their team put in with the horses during 2023, and look forward to seeing what this year could bring.

MINERALS AND MARES

ARTICLE BY: DR JENNIFER STEWART BVSC BSC PHD EQUINE VETERINARIAN,
CEO JENQUINE AND CONSULTANT NUTRITIONIST EQUINE CLINICAL NUTRITION

LATE GESTATION - such an exciting time with our anticipation and the foetus both growing rapidly. The last trimester is the 8th-11th month of pregnancy for mares. Most of the foal's bone calcium is deposited in the last 2 months of gestation and the foal is building it's liver stores of minerals needed for healthy bone growth after foaling. These minerals are low in mares' milk and without liver reserves, the risk of developmental orthopaedic diseases in young horses is increased.

o support the rapidly growing foetus, important adequate levels of minerals are provided in the late pregnant mare's diet. Good pasture is the cornerstone and major source of minerals in the mare's diet. But pastures vary in nutrients levels from season to season and also from year to year. In the early 1980's researchers found that the calcium intake of mares on studs in Victoria was below requirements in winter and spring when few pastures contained calcium-rich legumes. During the last 3 months of pregnancy and lactation, most forages do not provide sufficient calcium or other trace minerals to meet the mare's needs. Lucerne and clover hays are usually higher in calcium than phosphorus, but levels of minerals vary

greatly from different hay crops. Drought-affected pastures are an even poorer source of minerals, providing negligible amounts of calcium, magnesium and phosphorus. When pastures (and the hay made from them) mature, additional calcium, magnesium, phosphorus, protein and energy are usually required to support pregnancy and lactation.

CALCIUM:

Calcium and magnesium are critical for bone and cartilage development and mares need additional dietary intake to meet the increased bone growth of the foetus. As the mare diverts calcium to the growing foal, her blood calcium level falls and blood calcium levels are lower in pregnant mares compared to non-pregnant mares. During late pregnancy, the mare draws

heavily on the calcium reserves stored in her own skeleton and mares on borderline or low calcium intakes have lower blood calcium and reduced bone density and strength. Mares gradually lose bone density during the first 3 months of lactation, but by 6 months after foaling, bone strength is restored if dietary calcium intake is correct. Mares on below recommended calcium intakes had still not restored their bone density at 10 months after foaling. And, foals of mares on sub-optimal calcium intakes had thinner, weaker cannon bones even at 10 months of age.

Magnesium (Mg) deficiency occurs when dietary levels are too low or when demand for magnesium increases such as during long distance transportation, pregnancy and lactation. Low blood magnesium is more likely in high-producing mares, especially if transported long distances without feed. It is recommended that pregnant and lactating mares receive 10-15g of magnesium each day. Typical diets often do not meet magnesium requirements and deficiency has been linked to developmental bone

diseases in growing horses. Supplementing foals with magnesium from birth to 12 months of age resulted in a 50% reduction in OC of the hock and fetlock at 5 months of age and a 14% reduction in stifle OC at 12 months of age.

There are other veterinary clinical conditions in pregnant and lactating mares that are associated with calcium and magnesium. Blood calcium and magnesium levels have been found to be low in mares who retain the placenta and in some colic cases. Broodmares are at increased risk of colic – especially from 7 days before to 90 days after foaling. Low levels of blood calcium and magnesium can alter gut motility and a recent study found that mares with post-foaling colic showed signs of acute, sudden dietary energy deficiency and lower blood calcium for 2-4 weeks before and after foaling.

Low levels of blood calcium and magnesium can occur simultaneously in transported horses and in pregnant and lactating mares. Compared to other species, mares aren't very prone to 'lactation tetany' (also called 'milk fever' and pre-eclampsia), which occurs when the calcium demand

www.jenquine.com

for milk synthesis exceeds immediate replenishment from the digestive tract and from bone stores. Most reported cases occurred around 10 days after foaling or a few days after weaning but it can occur anytime from before birth through to weaning.

Oxalate pastures Mares grazing grasses such as kikuyu, buffel and setaria have a much greater need for calcium supplementation. High levels of soluble and insoluble oxalates inhibit calcium absorption from the gut. Insoluble calcium oxalate doesn't dissolve in the gut and passes with the calcium attached into the manure – which means any calcium in the grass is lost to the horse. But soluble oxalates are equally important. The soluble oxalates (mainly sodium and potassium) are dissolved, releasing the sodium and potassium, but the dissolved free oxalate will bind tightly to any other calcium in the diet – and can be absorbed into the blood and deposited in the kidneys leading to kidney failure.

The calcium: oxalate ratio of the diet is important as it determines how much calcium the horse can actually extract from the diet – on paper a diet might appear to provide enough calcium but in reality much of the calcium is not available. A ratio of 0.5 or less is unsafe.

To increase the ratio, we need to increase the calcium and/or decrease the oxalate.

To reduce oxalate intake we need to reduce pasture intake and this can be done by feeding some hay – preferably lucerne which provides additional calcium as well as protein and energy. This will decrease the amount of pasture they need to eat. Oxalate levels are highest in leaves of young growing grass and hay is a good way to reduce grass intake.

Some horses need 120g of limestone which will bind to soluble oxalate and prevent absorption and kidney damage. The soluble oxalate is a big problem because it binds to calcium in the gut AND it's absorbed into the blood. Setaria has 35 – 40g of oxalate per kg. A horse eating ½ - 1kg of grass an hour will consume about 10kg grass/day. It will also take in 350 to 400 g of oxalate. Depending on the soil sodium, potassium levels the amount of soluble oxalate will vary. Generally around 50 – 80% of the oxalate will be soluble – hence the importance of inorganic calcium to bind it ie lime.

WHEN THE DIET IS CALCIUM-DEFICIENT, THERE ARE 5 ISSUES TO CONSIDER:

- 1. meet the daily calcium requirements
- provide extra calcium to remineralise the bones for horses on oxalate pasture or low calcium intake for 2 - 3 months this can take up to 12 months

- 3. mop up oxalates in the gut before they are absorbed into the blood and lead to kidney failure
- 4. block dissolved soluble oxalates (magnesium, potassium and sodium) which then bind to any free calcium. This is why some products recommend removing the horse from pasture for a couple of hours before and after feeding their supplement
- 5. balance the calcium: oxalate ratio for horses on oxalate grasses

IT'S IMPORTANT TO KEEP IN MIND:

- i. any product that contains only organic/chelated calcium can't prevent oxalate absorption into the blood and can't bind free oxalate in the gut
- ii. any product that doesn't include an organic form of calcium will be exposed to oxalate attack in the gut.

On oxalate pastures, the diet is calcium-deficient and the horse moves calcium out of the skeleton in an effort to maintain blood levels. Sometimes (in 15% of affected horses) the bones of the head are affected, hence the term 'bighead'. But in over 80% of horses there is no head swelling – but there is generalised skeletal osteoporosis with a cascade of symptoms - including lameness, fractures, tendon and ligament problems, joint pain, growth retardation, retained placenta and poor body condition.

Unfortunately, due to the wide range of oxalates in the grasses (Table 1.), how long the horse has been grazing the pasture and the individual horse, it is difficult to predict the calcium deficit in the diet and your veterinarian can advise. Pregnancy is an additional risk factor for triggering the disease.

TABLE 1. RANGE OF OXALATE LEVELS IN SOME GRASSES (g/kg)

Setaria	Setaria Sphacelata	12 - 70
Kikuyu	Pennisetum Clandestinum	4 - 25
Buffel	Cenchrus Ciliaris	12 - 50
Napier	Pennisetum Purpureum	26 - 38
Guinea	Panicum Maximum	11- 23

A general tendency of indiscriminately administrating mineral supplements to pregnant and lactating mares has developed in the last few years. Risks associated with using multiple supplements to meet individual nutrient requirements include selenium and iodine toxicity – and recently, high zinc intakes which have recently been found to be toxic to the beneficial bacteria in the gut.

During pregnancy and lactation the mare has to cope with remarkable mineral requirements, particularly in relation to calcium and magnesium and supplementation is generally indicated.
