

- The size of the bins are in cubic metres, not in length (eg 4 metre bin means 4m³)
- All private customers prices include ten (10) day hire, bins are charged at \$5.00 per day past this period
- Builders price includes forty two (42) day hire, bins are charged at \$4.00 per day past this period
- Cost is incurred every time the bin is emptied
- Persons hiring bins are responsible for the bin while on site
- Allowable weight by bin size
 - 2m³ allowed 0.5 Tonnes
 - 3m³ allowed 0.75 Tonnes
 - 4m³ allowed 1.0 Tonnes
 - 6m³ allowed 1.5 Tonnes
 - 8m³ allowed 2.0 Tonnes
- Bins over the specified weight are charged an excess relevant to the applicable regional council and waste type
- Not to be moved, not onto neighbours, footpath, road, medium strip
- No Wet Paint, Oils, Tyres, Chemicals, Asbestos, Gas Bottles, Fire Extinguishers, or Batteries allowed in bins

Council is now enforcing a category non-compactible waste. We have been informed that if a load is predominantly made up of these items, it will be classed as non-compactible and charged at \$400 per tonne:

- Wire
- Flashing
- Guttering
- Star pickets
- Reo
- Steel structures
- Mattresses
- Tyres
- Railway sleepers
- Railway line
- Rainwater tanks (metal, plastic and IBC)
- Power poles
- Copper logs
- Concrete
- Cool room panelling
- Corrugated iron
- Push bikes
- Fridge
- Freezers
- Air conditioners
- Security doors
- Metal bracing
- Waste that cannot be reduced in volume by being compressed.
