- 1 10 Standard of installation quality achieved
- 1 10 Effectiveness of practices in achieving a high level of customer service leading to client satisfaction with project outcomes
- 1 10 Level of implementation of best practice procedures/systems

Comments

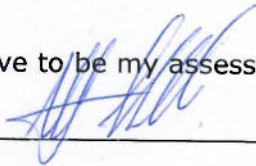

We would appreciate any additional comments you might have in relation to our performance.

BLUEDOG FENCES were engaged in the upgrade of high security fences surrounding our high voltage electrical zone substations. These sites are rated at extremely high risk when undertaking this type of work. BLUEDOG clearly demonstrated their ability to deliver a quality product while maintaining strict WHS compliance & on site safety. BLUEDOG maintained clear communication with us at all times of the project and were focussed on exceeding client expectations. I would have no hesitation to use or recommend BLUEDOG in the future.

Declaration

I hereby declare the above to be my assessment of the performance of the contractor
