Gwydir Group

ABOUT

Gwydir Group is a trusted company based in Moree, NSW. With over 20 years of hands-on experience, we're relied upon by farmers, businesses, and communities across Australia for quality construction, agriculture, and manufacturing services.

Whether it's building sturdy sheds and garages, grain storage solutions like silos or bunkers, or custom-designed shade structures, we deliver practical and reliable products tailored to your needs. Our skills extend to metal fabrication, trailers and trays, irrigation systems, grain handling equipment, and ongoing maintenance across NSW and Queensland.

We're proud to be part of the Shed Alliance network, and trusted agents for Siloz Silos and Global Sealing Services. At Gwydir Group, your satisfaction isn't just a goal—it's how we measure our success.

SAFETY

Safety isn't something we compromise on. Every project Gwydir Group takes on is backed by comprehensive insurance and strict compliance standards. From start to finish, our priority is making sure the job gets done safely, effectively, and hassle-free.

OUR DIFFERENCE

SERVICE AND SUPPORT

From the initial consultation to post-installation support, we offer a comprehensive range of services that ensure your project is completed on time, within budget, and to the highest standards.

EXPERTISE AND INDUSTRY LEADERSHIP

Our extensive industry knowledge allows us to understand the unique challenges faced by agricultural and industrial enterprises, particularly in harsh environments.

TRUSTED PARTNERSHIPS

By carefully selecting our partners based on their dedication to quality, reliability, and service, we ensure that every product we offer meets the highest standards for the conditions.

TAILORED SOLUTIONS FOR YOU

From custom silo solutions, storage sheds, or specialised handling equipment, our team works closely with you to ensure our solution meets your requirements.

SERVICES

The best solutions come from understanding your property first-hand. That's why we offer free onsite visits for all enquiries.

Our team gets to know exactly what's needed, ensuring we deliver solutions that genuinely fit your operation.

AGRICULTURE

At Gwydir Group, we know agriculture because we've lived it for over 25 years. Whether you're after grain storage, silo sealing, aeration systems, or farm fabrication, we have the expertise to get the job done right.

Our Moree-based workshop is home to experienced boilermakers and fabricators ready to craft solutions tailored specifically to your farm. From cotton gin maintenance to shed modifications and feedlot repairs.

FABRICATION

Our fabrication workshop is equipped to handle virtually any metalwork project, big or small.

We use Australian-standard materials, delivering services including:

- ❑ Pipe bending and metal folding
- ❑ Plate cutting and drilling
- ❑ Aluminium welding
- ❑ Custom structural sheds and industrial structures
- ❑ Irrigation pump stations, pipework, flood gates, catwalks
- ❑ School and community infrastructure
- ❑ Feedlot upgrades, cattle grids, and tank repairs
- ❑ Custom trailers and vehicle repairs
- ❑ Grain handling equipment repairs and maintenance

IRRIGATION

Reliable irrigation is essential on any farm or property. Gwydir Group designs, installs, and maintains custom irrigation solutions, including pipes, pumps, and complete pump stations. Our systems are practical, effective, and tailored to your property's unique requirements.

BUNKERS AND TARPS

We're one of Australia's leading manufacturers of grain storage bunkers, providing robust steel and concrete walls equipped with aeration systems that protect your grain from mould and pests. As proud distributors of Landmark polyfabric tarps, we offer tough, weather-resistant grain covers known for their reliability in even the harshest conditions.

FARM SHEDS

A quality farm shed is essential. At Gwydir Group, we understand farming conditions, helping you choose the right shed size, location, and features. Our sheds are tough, secure, and designed specifically for Australian farms.

CONSTRUCTIONS

Building reliable, long-lasting structures is what Gwydir Group does best. We lead the market in designing and constructing commercial and industrial steel sheds throughout Northern NSW and Southern QLD.

COMMERCIAL CONSTRUCTION

Our structural steel is fabricated in our Moree workshop, supported by local draftsmen, engineers, and painters.

INDUSTRIAL SHEDS

Our industrial sheds offer unparalleled quality and support, helping you expand your workspace or storage facilities efficiently.

RESIDENTIAL CONSTRUCTION

From simple carports to complex garages, we offer competitive prices, quality materials, and durable designs.

SILOS

SILÖZ

As regional distributors for SilOz Silos, we offer tough, Australian-made silos designed to increase your grain storage capacity and protect your investment.

Built from high-strength galvanised steel, these silos feature wide sheets, fewer joins, and easy expansion options.

SilOz holds the same values as Gwydir Group, of high quality, durability and standards across the range. The silos are manufactured from galvanised high strength sheet steel and hot-dipped galvanised accessories.

Engineered to last, SilOz silos possess the following benefits:

- Large wall sheets with fewer joins and bolts than other silos
- Wide corrugation profile reduces the risk of internal obstructions
- Manufactured in Australia from predominantly Australian steel
- Galvanised and heavy-duty construction
- 30-degree roof for maximum capacity
- Ladders and platforms that conform to Australian standards
- Ability to be upgraded to increase capacity as storage needs grow

FARM ON-GROUND SILO SPECIFICATIONS

SEALING

Proper silo sealing protects your grain and reduces chemical use. We're agents for Global Sealing Services, providing advanced sealing products including Glo-mastic, Flexible Filler, Heat Reflective Paint, Tarpseal, and Under Ridge Filler—ensuring your grain stays safe and dry year-round.

As agents for Global Sealing Services, we offer the following products:

- ☐ **Glo-mastic**
- ☐ **Global Flexible Filler**
- ☐ **Global HRC (Heat Reflective Paint)**
- ☐ **Global Tarpseal**
- ☐ **Global Under Ridge Filler**
- ☐ **Sealer A 101**

HANDLING

Move grain quickly and efficiently with Gwydir Group's grain handling solutions:

Drag Chain Conveyors

Built to move large quantities safely and reliably, in painted, galvanised or stainless steel options.

Bucket Elevators

Durable bucket elevators designed for dust-free, easy maintenance grain transport.

Grain Bins

Manage your grain storage and transport efficiently, maintaining top quality throughout the process.

PARTNERED WITH PERRY

Our partnership is designed to bring the best in industrial engineering to our customers, ensuring that every project has the benefits of combined expertise and innovation of two industry leaders.
