Significant changes in state of affairs

In the opinion of the Directors, there were no other significant changes in the state of affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2014 that has significantly affected, or may significantly affect:

- (i) the operations of the Fund in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund and in accordance with the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

Other than detailed below, no indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the Fund, or the Responsible Entity.

The Responsible Entity has paid premiums totalling \$24,140 plus GST (2013: \$25,133) to insure each of the following directors of the Fund against liabilities for the costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the Fund other than conduct involving a wilful breach of duty in relation to the Fund:

Rob Hopkins
Bill Ryan
Michael Walsh

Indemnification of auditors

The auditors of the Fund are in no way indemnified out of the assets of the Fund.

Proceedings on behalf of the Fund

No person has applied for leave of Court to bring proceedings on behalf of the Fund or intervene in any proceedings to which the Fund is a party for the purpose of taking responsibility on behalf of the Fund for all or any part of those proceedings.

The Fund was not a party to any such proceedings during the year.

Fees paid to and interests held in the Fund by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 14 to the financial statements.

No fees were paid out of Fund property to the Directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 14 to the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 7 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the Statement of Financial Position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

1 General information

These financial statements cover Smallco Broadcap Fund ('the Fund') as an individual entity. The Fund was constituted and commenced operations on 31 July 2008 as a wholesale fund, and subsequently registered with the Australian Securities and Investments Commission on 9 April 2013. The Fund will be terminated on the 80th anniversary of the day before the Fund commenced.

Smallco Broadcap Fund is a registered managed investment scheme under the *Corporations Act 2001*.

The principal activity of the Fund during the financial year was conducting securities investment activities in Australia, investing in a combination of large and small Australian listed companies in accordance with the provisions of the Fund's Constitution.

The Responsible Entity of the Fund is Smallco Investment Manager Limited (ABN 89 092 626 090) (AFSL 224108) (the 'Responsible Entity'). The Responsible Entity's registered office is Suite 1805, Level 18, 109 Pitt St, Sydney, NSW 2000. The Responsible Entity is incorporated and domiciled in Australia.

The financial statements of the Fund are for the year ended 30 June 2014. The financial statements are presented in the Australian currency.

The financial statements were authorised for issue by the Directors on the date the Directors' Declaration was signed. The Directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. The Fund is a for-profit unit trust for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statement of Financial Position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unitholders. The amount expected to be recovered or settled within twelve months after the end of each reporting period cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards

The financial statements of the Fund also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Fund

The Fund had to change some of its accounting policies as the result of new and revised accounting standards which became effective for the annual reporting period commencing on 1 July 2013. The affected policies are:

- AASB 13 *Fair Value Measurement* and AASB 2011-8 *Amendments to Australian Accounting Standards arising from AASB 13*

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Changes in accounting policy: Fair value measurement

AASB 13 *Fair Value Measurement* aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards. The standard does not extend the use of fair value accounting but provides guidance on how it should be applied where its use is already required or permitted by other Australian Accounting Standards.

On adoption of the standard, the Fund has changed its valuation inputs for listed financial assets or liabilities from quoted bid and ask prices to quoted last sale prices consistent with its unit pricing policy. There has been no material impact to the net gains/(losses) on financial instruments held at fair value through profit or loss.

Previously the fair value of financial liabilities was measured on the basis that the financial liability would be settled or extinguished with the counterparty. The adoption of AASB 13 has clarified that fair value is an exit price notion, and as such, the fair value of financial liabilities should be determined based on a transfer value to a third party market participant. There is no impact to the Fund as the Fund does not engage in derivative transactions.

(iii) New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2014 reporting periods and have not been early adopted by the Fund. The Directors' assessment of the impact of these new standards (to the extent relevant to the Fund) and interpretations is set out below:

- (i) AASB 9 *Financial Instruments (2009 or 2010 version)*, AASB 2009-11 *Amendments to Australian Accounting Standards arising from AASB 9*, AASB 2010-7 *Amendments to Australian Accounting Standards arising from AASB 9 (December 2010)*, AASB 2012-6 *Amendments to Australian Accounting Standards - Mandatory Effective Date of AASB 9 and Transition Disclosures* and AASB 2013-9 *Amendments to Australian Accounting Standards - Conceptual Framework, Materiality and Financial Instruments* (effective from 1 January 2017)

AASB 9 *Financial Instruments* addresses the classification, measurement and derecognition of financial assets and financial liabilities. It has now also introduced revised rules around hedge accounting. The standard is not applicable until 1 January 2017 but is available for early adoption. The Directors do not expect this to have a significant impact on the recognition and measurement of the Fund's financial instruments as they are carried at fair value through profit or loss. The derecognition rules have not been changed from the previous requirements, and the Fund does not apply hedge accounting. The Fund has not yet decided when to adopt AASB 9.

There are no other standards that are not yet effective and that are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

(b) Financial instruments

(i) Classification

The Fund's investments are classified as at fair value through profit or loss. They comprise:

- Financial instruments designated at fair value through profit or loss upon initial recognition

These include financial assets that are not held for trading purposes and which may be sold. These are investments in exchange traded equity instruments.

Financial assets and liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Fund's documented investment strategy as outlined in the Product Disclosure Statement. The Fund's policy is for the Investment Manager to evaluate the information about these financial instruments on a fair value basis together with other related financial information.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(ii) Recognition/derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liabilities are discharged.

(iii) Measurement

Financial instruments held at fair value through profit or loss

At initial recognition, the Fund measures financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statement of Comprehensive Income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within net gains/(losses) on financial instruments held at fair value through profit or loss in the period in which they arise.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs. Prior to 1 July 2013, the quoted market price used for financial assets held by the Fund was the current bid price and the quoted market price for financial liabilities was the current asking price. The Fund adopted AASB 13 from 1 July 2013 and has changed its valuation inputs for listed financial assets or liabilities to last sale price consistent with its unit pricing policy.

For further details on how the fair value of financial instruments is determined, please see Note 4 to the financial statements.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where the Fund currently has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

As at the end of the reporting period, there are no financial assets or liabilities offset or which could be offset in the Statement of Financial Position.

(c) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders. The units are classified as financial liabilities as the Fund is required to distribute its distributable income. The units can be put back to the Fund at any time for cash based on the redemption price. The value of redeemable units is measured at the redemption amount that is payable (based on the redemption unit price) at the end of the reporting period if the unitholders exercised their right to redeem units in the Fund.

2 Summary of significant accounting policies (continued)

(d) Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

(e) Investment income

Interest income earned on cash and cash equivalents is recognised in the Statement of Comprehensive Income on an accruals basis.

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an offset to dividend income. The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded net of withholding tax in the Statement of Comprehensive Income.

Other changes in fair value for financial instruments held at fair value through profit or loss are recorded in accordance with the policies described in Note 2(b).

Trust distributions are recognised on an entitlement basis.

Other income is recognised on an accruals basis.

(f) Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

(g) Income tax

Under current legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund.

Financial instruments held at fair value may include unrealised capital gains. Should such a gain be realised, that portion of the gain that is subject to capital gains tax will be distributed so that the Fund is not subject to capital gains tax.

Realised losses are not distributed to unitholders but are retained in the Fund to be offset against any future realised capital gains. If realised capital gains exceed realised losses, the excess is distributed to the unitholders.

The benefits of any imputation credits and foreign tax paid are passed on to unitholders.

(h) Distributions

In accordance with the Fund's Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. The distributions are recognised in the Statement of Comprehensive Income as finance costs attributable to unitholders.

(i) Increase/decrease in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the Statement of Comprehensive Income as finance costs.

2 Summary of significant accounting policies (continued)

(j) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. Trades are recorded on trade date, and for equities normally settled within three business days. A provision for impairment of amounts due from brokers is recognised in the Statement of Comprehensive Income when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker. Indicators that the amount due from brokers is impaired include significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation and default in payments.

(k) Receivables

Receivables may include amounts for dividends, interest and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

Receivables also include such items as Reduced Input Tax Credits (RITC).

(l) Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

As the Fund has a contractual obligation to distribute its distributable income, a separate distribution payable is recognised in the Statement of Financial Position as at the end of each reporting period where this amount remains unpaid as at the end of the reporting period.

Distributions declared effective 30 June in relation to unitholders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

(m) Applications and redemptions

Unit application and redemption prices are determined by reference to the net assets of the Fund divided by the number of units on issue, adjusted for buy/sell spreads at 0.45%.

(n) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as custodial services and investment management fees, performance fees have been passed onto the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%; hence investment management fees, performance fees, custodial fees and other expenses have been recognised in the Statement of Comprehensive Income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statement of Financial Position. Cash flows relating to GST are included in the Statement of Cash Flows on a gross basis.

(o) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For more information on how fair value is calculated please refer to Note 4 to the financial statements.

3 Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management program focuses on ensuring compliance with the Fund's Product Disclosure Statement and seeks to maximise the returns derived for the level of risk to which the Fund is exposed. Financial risk management is carried out by the investment manager under policies approved by the Board of Directors of the Responsible Entity.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and price risks and ratings analysis for credit risk.

(a) Market risk

Market risk is the risk that changes in market prices, such as interest rates and other market prices will affect the Fund's income or the carrying value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(i) Price risk

The Fund is exposed to equity securities price risk. This arises from investments held by the Fund for which prices in the future are uncertain. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

As the majority of the Fund's investments are carried at fair value with fair value changes recognised in the Statement of Comprehensive Income, all changes in market conditions will directly affect net investment income.

The Responsible Entity mitigates this price risk through diversification and a careful selection of securities and other financial instruments within specified limits set by the Board of the Responsible Entity. All of the net assets attributable to unitholders are invested in Australian equity securities. Up to 100% of the Fund's equity investments are publicly traded and are listed on the Australian Stock Exchange. Compliance with the Fund's Product Disclosure Statement is reported to the Board of the Responsible Entity on a quarterly basis.

The Fund has built in procedures to ensure adherence to the Fund's investment guidelines at all times.

The Fund also manages its exposure to price risk by analysing the investment portfolio by industrial sector. The table below is a summary of the significant sector concentrations within the equity portfolio, net of securities sold short.

	30 June 2014	30 June 2013

(a) Market risk (continued)

(i) Price risk (continued)

The table in Note 3(b) summarises the sensitivities of the Fund's assets and liabilities to price risk. The analysis is based on the assumption that the markets in which the Fund invests moved by +/- 15%.

(ii) Cash flow and fair value interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's PDS allows it to hold up to 50% of the net assets attributable to unitholders in a floating interest rate bearing bank overdraft account. Compliance with the Fund's PDS is reported to the Board of the Responsible Entity on a quarterly basis.

The table below summarises the Fund's exposure to interest rate risks. It includes the Fund's assets and liabilities at fair values, categorised by the earlier of contractual repricing or maturity dates.

The table in Note 3(b) summarises the impact of an increase/decrease of interest rates on the Fund's operating profit and net assets attributable to unitholders through changes in fair value or changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/- 75 basis points (2013: +/- 75 basis points) from the year end rates with all other variables held constant.

(b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders to interest rate risk and price risk. The reasonably possible movements in the risk variables have been determined based on the Investment Manager's and the Responsible Entity's best estimates. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

	Impact on operating profit/ Net assets attributable to unitholders			
	Price risk		Interest rate risk	
	-15%	+15%	+75bps	-75bps
	\$	\$	\$	\$
30 June 2014	(6,972,778)	6,972,778	95,627	(95,627)
30 June 2013	(3,616,936)	3,616,936	44,688	(44,688)

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio information in order to determine a reasonably possible shift in assumptions.

3 Financial risk management (continued)

(c) Credit risk

The Fund is exposed to credit risk, which is the risk that the counterparty will be unable to pay amounts in full when they fall due, causing a financial loss to the Fund.

The main concentration of credit risk, to which the Fund is exposed, arises from the Fund's investment in cash and cash equivalents, amounts due from brokers and other receivables. None of these assets are impaired nor past due but not impaired.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the reporting date.

The Investment Manager aims to reduce credit risk by following the investment objectives explicitly set out in its Investment Management Agreement (IMA) in terms of the assets it can invest in.

(i) Settlement of securities transactions

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once purchase on the securities have been received by the broker. The trade will fail if either party fails to meet its obligations.

(ii) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of A (as determined by the Standards and Poor's) or higher.

(iii) Other

The Fund is not materially exposed to credit risk on other financial assets.

(d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund is exposed to daily cash redemptions of redeemable units. It therefore primarily holds investments that are traded in an active market and can be readily disposed.

The risk management guidelines adopted are designed to minimise liquidity and cash flow risk through:

- ensuring that there is no significant exposure to illiquid or thinly traded financial instruments, and
- applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

The Responsible Entity monitors the Fund's cash flow requirements daily in relation to the trading account taking into account upcoming distributions and trading activity.

The Fund's listed securities are considered readily realisable as they are listed on the Australian Stock Exchange.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

(i) *Maturities of non-derivative financial liabilities*

The table below analyses the Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period. The amounts in the table are the contractual undiscounted cash flows. The Fund does not hold derivatives.

4 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (FVTPL) (see Note 6)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- (b) Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2), and
- (c) Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

4 Fair value measurement (continued)

(i) *Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets and financial liabilities held by the Fund is the last sale price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Recognised fair value measurements

The following table presents the Fund's assets and liabilities measured and recognised at fair value as at 30 June.

(ii) *Transfers between levels*

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There have been no transfers between levels in the fair value hierarchy as at 30 June 2014 and 30 June 2013.

Fair value of financial instruments not carried at fair value

The carrying value of trade receivables and trade payables are assumed to approximate their fair values.

Net assets attributable to unitholders' carrying value does not differ from its fair value (deemed to be redemption price for individual units) due to no differences in valuation inputs.

5 Net gains/(losses) on financial instruments held at fair value through profit or loss

7 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	Year ended			
	30 June 2014 Units	30 June 2014 \$	30 June 2013 Units	30 June 2013 \$
Opening balance	20,575,788	29,217,926	6,972,452	6,779,364
Applications	16,470,674	27,806,708	13,923,244	18,601,197
Redemptions	(3,961,170)	(6,678,625)	(547,997)	(800,000)
Reinvestment of distributions	226,098	321,547	228,089	221,771
Increase in net assets attributable to unitholders	-	3,204,294	-	4,415,594
Closing balance	33,311,390	53,871,850	20,575,788	29,217,926

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

Units are redeemed on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting year cannot be reliably determined.

Capital risk management

The Fund considers its net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

The Fund monitors the level of daily applications and redemptions relative to the cash levels of the Fund to manage this risk and aims to ensure there is adequate liquidity to meet the needs of unitholders.

8 Distributions to unitholders

The distributions declared during the year were as follows:

	Year ended			
	30 June 2014 \$	30 June 2014 CPU	30 June 2013 \$	30 June 2013 CPU
Distributions paid or payable	6,397,459	19.21	912,262	4.43
	6,397,459	19.21	912,262	4.43

9 Cash and cash equivalents

	As at

	\$	\$
Cash at bank	12,750,257	5,958,408
Total cash and cash equivalents	12,750,257	5,958,408

These accounts are earning a floating interest rate of between 0.35% and 2.85% as at 30 June 2014 (2013: 0.35% and 3.10%).

10 Reconciliation of profit/(loss) to net cash outflow from operating activities

(a) Reconciliation of profit/(loss) to net cash outflow from operating activities

Purchase of financial instruments held at fair value through profit or loss	(56,337,248)	(32,002,330)
Net (gains)/losses on financial instruments held at fair value through profit or loss	(9,758,682)	(5,702,889)
Net change in receivables and other assets	(177,398)	(185,117)
Net change in payables and other liabilities	(379,013)	368,288
Net cash outflow from operating activities	(13,785,407)	(12,650,762)

(b) Non-cash financing activities

The following distribution payments to unitholders were satisfied by the issue of units under the distribution reinvestment plan

	321,547	221,771
Total non-cash financing activities	321,547	221,771

As described in Note 2(i), income not distributed is included in net assets attributable to unitholders. The change in this amount each year (as reported in (a) above) represents a non-cash financing cost as it is not settled in cash until such time as it becomes distributable.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Scheme's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors of the Responsible Entity, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Smallco Broadcap Fund is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the Scheme's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.
