

Tools Needed: 5mm Hex Wrench & 10mm Wrench

..kuaat..[®]
(koo-at)

NOTE: Disassembly is equivalent for 1.25" & 2" lower ends, 1.25" with adapter shown.

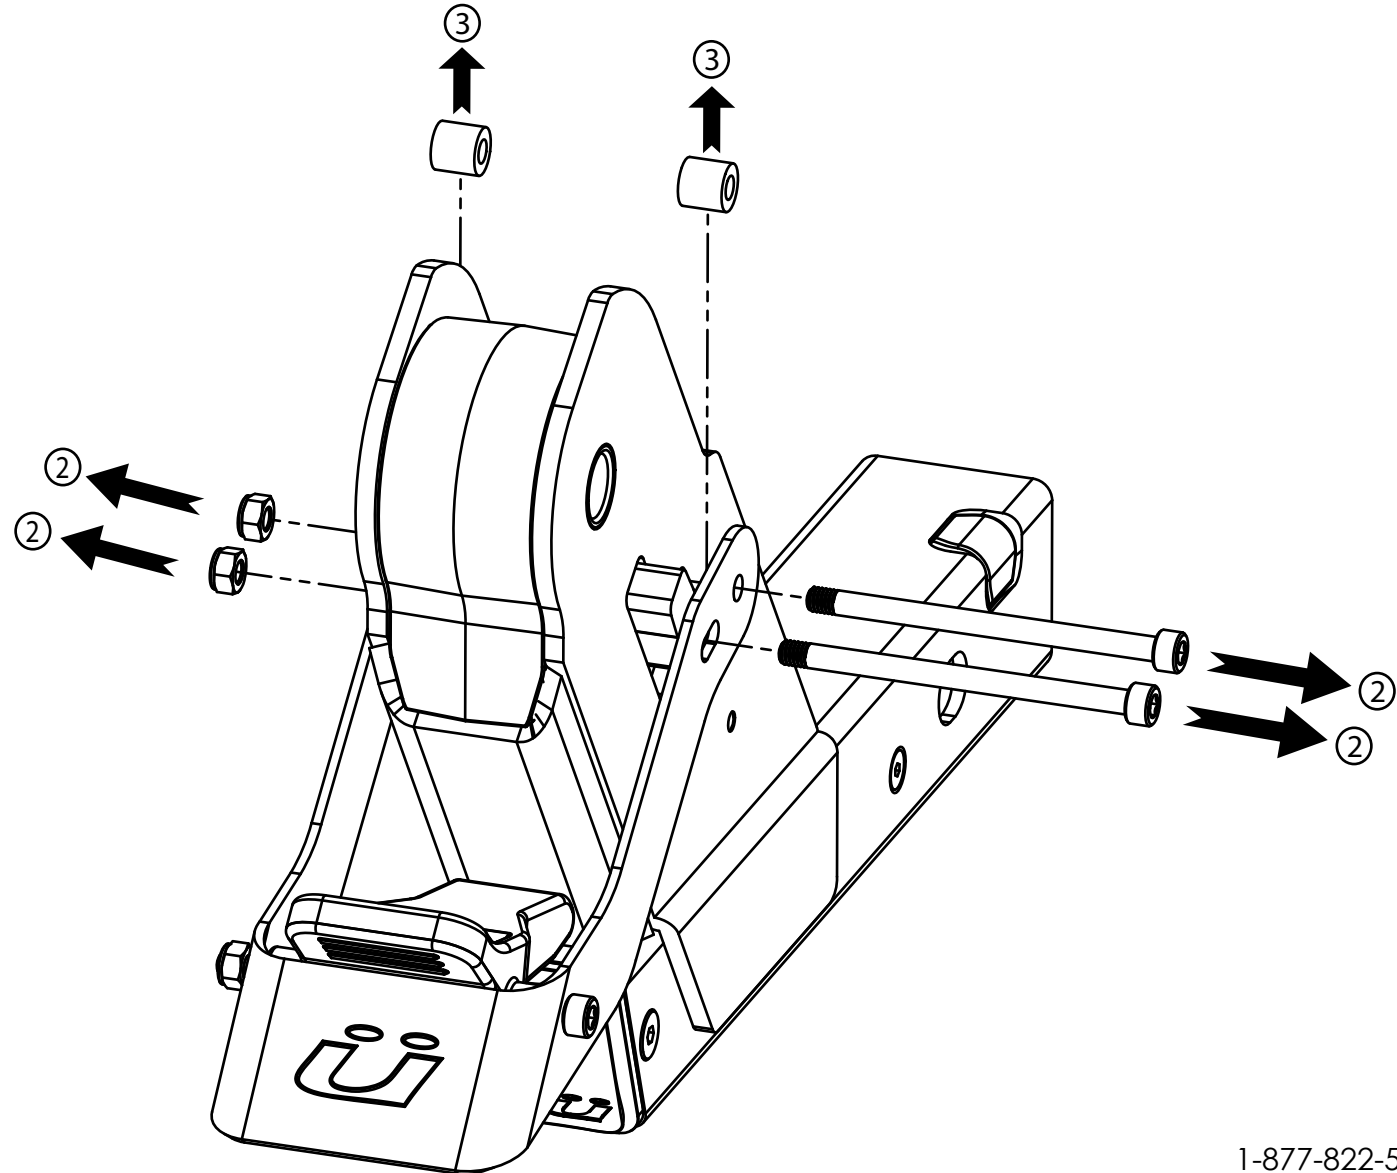

1. Rotate the rack into the stowed position.

NOTE: Ensure the pivot latch bar has fully engaged the pivot bracket before proceeding.

2. Using the 5mm Hex Key and 10mm Wrench remove the two 6mm bolts from the Foot Pedal.

3. Take note of the locations of the two Plastic Spacers. The Foot Pedal can now be removed.

4. Install the new Foot Pedal by following Steps 2 & 3 in reverse.
