

Milestone month — over 10,000 lives reached!

For Kwanda

Your two clinics just crossed 10,000 people served since launch.

10,494

people served since launch

312

patients served at Safe City

303

patients served at Care Circle

Dear Kwanda,

We have something big to celebrate this month! Together, your two clinics have now served **over 10,000 people since launching** -- a huge milestone for the communities you've been supporting from day one, and a moment we wanted to share with you first.

On top of that, May was a solid month on the ground. **Safe City** served 312 patients in Oworoshoki, with returning patients making up well over half of all visits -- a strong sign of the trust the team has built. **Care Circle** served 303 patients in Itire-Surulere, with over half of all visits coming from brand-new patients.

Below is the full story of May, including the voices of two patients whose lives your funding touched directly.

Safe City — Oworoshoki

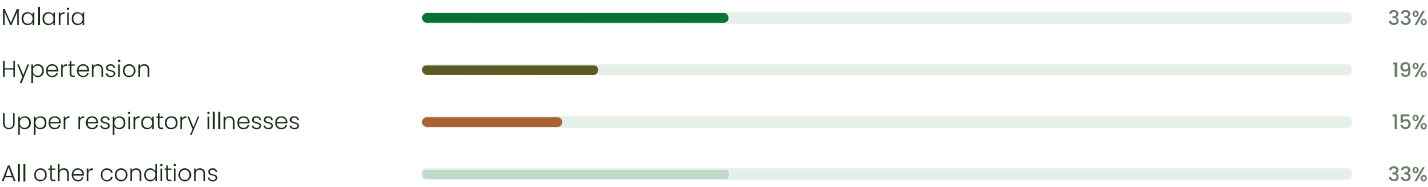

Safe City

Oworoshoki · Lagos, Nigeria

312 patients in May

TOP ILLNESSES TREATED

PATIENTS BY AGE

GENDER

WHO WE ARE REACHING

Safe City patients live on an average of **\$11.60 per person per month** -- still well below the poverty line, and still without any affordable alternative for primary care.

WHERE PATIENTS CAME FROM

Patients came from **Oworoshoki and Bariga (5.3 km away)**. Returning patients made up well over half of all visits this month, a sign the new team continues to build trust in the community.

PATIENT VOICE • SAFE CITY

Pictured: a patient receiving care at Safe City.

Safe City also helped mothers like Helen:

"If I come, they give me drugs, and my children will be okay."

Helen • Patient, Safe City, Oworoshoki

Care Circle — Itire-Surulere

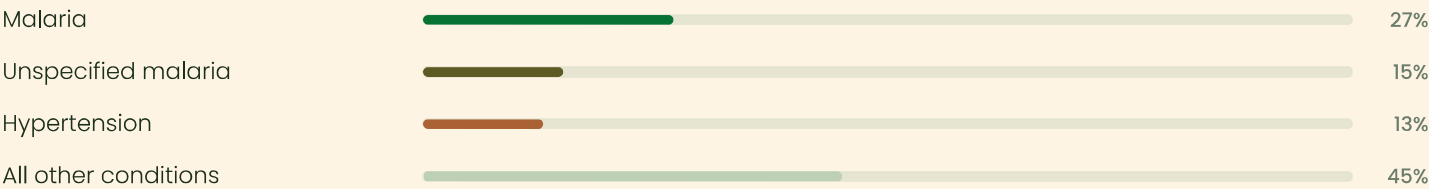

Care Circle

Itire, Surulere · Lagos, Nigeria

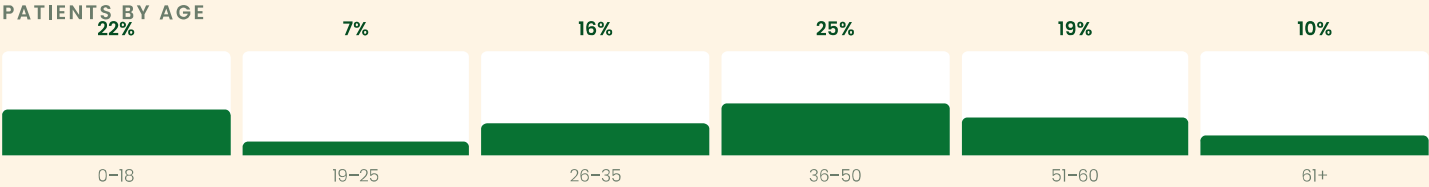

303 patients in May

TOP ILLNESSES TREATED

PATIENTS BY AGE

GENDER

WHO WE ARE REACHING

The average Care Circle patient lives on **\$4.90 per person per month** -- a household of four surviving on ₦27,324 (~\$19.52). The global poverty line is \$2.15 a day. For these families, free care is not a convenience -- it is the only option.

WHERE PATIENTS CAME FROM

Patients traveled from **Itire, Kilo, Ikorodu, and Aguda** to reach Care Circle, showing how the clinic's reputation keeps spreading across Lagos.

PATIENT VOICE · CARE CIRCLE

"They are so good, taking care of me."

Mrs. Mary · Patient, Care Circle, Itire-Surulere

COMBINED IMPACT

615 patient visits this month

10,494

people helped since both clinics
launched

615

patients served across both clinics in
May

388

women and girls reached in May

Sustainability in action: Care Circle's community plastic waste collection centre converted waste into cash again this month, directly supporting clinic operations. Each bag collected also eliminates a mosquito breeding site -- cutting malaria risk in the same community the clinic treats for it. One act, two impacts.

10,000 lives, and the number keeps climbing

Helen has been coming back to Safe City since 2024 and still has nothing but thanks to share. Mrs. Mary brought her own children along to a clinic she trusts at Care Circle. These are not one-off visits -- they are families building a relationship with free healthcare they can count on.

Together, your two clinics have now served **10,494 people** since launching, officially passing the 10,000-patient milestone this month. That number keeps climbing -- and it's because of you.

With deep gratitude,

The AHA Initiative Team
