

13,076 people served since launch

For Kwanda

Both clinics topped 400 patients in August, and together your two clinics have now reached more than 13,000 people since launch.

13,076

patients served at Safe City

429

patients served at Care Circle

Dear Kwanda,

August was a big month for both of your clinics! Together, Safe City and Care Circle served **961 patients**, and your two clinics have now reached **13,076 people since launch**.

Safe City served 532 patients in Oworoshoki, up from 502 in July, with 246 of them visiting us for the first time. **Care Circle** served 429 patients in Itire-Surulere, our sixth month in a row above the 300 mark, thanks to the steady care of Nurses Benedeth and Sylvia.

This month we are proud to share the words of Mr Oluwaseyi, who told us plainly what a free clinic means to him. Thank you for making it possible.

Safe City, Oworoshoki

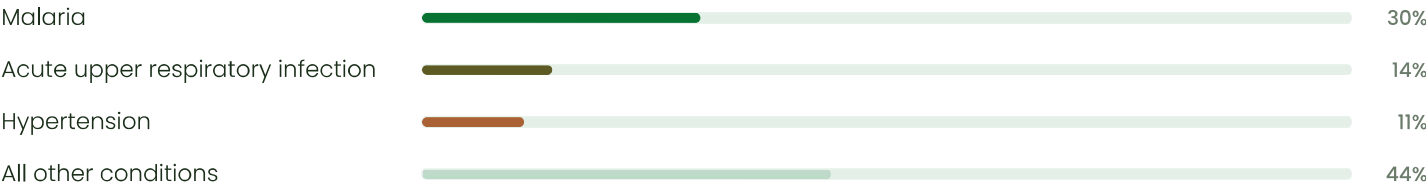

Safe City

Oworoshoki · Lagos, Nigeria

532 patients in August

TOP ILLNESSES TREATED

PATIENTS BY AGE

GENDER

WHO WE ARE REACHING

The average Safe City patient lives on **\$11.66 per person per month**, a household of four getting by on ₦65,304. That is still well below the poverty line, and there is still no affordable alternative for primary care nearby.

WHERE PATIENTS CAME FROM

Patients came from **Oworoshoki, Bariga, Sawmill, and Mushin (12.1 km away, our farthest patient this month)**, so Safe City keeps serving as a go-to free healthcare hub for northwestern Lagos.

PATIENT STORY · SAFE CITY

“Whenever I come here, whatever I explain to them concerning my health, they give me medications.”

Mr Oluwaseyi, Safe City patient

Care Circle, Itire-Surulere

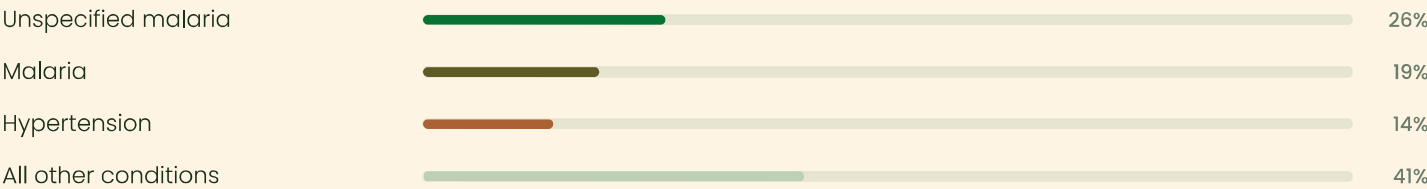

Care Circle

Itire, Surulere · Lagos, Nigeria

429 patients in August

GENDER

WHO WE ARE REACHING

The average Care Circle patient lives on **\$4.64 per person per month**, a household of four getting by on ₦26,000. The global poverty line is \$2.15 a day, and for these families free care is not a convenience, it is a lifeline.

WHERE PATIENTS CAME FROM

Patients traveled from **Itire, Kilo, Aguda, Lawanson, and Ijesha** to reach Care Circle this month, continuing to rely on it as their trusted source of free healthcare.

COMBINED IMPACT

961 patient visits this month

13,076

people helped since both clinics
launched

961

patients served across both clinics in
August

672

women and girls reached in August

Sustainability in action: Care Circle's community plastic waste recycling programme kept running this month, turning neighborhood waste into income that helps fund the clinic while reducing the puddles and containers where mosquitoes breed.

13,076 lives, and the number keeps climbing

Every one of the 961 visits this month is a family who received care they could not otherwise afford. Mr Oluwaseyi said it best: when he explains his health to our team, he leaves with the medication he needs. That is the story your funding writes every day.

Together, your two clinics have now served **13,076 people** since launching. That number keeps climbing, and it is because of you.

With deep gratitude,
