

12,115 people served since launch

For Kwanda

Both clinics kept growing in July, and together your two clinics have now reached 12,115 people since launch.

12,115

people served since launch

502

patients served at Safe City

418

patients served at Care Circle

Dear Kwanda,

July was another strong month across both of your clinics. Together, Safe City and Care Circle served **920 patients** and have now reached **12,115 people since launch**.

Safe City served 502 patients in Oworoshoki this month, a significant jump that kept the team busy caring for more families than ever. **Care Circle** served 418 patients in Itire-Surulere, staying above 300 patients for the fifth month running, with new patients again making up around a third of all visits.

Safe City — Oworoshoki

Safe City

WHO WE ARE REACHING

Safe City patients live on an average of **\$10.14 per person per month** -- still well below the poverty line, and still without any affordable alternative for primary care.

WHERE PATIENTS CAME FROM

Patients came from **Oworoshoki, Mushin (12.1 km away, our farthest patient this month), Ketu, Bariga, and Ebute Metta**, continuing to serve as the go-to free healthcare hub for northwestern Lagos.

WHO WE ARE REACHING

The average Care Circle patient lives on **\$5.10 per person per month** -- a household of four surviving on ₦29,317. The global poverty line is \$2.15 a day. For these families, free care is not a convenience -- it is the only option.

WHERE PATIENTS CAME FROM

Patients traveled from **Itire, Ikotun, Kilo, Aguda, and Ilasamaja** to reach Care Circle this month, continuing to rely on it as their trusted source of free healthcare.

COMBINED IMPACT

920 patient visits this month

12,115

people helped since both clinics
launched

920

patients served across both clinics in
July

650

women and girls reached in July

Sustainability in action: This month, Care Circle's community plastic waste collection effort brought in 6 lbs of recyclable waste, and Safe City collected 7 lbs -- turning neighborhood waste into cash to help offset clinic costs, while also reducing mosquito breeding sites in both communities.

12,115 lives, and the number keeps climbing

We don't have a specific patient story to share this month, but every single one of the 920 visits above represents a family who received care they could not otherwise afford. That's the story your funding writes every day, whether or not we catch it on camera.

Together, your two clinics have now served **12,115 people** since launching. That number keeps climbing -- and it's because of you.

With deep gratitude,

The AHA Initiative Team
