

13,972 people served since launch

For Kwanda

Both clinics kept growing in September, and your two clinics have now reached nearly 14,000 people since launch.

13,972

people served since launch

524

patients served at Safe City

372

patients served at Care Circle

Dear Kwanda,

September was another strong month across both of your clinics. Together, Safe City and Care Circle served **896 patients**, and your two clinics have now reached **13,972 people since launch**.

Safe City served 524 patients in Oworoshoki, with 293 of them visiting us for the first time. **Care Circle** served 372 patients in Itire-Surulere, our seventh month in a row above the 300 mark, thanks to the steady care of Nurses Benedeth and Sylvia.

One number we are especially proud of: of the 316 patients who completed our survey this month, **312 said our care significantly improved their quality of life**. Thank you for making that possible.

PATIENTS BY AGE

GENDER

WHO WE ARE REACHING

The average Safe City patient lives on about **\$7.83 per person per month**, a household of four getting by on about ~~N~~40,700. That is still well below the poverty line, and there is still no affordable alternative for primary care nearby.

WHAT PATIENTS TOLD US

Of the 149 patients who completed our survey, **99% said our care significantly improved their quality of life**, and all 149 rated the service Excellent.

WHERE PATIENTS CAME FROM

Most patients came from **Oworoshoki**, with others travelling from **Bariga, Ogudu, Mushin, and Ebute Metta**, so Safe City keeps serving as a go-to free healthcare hub for northwestern Lagos.

WHO WE ARE REACHING

The average Care Circle patient lives on about **\$6.06 per person per month**, a household of four getting by on about ~~N~~\$31,500. The global poverty line is \$2.15 a day, and for these families free care is not a convenience, it is a lifeline.

WHAT PATIENTS TOLD US

Of the 167 patients who completed our survey, **99% said our care significantly improved their quality of life**, and many asked us to keep the health checks going.

WHERE PATIENTS CAME FROM

Most patients came from **Itire**, with others travelling from **Ijesha, Ikotun, and Iyanu Ipaja**, continuing to rely on Care Circle as their trusted source of free healthcare.

COMBINED IMPACT

896 patient visits this month

13,972

people helped since both clinics
launched

896

patients served across both clinics in
September

593

women and girls reached in
September

Sustainability in action: Care Circle's community plastic waste recycling programme kept running this month, turning neighborhood waste into income that helps fund the clinic while reducing the puddles and containers where mosquitoes breed.

13,972 lives, and the number keeps climbing

Every one of the 896 visits this month is a family who received care they could not otherwise afford. Patients told us they want us to keep the health checks going, and with your support we will.

Together, your two clinics have now served **13,972 people** since launching. That number keeps climbing, and it is because of you.

With deep gratitude,

The AHA Initiative Team
