KW Where Entrepreneurs Thrive

WHAT IS THE KW CODEBOOK?

In 2017, you decided to lead a revolution in thinking:

1. Agent technology should be BUILT BY AGENTS.
2. Agent technology should be BUILT FOR AGENTS.
3. Agent technology should be OWNED BY AGENTS.

“We discovered that we had real AI all along... AGENT INTELLIGENCE.” - John Keller

That simple premise sparked what would become an incredible journey of listening and creating. Today, we have Command, Command Mobile, Connect, and Consumer. At a scale few thought possible, we protect our own data, generate our own leads, create our own workflows, and command our own databases.

You challenged us to teach real estate, not technology. That’s exactly what the **KW Codebook** is.

We interviewed hundreds of the world’s highest producing real estate agents and documented their systems and models. They all gave their time and their secrets because that’s what Keller Williams agents do: they love and help each other. We made a list of everything they do each day to **GROW** and **RUN** their businesses. We took that list and asked “Does Command do that?” and “How would you do that in Command?”

The answers lie in the following pages.

The “How You Do It” page lists actions that help you grow and run your business. Each is assigned a number. These numbers are associated with corresponding Tech Plays that show you how to perform each action in Command.

When you perform the Tech Plays in your preferred order, you end up with your very own **CODE** to grow and run your business.

This is the place, and this is the technology, built for entrepreneurs to thrive.

WARNING!

Telephone Consumer Protection Act / Do Not Call

The Telephone Consumer Protection Act (TCPA) regulates calls and texts to cell phones and landlines, autodialed calls, prerecorded calls, faxes, and calls and texts to numbers on Do Not Call (DNC) lists. Class action litigation for TCPA/DNC violations is increasing, potentially exposing agents, Market Centers and KWRI to catastrophic financial damages. Consult an attorney for guidance on the TCPA and DNC laws, including consent requirements, autodialer restrictions and prerecorded messages.

TCPA

⚠️ Auto Dialers

The TCPA regulates calls and texts to a cell phone using an “automatic telephone dialing system” (which may include a dialer).

⚠️ Prior Express Written Consent/ Written Consent

In certain cases, a caller must have prior express consent before making a call. In other cases, prior express written consent is required, including for certain texts.

⚠️ Artificial Voice / Prerecorded Messages

Never use artificial voice or prerecorded messages without an individual’s prior express written consent. Damages can be \$500 to \$1,500 per violation.

⚠️ State Telemarketing Laws

Several states have their own laws governing telemarketing. Talk with your broker about any local and Market Center rules and DNC lists.

DO NOT CALL DO’S AND DON’TS

Under federal law, sellers and telemarketers may not call numbers listed on the Federal Trade Commission’s Do Not Call (DNC) Registry. Failure to comply with DNC laws could result in a TCPA class action lawsuit or substantial government fines. Penalties for a DNC violation can total up to \$46,517 per call. Consult an attorney regarding compliance with DNC laws.

✓ Subscribe to the Registry

The DNC Registry is hosted on a dedicated website. Your Market Center should subscribe to the Registry and give you login credentials. Making any telemarketing calls without access to the Registry violates federal law.

✓ Maintain Internal DNC List

Consumers have a right to request that you not call or text them. Consumers can revoke prior consent at any time. Keep a record of Do Not Call requests you receive.

✓ Check Before You Call or Text

Before making a call or text, check to see if the number is on any of these lists:

1) National Do Not Call Registry; 2) state Do Not Call list; or 3) Market Center and agent internal DNC lists. If the number is on any of these lists, do not call or text it.

✓ Honor Do Not Call Requests

Never call or text a number on the DNC Registry or a state DNC list unless you have proper consent. Don’t call or text someone who has asked to be on your internal DNC list.

For more information, visit <http://www.kwconnect.com/page/industry-resource/dnc>

TCPA/Do Not Call Compliance Pointers

Does the Prior Express Written Consent Requirement Apply Under the Telephone Consumer Protection Act (TCPA)?

1 For calls to **residential phones**: Do calls use an **artificial voice** or **prerecorded message**?

↓

IF NO the TCPA does not apply unless the number is on a Do Not Call List.

↓

IF YES TO EITHER, proceed to (3).

2 For calls to **mobile phones**: Do calls use an **artificial voice** or **prerecorded message** OR an **automatic telephone dialing system** (which may include a dialer)?

↓

IF NO the TCPA does not apply unless the number is on a Do Not Call List.

↓

IF YES and the call does NOT contain telemarketing, then you need only **prior express consent** (meaning, the consumer gave you their cell phone number).

↓

IF YES and the call does contain telemarketing, then proceed to (3).

3 Does the call contain **telemarketing**?

↓

IF NO the written consent rules do not apply; however, prior express consent (verbal or written) is still required for certain calls made to cell phone numbers and residential numbers.

↓

IF YES, proceed to (4).

TELEMARKETING

Telemarketing includes an **offer or promotion of goods or services**.

(It also includes calls that have multiple purposes, so long as one of the purposes is telemarketing.)

PRIOR EXPRESS WRITTEN CONSENT

Prior express **written** consent is required for calls to cell phones as described in step 2. Prior express **written** consent is also required for certain calls to residential lines which use an artificial voice or prerecorded message.

4 **Written consent is required prior** to initiating telemarketing calls and texts as follows:

Prior express written consent is required to make telemarketing calls to cell phones (including text messages) using

- 1) an artificial voice
- 2) prerecorded message
- 3) automatic telephone dialing system (which may include a dialer).

Prior express written consent is required to make telemarketing calls to residential lines using an artificial voice or prerecorded message.

Prior express written consent is required to make telemarketing calls and texts to personal telephone numbers on a Do Not Call list.

Federal, state, and internal Do Not Call lists must be checked at least monthly.

Rainmakers will default to Unlimited and be able to adjust permission settings for all team members. Standard is recommended for agent team members, enhanced is recommended for administrators, and unlimited is recommended for team owners.

TEAM MANAGEMENT

Here are short descriptions of the three permission levels: Standard, Enhanced, and Unlimited.

Remedding in Progress
We are currently working on adding team functionality and permissions to all Command applications. In the meantime, apps without team functionality will revert to the individual agent's Command account. These permission levels currently function in these apps: **Contacts, SmartPlans, Campaigns, Tools.**

Permission Levels
Command offers three default permission levels. For more information on each level, view the [Full Permissions Breakdown](#).

Unlimited	Enhanced	Standard
Full access to the Team's Command, which includes team management and the deleting and exporting of Team contacts. Rainmakers have this permission by default and it cannot be changed.	Similar access to 'Unlimited' but without access to team management and controls to delete or export the Team's contacts.	View-only access to the Team's Command, with the exception of Contacts and Opportunities. Agents must be ASSIGNED to something belonging to the Team in order to receive greater permissions.

6. Select lead source(s)
7. Select Agent(s)
8. Confirm "Save"

RULES

Random - randomly distributes leads to each team member included in the route. Every agent has an equal chance of getting the lead, but no agent will be the first person to get a lead, twice in a row.

Weighted Random - create a lead distribution ratio between team members, ensuring that some agents get more leads than others. Later in the process, you will give each team member, included in the route, a percentage amount that will cumulatively equal 100%. These percentages are calculated as probabilities for leads to be randomly distributed to these agents.

Jump Ball - every team member in the lead route will receive the lead. The first person to claim it, gets it.

Round Robin - sends leads to agents in an ordered list. If an agent doesn't claim the lead in the allotted time, it will go to the next agent on the list. If none of the agents claim the lead, it will be sent to the Lead Pool.

Assign to Agent - you will set one agent, from your team, on this route. All leads from the lead sources in the route, will be automatically assigned to this agent, without them having to claim them. This route will override any other lead routes that contain the same lead sources and date/time designation.
