Co-Write.me

Cohere based AI Co-author

Designed to help writers, authors, and creators find inspiration and generate unique concepts

Process

1) Data Collection
2) User Authentication
3) Refinement : uses penalty for bad production

Features

- Text Generation
- Natural Language Processing
- Personalization
- Speed
- Improved Productivity

Co - Author

Allows user to co-write with AI to create unique stories

Stories can be amazing quirky and weird creating a fun time to read

Project's Future

In the coming future we plan on adding more features to this project

Some features like a social media where people can share their stories and even maintain websites like webnovel.com

Thank you
