

# Cohere.ai Hackathon

About the Sponsor Cohere.ai: “Cohere offers an API to add cutting-edge language processing to any system. Cohere trains massive language models and puts them behind a simple API.”  
(<https://docs.cohere.ai/docs/the-cohere-platform>)

About the Host Lablab.ai: Together, we are building the best online community and experience for modern artificial intelligence with the purpose of putting innovation on the afterburner.

About product for this Hackathon Event: ‘coLink’ is a B2B API-as-a-service bridge between clients and CohereAPI to scale NLP access to small and medium sized businesses."

## Presentation plan:

1. Introduction
2. Presentation plan
3. colink: Therapy Assistance
  - a. Context
  - b. Data-flow diagram
  - c. Canvas
4. coLink: Sequence
  - a. Prototype Code Overview
5. Future work

# coLink: Therapy Assistance

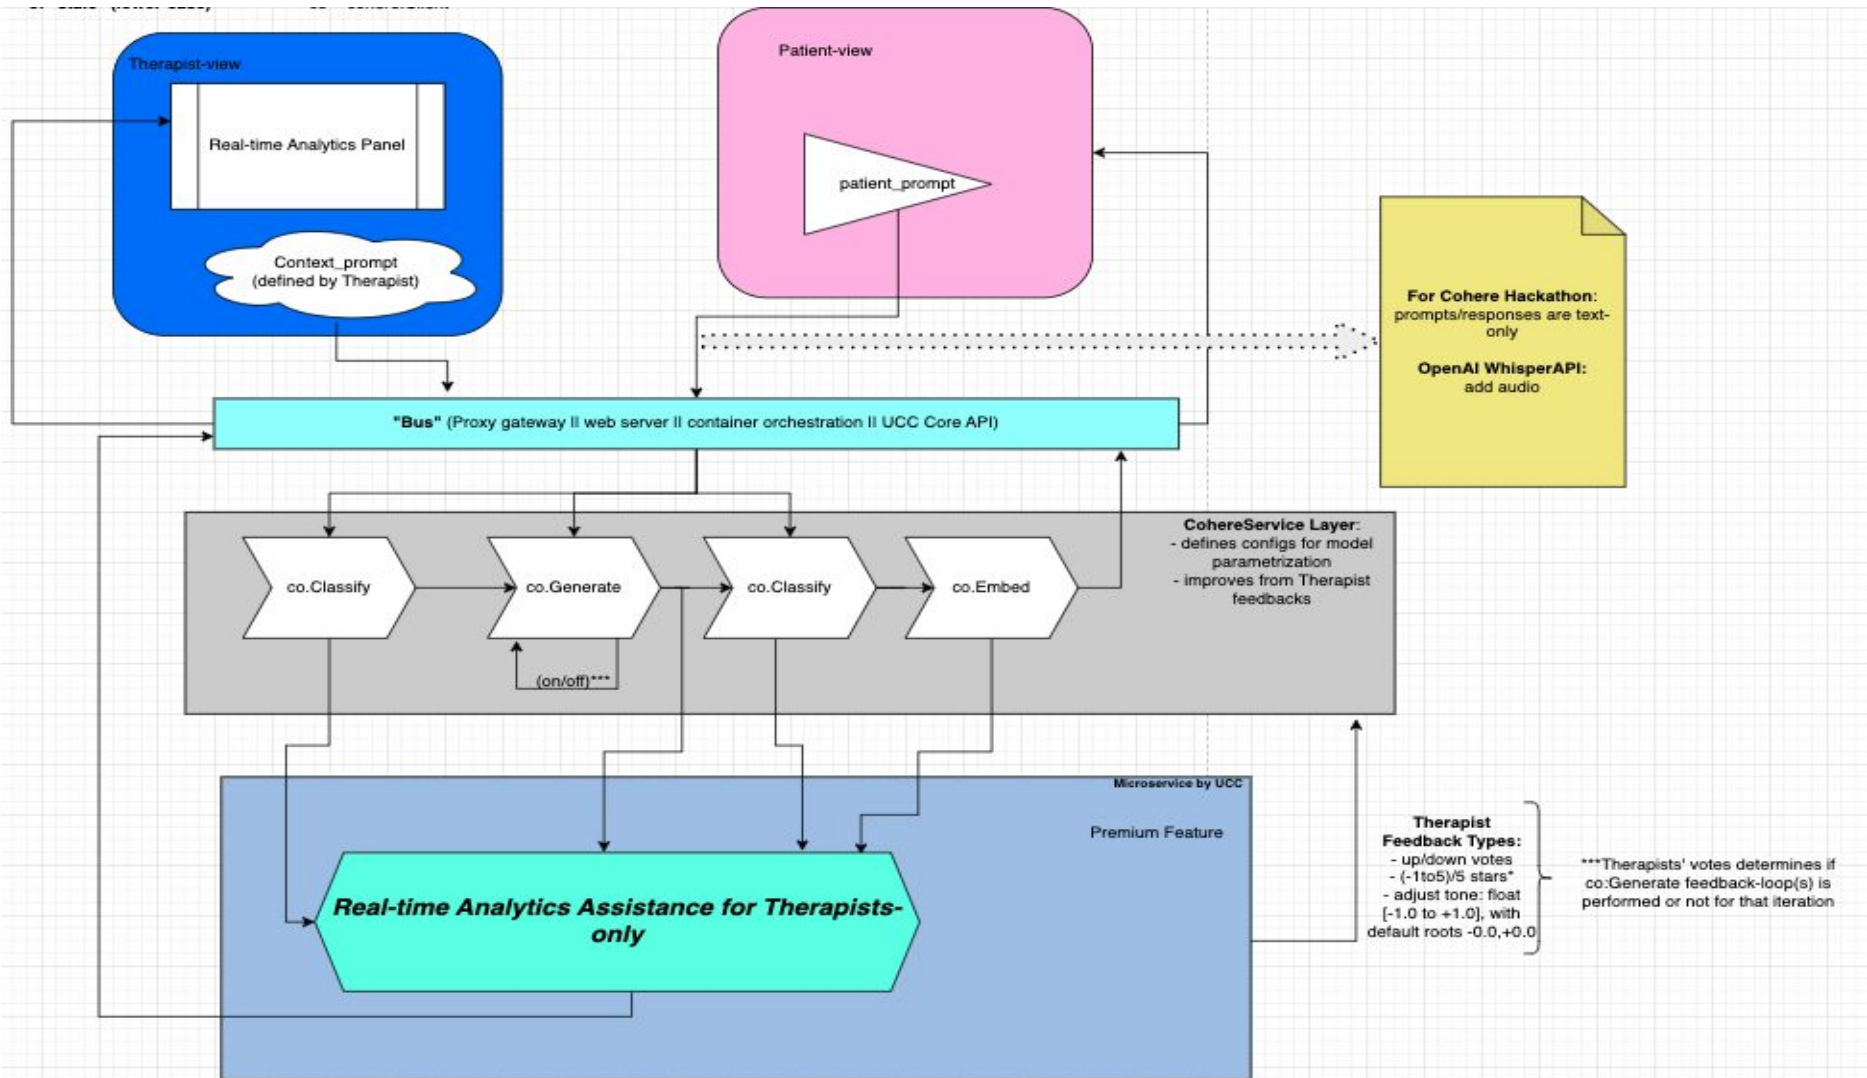

## **a. Patient**

- i. Difficulty or disability to hold conversation**
- ii. High-levels of ADHD**
- iii. Prefers text-based sessions or text-to-speech**
- iv. Benefits from therapy session chat history for reference**

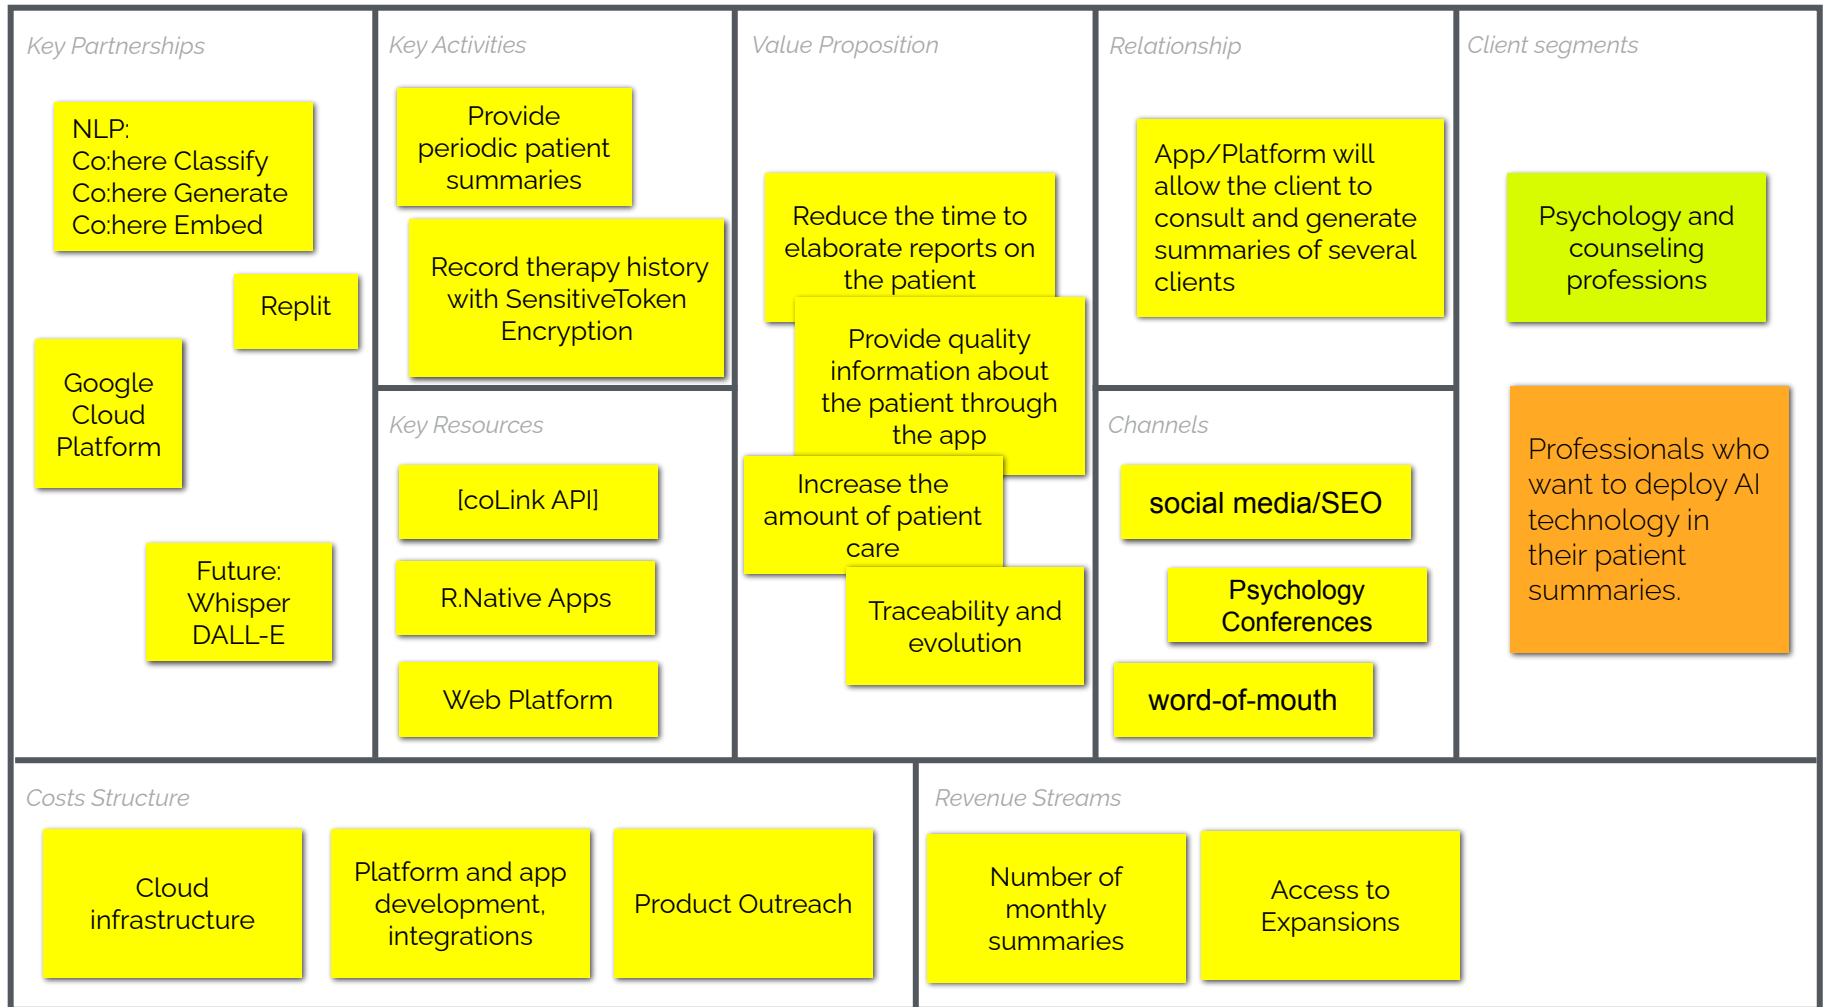

## **a. Psychotherapist**

- i. Guides therapy sessions by defining context continuously**
- b. Difficulties:**
  - i. It's time-consuming to elaborate session summarization**
  - ii. Organizing information across multiple patients and their therapy progression over time**

# Data-Flow Diagram

# coLink: Therapy

**coLink: Sequence**

**DEMO OVERVIEW!!!**

# Future Work

1. Develop colink:Sequence prototype to production-ready
  - a. API as a Service
2. Develop colink:Therapy
  - a. Full product with apps, platform, uses colink:Sequence
3. Add other AI features such as:

Speech to Text  
- WhisperAPI,  
GCP STT, or ??

Text to Speech  
- GCP TTS or ??

Text to Image  
- DALL-E or ??

# THANK YOU!

LEARNED LOTS ABOUT COHERE.AI AND EXCITED TO SCALE IT TO NEW MARKETS WITHIN SOUTH AMERICA!

I'LL JOIN UPCOMING HACKATHONS TOO, SO DM ME IF I CAN HELP!
