PROBLEM STATEMENT

Difficulty finding relevant information about company policies or customer service.

Time-consuming traditional methods of obtaining customer service.

Inadequate knowledge or resources of customer service representatives.

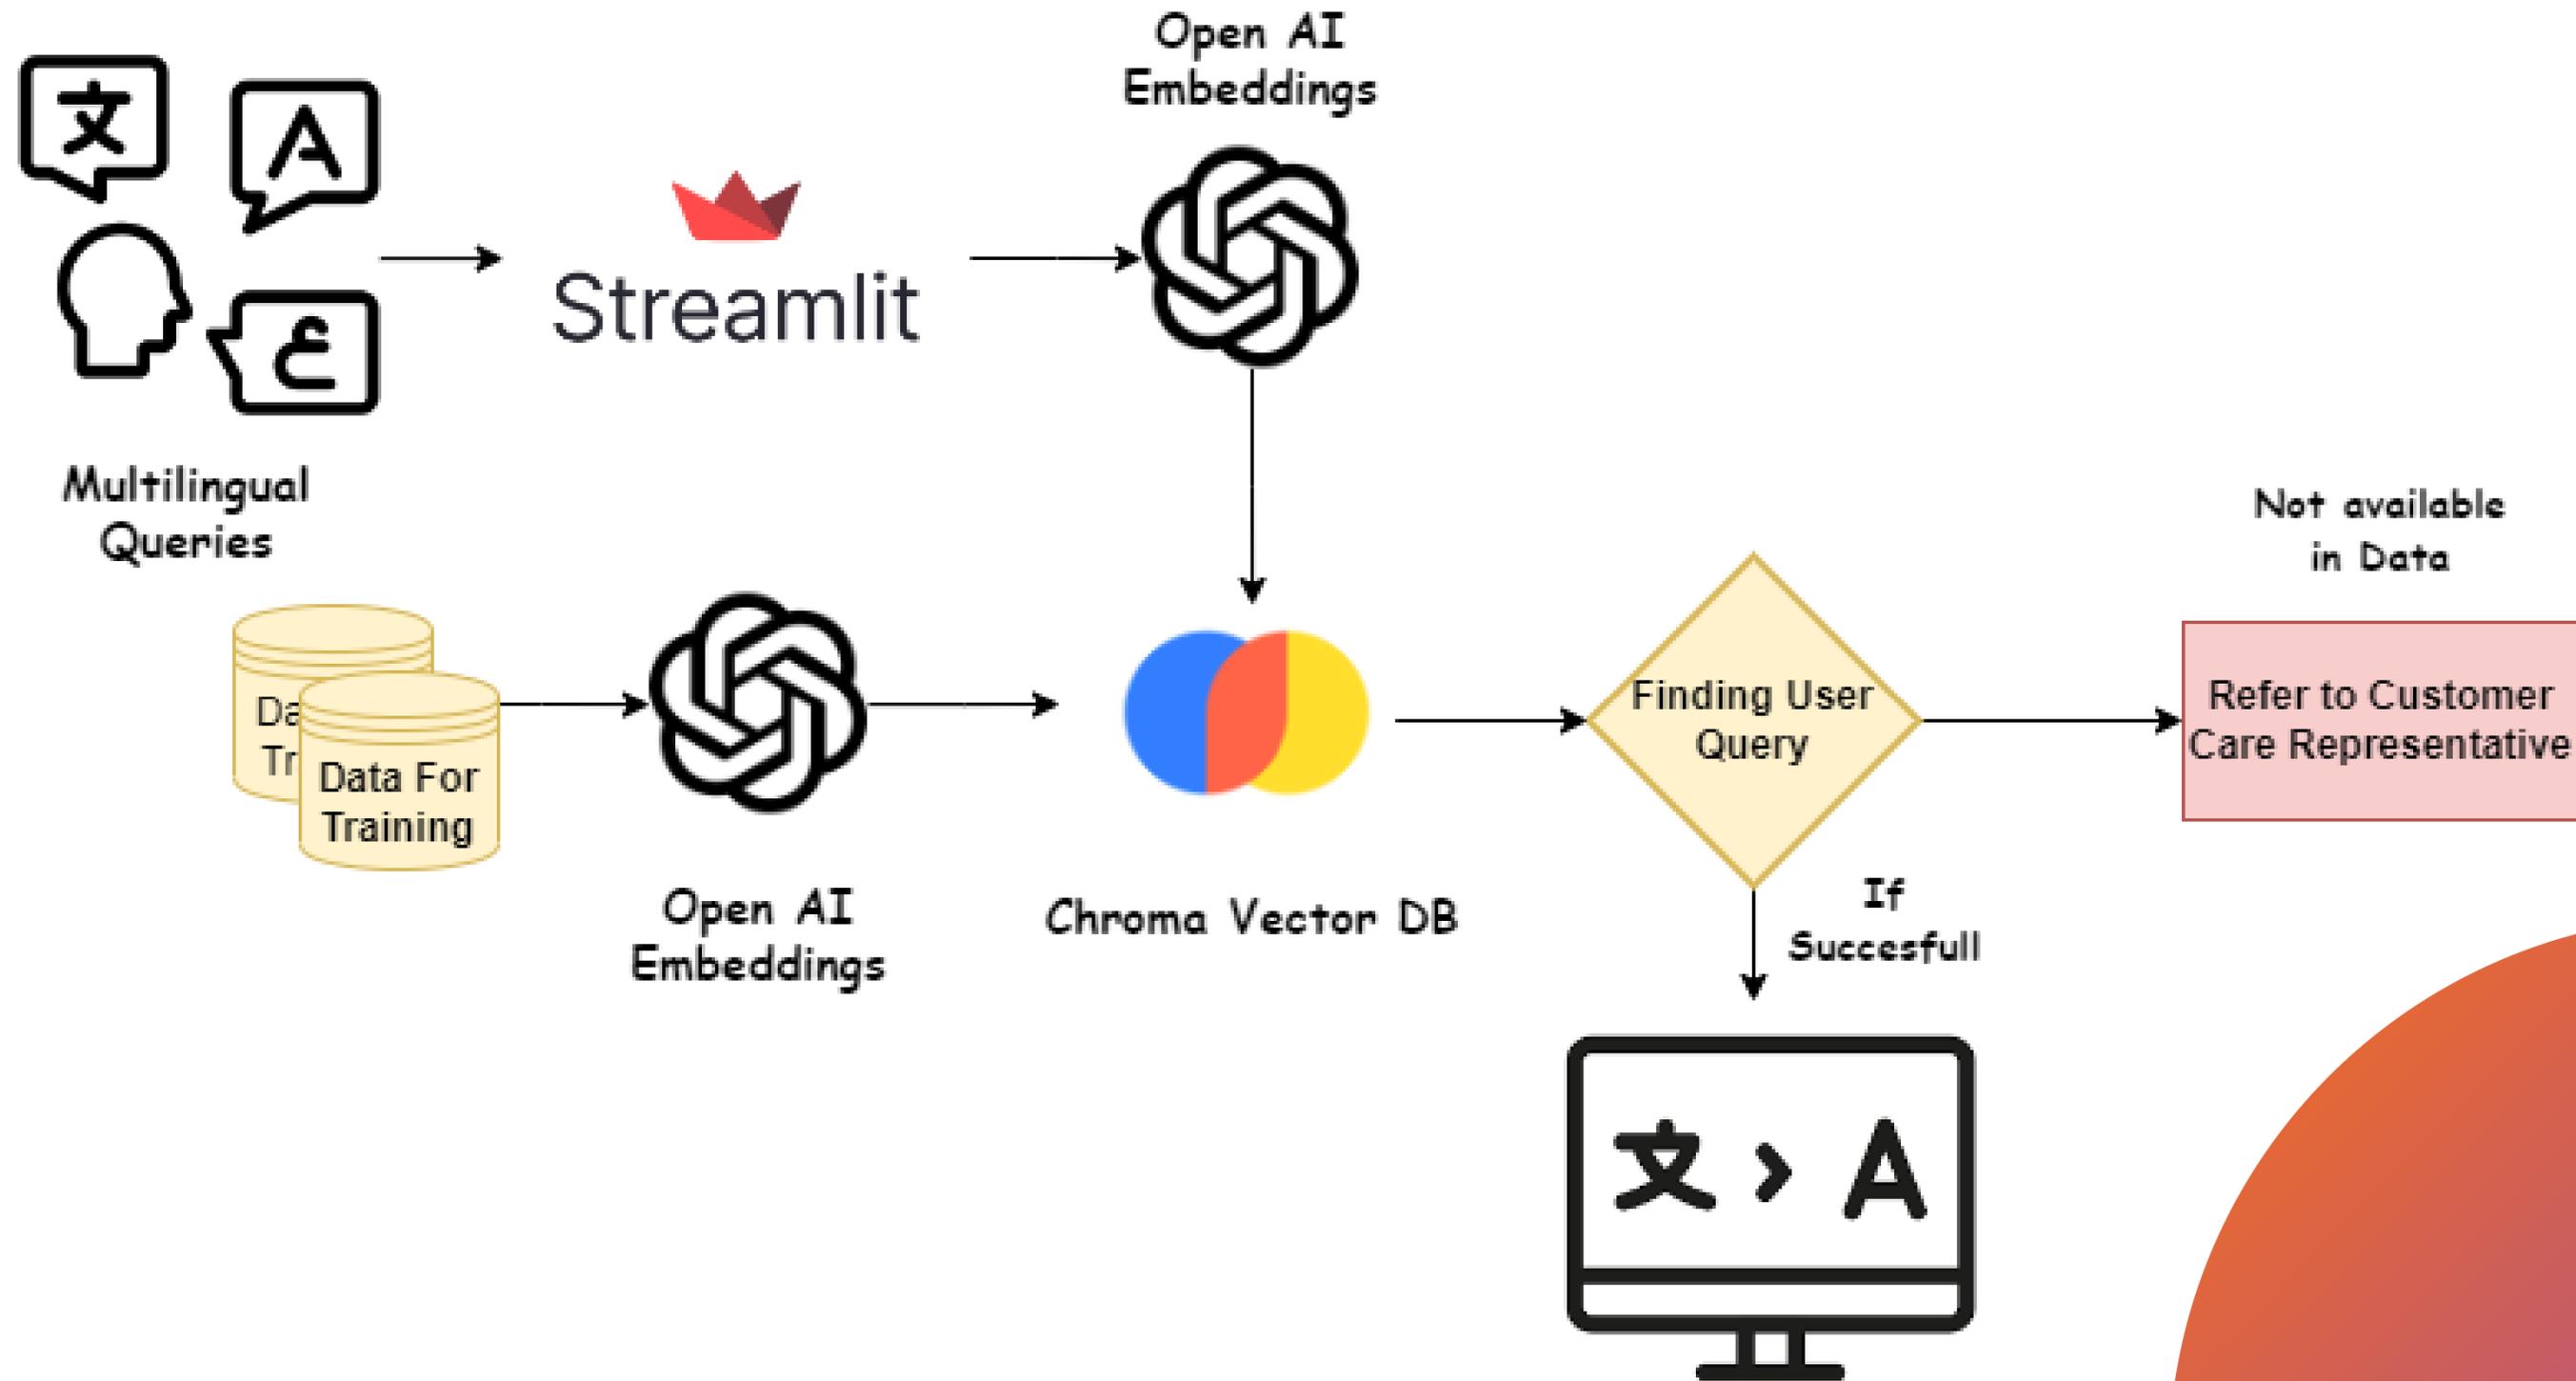

Overwhelming volume of customer service requests leading to long wait times.

Language barriers or communication style differences hindering effective communication.

Flow Chart of Our System

BUSINESS VALUE

- **Cost Saving:** By reducing the need for human customer service representative and automating the process.
- **Increased efficiency:** Providing customers with fast and accurate responses to their queries.
- **Improved Customer satisfaction:** Providing customer with helpful information.
- **Competitive advantage:** offering a more effective and efficient customer service experience.

THANK
YOU!
