

AI Brand Intel

One Language is all you need!

A laptop screen is shown in a dark, dimly lit environment. The screen displays a line graph with a blue line and a globe. The text is overlaid on the screen in a large, white, sans-serif font. The text reads: "Mission statement: Monitor your brand in a global context".

Mission statement:
Monitor your brand in
a global context

The problem

Customers of any brand want to be heard in their language. But companies can't employ people with knowledge of all languages.

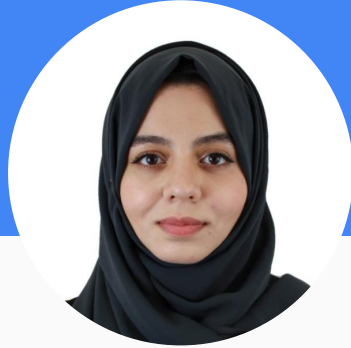

A close-up photograph of a person's hands writing on a document with a pen. The image is dimly lit and has a dark overlay. The text 'The solution' is overlaid in white on the left side of the image.

The solution

We offer an AI solution that can understand your customers in over 100 languages and help you respond in their native languages

How it works

An aerial photograph of New York City at dusk. The sky is a mix of dark blues and oranges, with scattered clouds. The city's lights are beginning to glow, and the Empire State Building stands out prominently in the center. The word "Thanks" is written in a large, white, sans-serif font across the middle of the image.

Thanks
