PROTOTYPE

The background of the image is a digital glitch effect. It features a person's face and hands, which are distorted and overlaid with horizontal lines of various colors (red, green, blue, yellow, purple). The overall effect is a vibrant, multi-colored digital corruption.

MINT ?
////// YES //// NO

The background is a heavily glitched and distorted image, likely of a person's face, rendered in a vibrant, multi-colored palette. The glitching effect creates horizontal and vertical streaks of various colors (red, green, blue, yellow, cyan) across the entire image. In the center, there is a black rounded rectangle with a white border containing the text 'ArtY'. Below it is a black horizontal rectangle with a white border containing a progress indicator consisting of five white diagonal slashes followed by the text 'MINTING...' in a white, pixelated font.

/////MINTING...

WE WANT TO TRANSFORM PLURAL EXPRESSION IN ART.
COMBINING TEXT IN PROMPT WITH IMAGES GENERATED BY
STABLE DIFFUSION. OUR INITIAL OBJECTIVE WAS
CONSTRUCT A DAPP, WITH A WEBSITE. THE SITE IS PART
OF THE PROCESS TO DEVELOP SOME TOOLS BY
WEB2/WEB3 USERS. THE WEBSITE HAS SOME
FUNCTIONALITIES AND ALL OF THEM'LL BE ON THE
ANDROID/iOS FULL APP (IN STORES, FREE DOWNLOADED).

USING SOME ERC CONTRACT, WE WANT TO ETERNIZE THIS GENERATED ITEM ON YOUR WALLET, BEING METAMASK OR LEDGER. YOU CAN MINT THIS GENERATIVE BY YOUR USER, THAT CAN BE REGISTERED ON OUR DATA CENTER BY A ADDRESS ON EVM (ETHEREUM VIRTUAL MACHINE).

THE FULL DOCUMENTATION IS AT
[HTTPS://BIT.LY/ARTV_ROADMAPP](https://bit.ly/artv_roadmap)

Abrir repositório

- Fazer layout do Site e DApp
- Como a arte vai sair da AI? (Stable Diffusion)
- Teste através do Beta Fechado

Abertura de repositório no Vercel e no GitHub

Esse é o prototipo arty-dapp Random Unicorns. Aplicação simple de AI art, onde você cria artes com um comando de texto. Diferente da maioria das ferramentas AI que funcionando com a descrição da imagem, Random Unicorns transforma um poema em pixel art. Os seus sentimentos podem ser traduzidos melancolicas paisagens ou abstratos rabiscos de glitch virtual. Arty-Dapp pretende trazer do ruído de nossas emoções sinuosas, o brilhos dos pixels e bits das telas dos celulares e computadores.

A missão de trazer a criação de imagem em forma de jogo, é imaginar novas conexões entre arte, tecnologia e pensamentos diversos, sendo o elemento ludico em breve interlocutor para introdução de mais amplos debates sobre arte e tecnologia.

Random Unicorns se formou no "Stable Diffusion AI Hackathon" do lablab.ai com o intuito de integrar esta ferramenta à web3, possibilitando gerar uma coleção de NFTs para arrecadar fundos para coletivos e organização envolvidas com a cultura LGBT+.
