# Making AI Art Creation Accessible to Everyone

Karma AI

# Karma

Karma is a user-friendly art generator app that uses AI to make text-to-image synthesis accessible to everyone. Instead of typing a prompt, users can create unique artwork with just a few clicks.

# 1. The Problem

➔ **Accessibility issues for users who can't type**

➔ **Difficulty of generating high-quality prompts**

# 2. Our Solution

➔ **Eliminates the need for text input**

➔ **Few simple clicks to generate art**

➔ **Tailored to the user's preferences and interests**

➔ **Suitable for users with physical disabilities or other challenges**

# 3. How It Works

➜ **GPT trained to generate high-quality prompts**

➜ **Stable Diffusion**

➜ **User-friendly and accessible interface**

➜ **Cross-platform**

# 4. Users

➔ **Ideal for artists and creative individuals of all skill levels**

➔ **Suitable for individuals with physical disabilities or other challenges**
