How We Help

1

GETS YOU UP TO DATE

Updates you with the who, what, when, where, why and how of your meeting in a short amount of time by summarising

2

PROVIDES READABLE MEETING MINUTES

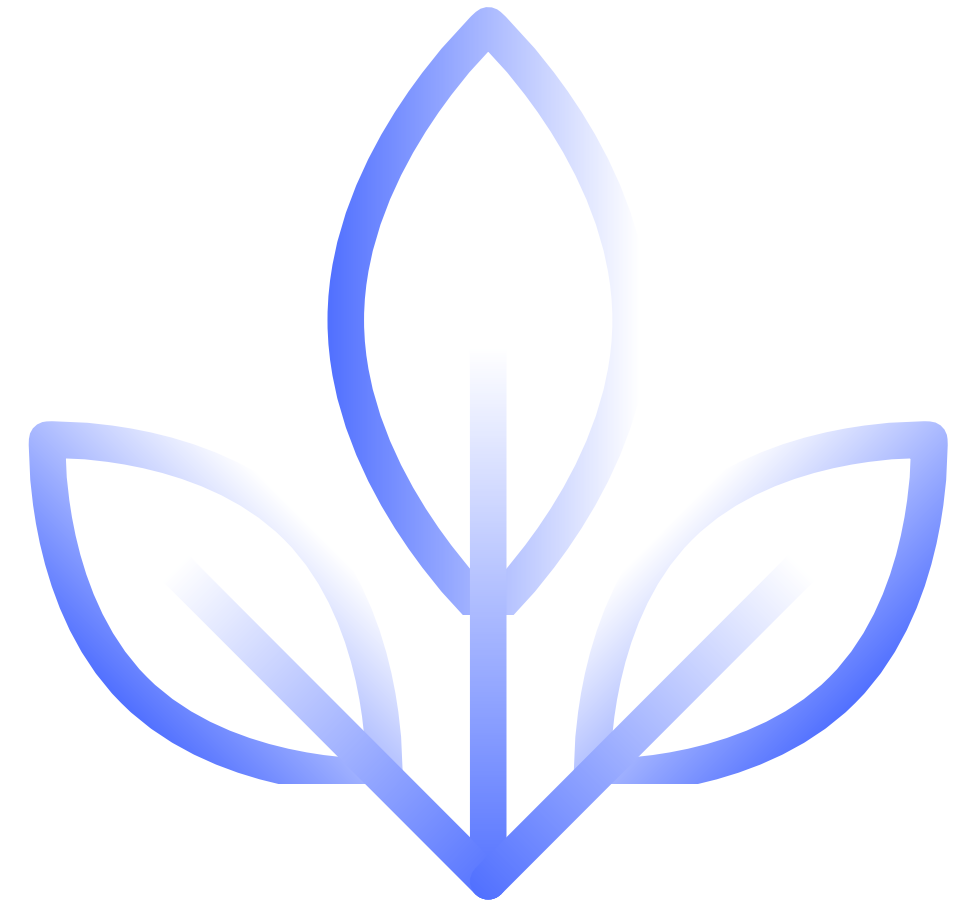

Segments whatever has been discussed during the meeting into bite-sized, readable chunks

3

BECOMES YOUR TEACHER

Answers any questions you have about your meeting

THE PROCESS

Potential Project Ideas

1

AI GLOBAL

An online platform that provides comprehensive training on artificial intelligence.

2

PRACTICE ME

An AI-powered learning platform that can ingest large volumes of real-world data and generates questions for students to master any skill or topic.

3

CATCH ME UP

A Chrome extension that can record and transcribe audio from meetings and store it in an easily accessible format. Using AI-powered natural language processing, you can ask questions on the topics covered.

SKILLS WE HAD TO LEARN

DEVELOPING CHROME EXTENSIONS

We believe that making it a Chrome extension would make it more accessible and convenient for users.

AI21 LABS

Learning AI21 labs was straightforward as it is incredibly user-friendly and the API is versatile enough to perform a wide range of tasks.

The AI21 Labs logo, which consists of the text "AI21" in black and "labs" in pink, set against a white circular background. This circle is centered within a larger pink rectangular area.

TECH STACK

Frontend

- Chrome Extension
- Text-To-Speech Implementation

Backend

- Backend server (Flask)
- Making API calls to AI21 labs
- Migrating from Postgres to Redis database

CHALLENGES

- Originally planned to use Google's text-to-speech API for audio processing
- Encountered unexpected issues that hindered progress
- Switched to Deepgram (speech to text API), a reliable and effective solution for our project

BUSINESS POTENTIAL

Reluvape is an ideal solution for companies like Zoom and Slack, as well as schools and other institutions looking for new and innovative ways to communicate with their audiences. By partnering with Reluvape, you can tap into a powerful and transformative technology that will help you stand out from the competition and engage your customers in new and exciting ways.
