

FastFlow

One-click customized website

What is Fasflow

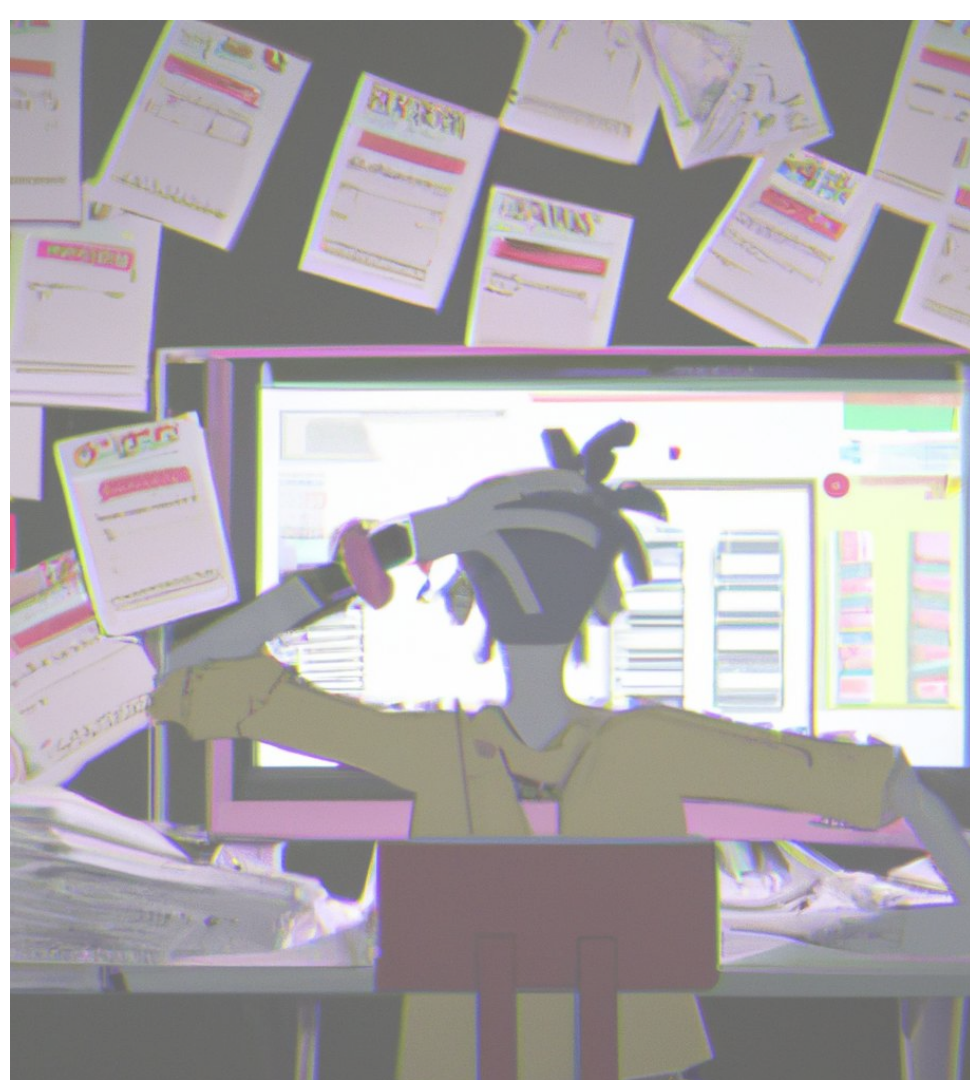

AI-powered website builder
that enables users to
generate a fully functional
and customized website with
just one click.

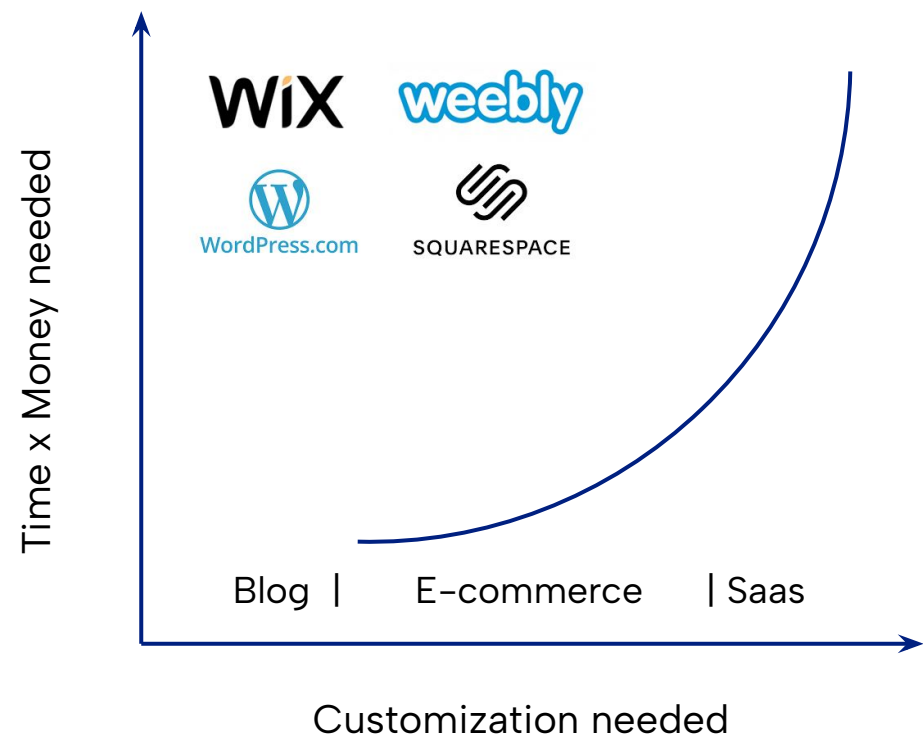

Problem

Challenges in building a website:

- **Time-consuming and requires technical knowledge and design skills**
- **Costly** for startups, freelancers, and small businesses with limited resources
- Traditional website builders limit customization options and have a **steep learning curve** for non-technical users.

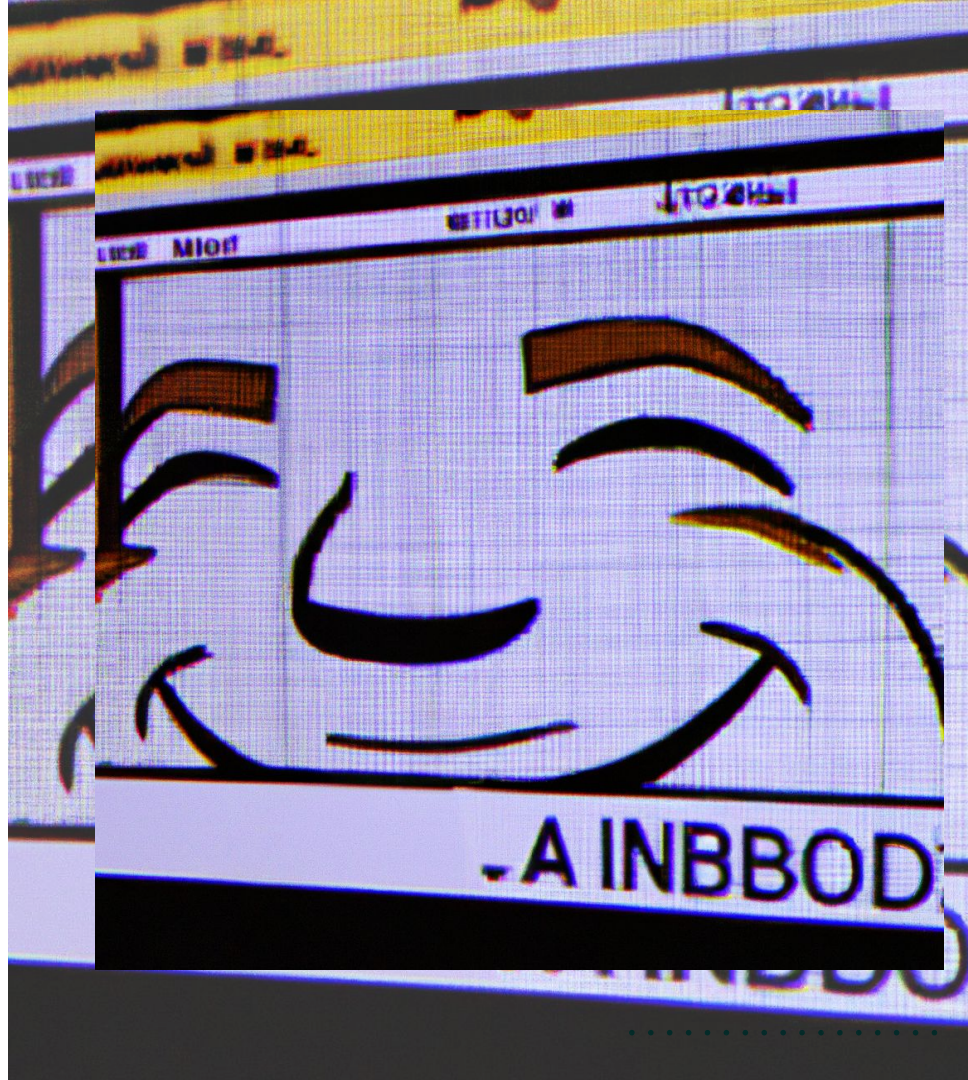

Building a website

Solution

One-click AI website builder:
Fast and easy, tailored to clients
needs and preferences and
Cost-effective

The Team

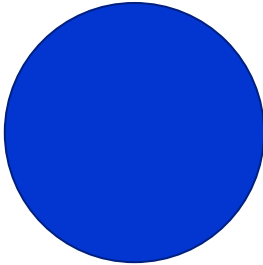

Jose Chipana
Machine Learning Specialist

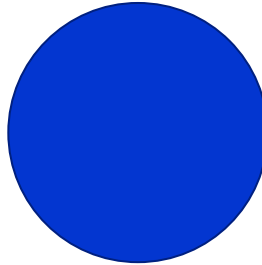

Fadekemi
Backend Developer

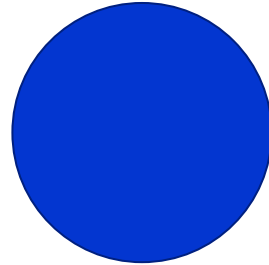

Thomaz
Business Consultant

Vin
Backend Developer

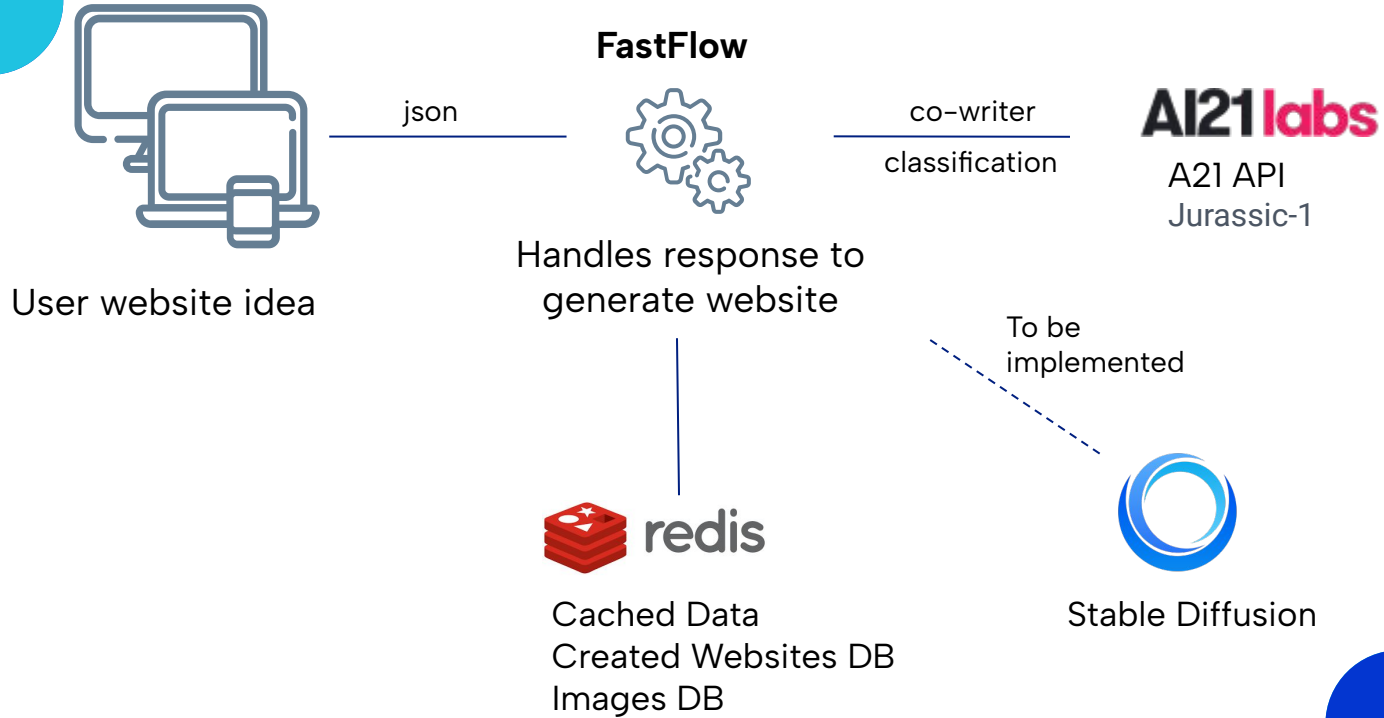

Jimmyn
Frontend Developer

Chanul
Entrepreneur

How it works

Business Potential

305 million

startups worldwide that are
created every year

Focus on **High content** creators
and fast **concept validation** like
startups

Thanks!

Pitch created for the:

AI21 Labs Hackathon 21 - 28 April 2023
