Interview Assistant

**Aki Qian & Yoru Huang**

Purpose

For Individual Users

1. Providing performance analyses and feedback to help candidates improve and prepare for follow up interviews.
2. Automating personalized initial phone/video screening interviews tailored to their experience and the specific role.
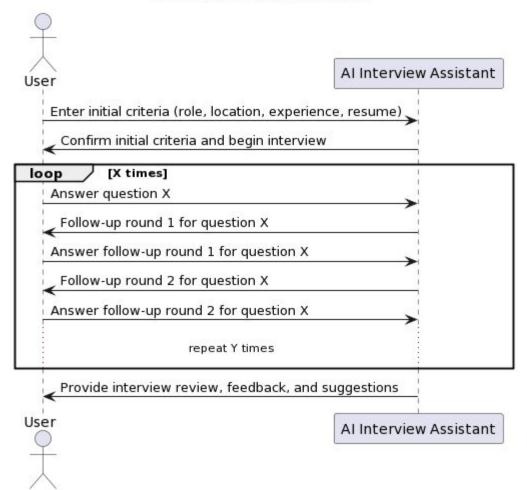

For Small-Medium Enterprises

1. Reducing time and resources needed for volume initial phone/video screens through AI automation.
2. Scaling a personalized, purposeful interview process for all roles while maintaining speed and efficiency.
