

Lisan

Girish Ganesan @ Lablab.ai+Anthropic
Hackathon

The Issue

- Abundance of study material for **early & advanced language learners**
 - Children's books
 - Newspapers, literature
- **Input vs. output gap** in conventional, organized language learning

**What about the intermediate
self-taught learner?**

The Solution

Meet **Lisan**.

Lisan (pron. lee-saan) uses **collaborative storytelling** to fill the market gap in intermediate-level language learning services.

-  Receive **immediate feedback** on your sentences.
-  Tailor Lisan to **match your CEFR language level**.
-  **Export flashcards** for use on platforms like Anki and Quizlet.
-  **View analytics** on a personalized dashboard.

The Technology

Lisan is **available now on Streamlit!**

She uses:

- **Claude from Anthropic**, for generative superpowers
- **NLTK**, for grammatical understanding
- **PyTrie**, for lexical visualization
