0.outline

1. User’s pain
2. How product work
3. User’s benifit
4. Prospects

1.User's pain

- Thinking long-term is a difficult task
- Advisors would cost time and money

Is there a esay way to develop the sense of long-term ?

2.1 Intro Game:GIF

2.2 Game Features

- AI Generates Backgrounds → More Choices
- AI Generates Life → Less Pressure

2.3 Game Tech

- AI: Claude-Instant
- Client: Vue
- Server: Flask

3. People’s benifite

- People can explore life's possibilities by the game
- We will add more features to help it

4. Prospects

- Make life unlimited

step1: Add a life advisor mode.

step2: Develop payable plugins for the "Life Advisor" feature, compatible with Obsidian, Logseq, and other platforms.
