

IDEASTORM

AI Agents Hackathon

STRUGGLING TO GET UNIQUE PERSPECTIVES?

THE PROBLEM

At times traditional brainstorming methods can be ineffective and time-consuming, leading to a lack of fresh ideas and perspectives. How might we make the brainstorming process better?

GENERATIVE AI AGENTS

Ideastorm is an AI-powered chat platform designed to spark creativity and generate fresh ideas. By configuring two distinct generative AI agents with unique names, descriptions, and tool access, users can initiate engaging discussions on any given topic.
