# PROBLEM

## 1 No meeting summaries

Poorly documented or missing meetings summaries that lead to miscommunication or overlooked details

## 2 No action items

Busy schedules lead to missed meetings tasks

## 3 Lost insights

Critical insights from discussions that are not captured effectively and end up getting lost in the shuffle

# SOLUTION

**AUTOMATED MEETING ARTIFACTS  
TO STREAMLINE DOCUMENTING,  
ANALYZING, AND ACTING ON MEETING  
DISCUSSIONS**

**2**

## **Automated task generation**

Automatically generating action items into Monday boards with the editing possibility

**1**

## **Automated meeting summaries**

Using the latest whisper ai technology, we provide the users with the bullet-level meeting summary immediately after the call

**3**

## **Integrated video calls in Monday**

Create or jump on a meeting within Monday with one button

# NEXT FEATURES

**Updating of existing tasks:** reassigning, updating dates, changing statuses, etc

**Smart Search in Transcripts:** Implementing a search feature that allows users to find specific discussions or points from past meetings easily

**Sentiment Analysis:** analyzing the mood or tone of the meeting, which can help managers understand team morale and adjust their approach if needed

**Meeting Highlights Extraction:** highlighting the most important parts of the meeting (based on factors like tone of voice, repeated mention, or explicit tagging by participants), providing a quick overview for those who weren't present
