**monday.com AI
Hackathon**

June 2023

kolekti

The Team

Alberto de Ávila
Engineering Team Lead

Luis Gutiérrez Morate
Engineer

Alberto Davila
Engineer

Dan Ivory
Product Manager

The problem

3.6 hours a day
spent searching
for information

Our solution

Demo Time!

**How it
was built?**

What was the most significant technical challenge we needed to overcome?

Alberto de Ávila
Engineering Team Lead

What value has monday AI Assistant provided to developers?

Luis Gutiérrez Morate
Engineer

Which AI services did we use?

Alberto Davila
Engineer

Future Plans

Add to Workdocs Viewer

Next we are keen to investigate how to integrate this AI app into our existing monday.com app Workdocs Viewer

Improve label AI suggestions

We'd like to continue improving how smart the app's label suggestions are. Using label history or combining similar labels.

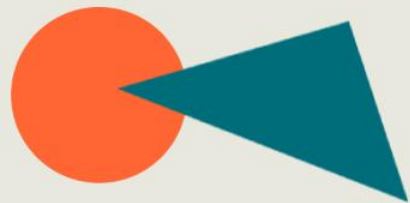

Centralised Label Management

A place to manage your labels, with features such as: bulk add/edit/remove labels, set restrictions, label usage stats, and more!

Thank you
