AI21 Fusionlabs

PLUGIN PLAYGROUND

An Extensive arena to explore all the TASK SPECIFIC API features!

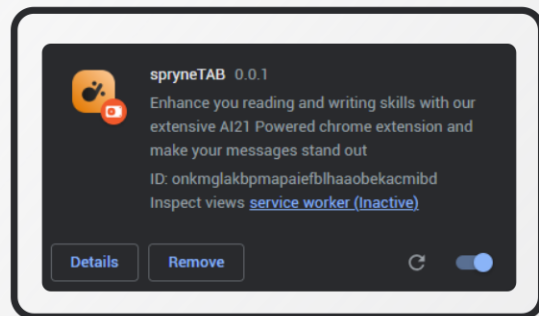

BUILT USING BUBBLE;IO AND THE AI21 FUSIONLABS PLUGIN

We also built A Fascinating Use Case

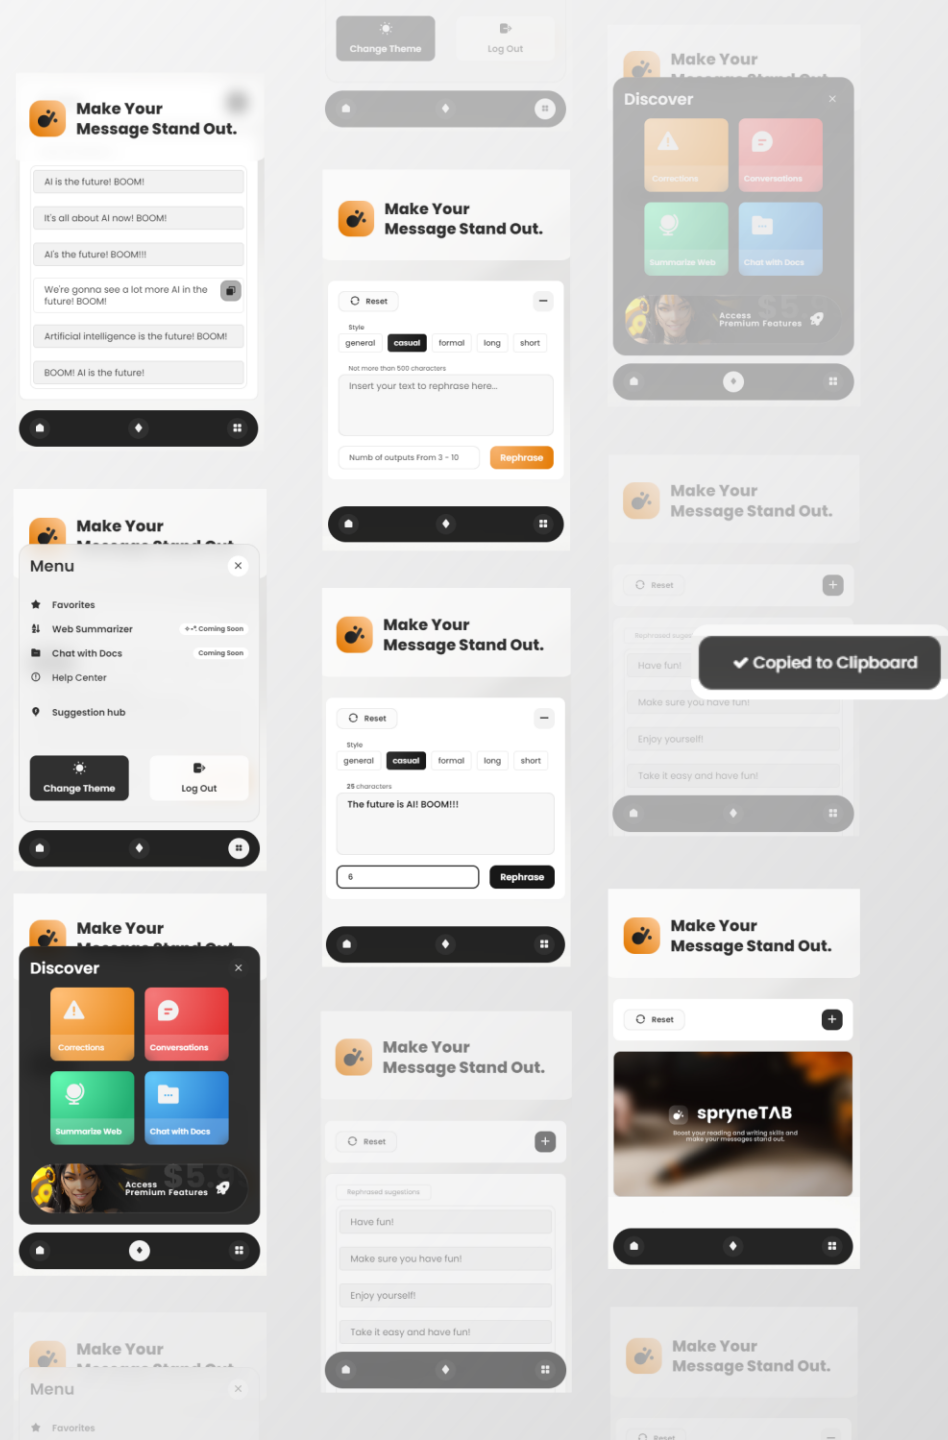

The AI21 powered Chrome extension built using the AI21 FusionLabs plugin that rephrases any text on the go on the web. Paraphrase any text to improve your writing skills, avoid plagiarism, or create variations of your content. and make your messages stand out.

Deployed Locally

Doing the Magic...

Unlimited possibilities with the AI21 Fusionlabs plugin for Bubble.io

With an extended version of the plugin having the TASK SPECIFI API and the JURASSIC 2 Model, You'd be able to

-  Generate catchy headlines, slogans, or taglines for your web app or business using the AI21 Studio Jurassic-2 models.
-  Create personalized content and recommendations for your web app users based on their preferences, behavior, or feedback using the AI21 Studio Jurassic-2 models.
-  Analyze and visualize data from your web app using the AI21 Studio Summarize API and the AI21 Studio Jurassic-2 models.
-  Automate tasks and workflows in your web app using the AI21 Studio Contextual Answering API and the AI21 Studio Jurassic-2 models.

OUR PLANS

1 We believe that winning this hackathon will open doors for the next generation of AI-powered no-code apps and provide the opportunity to onboard many aspiring entrepreneurs into the world of AI.

2 We also plan to add more features to our plugin, extend it with all the AI21 MODELS and make it more compatible with other AI technologies for future plans and development.

3 We also seek to build extensive bubble powered ai apps that uses the plugin, and help onboard entrepreneurs and passionate developers with our plugin

4 We will launch the SPRYNETAB chrome extension and provide extended functionalities to paid members
