

Gaming Secretary

Revolutionizing the Gaming Industry!

A large, dark blue, diagonal shape that starts from the bottom left corner and extends towards the top right corner, covering the lower half of the page.

A new era of gaming

The days of not knowing what to do next in a sandbox game or not knowing how to finish a boss fight or how to find the extremely sought after treasure are over!

Say goodbye to looking up guides on YouTube!

With Gaming Secretary you now have the power of AI right beside your player in-game!

Your ultimate gaming ally!

Your Secretary will give you suggestions and provide you with helpful information when it sees you struggling in-game (can be disabled).

It will also let you ask questions and even carry out a normal conversation with it like a real human being!

Secretary gathers data from your game and learns from it the more you play! It learns your playstyle and can help you progress in the game faster than ever!

With what games will Secretary help me?

Secretary is still in its early stages and currently it only has support for Minecraft, but soon enough Secretary will be able to help you in games like CS:GO, League of Legends, Dota 2, Call of Duty and more!

Secretary will be in a constant flux of updates, getting better and bringing new features to the table each time!

Step into the future
of gaming with
Secretary!

After the end of the AI21 Hackathon, Gaming Secretary will continue development and you will be able to find us at www.gaming-secretary.com!
