

LECTUREMATE: YOUR AI LECTURE ASSISTANT

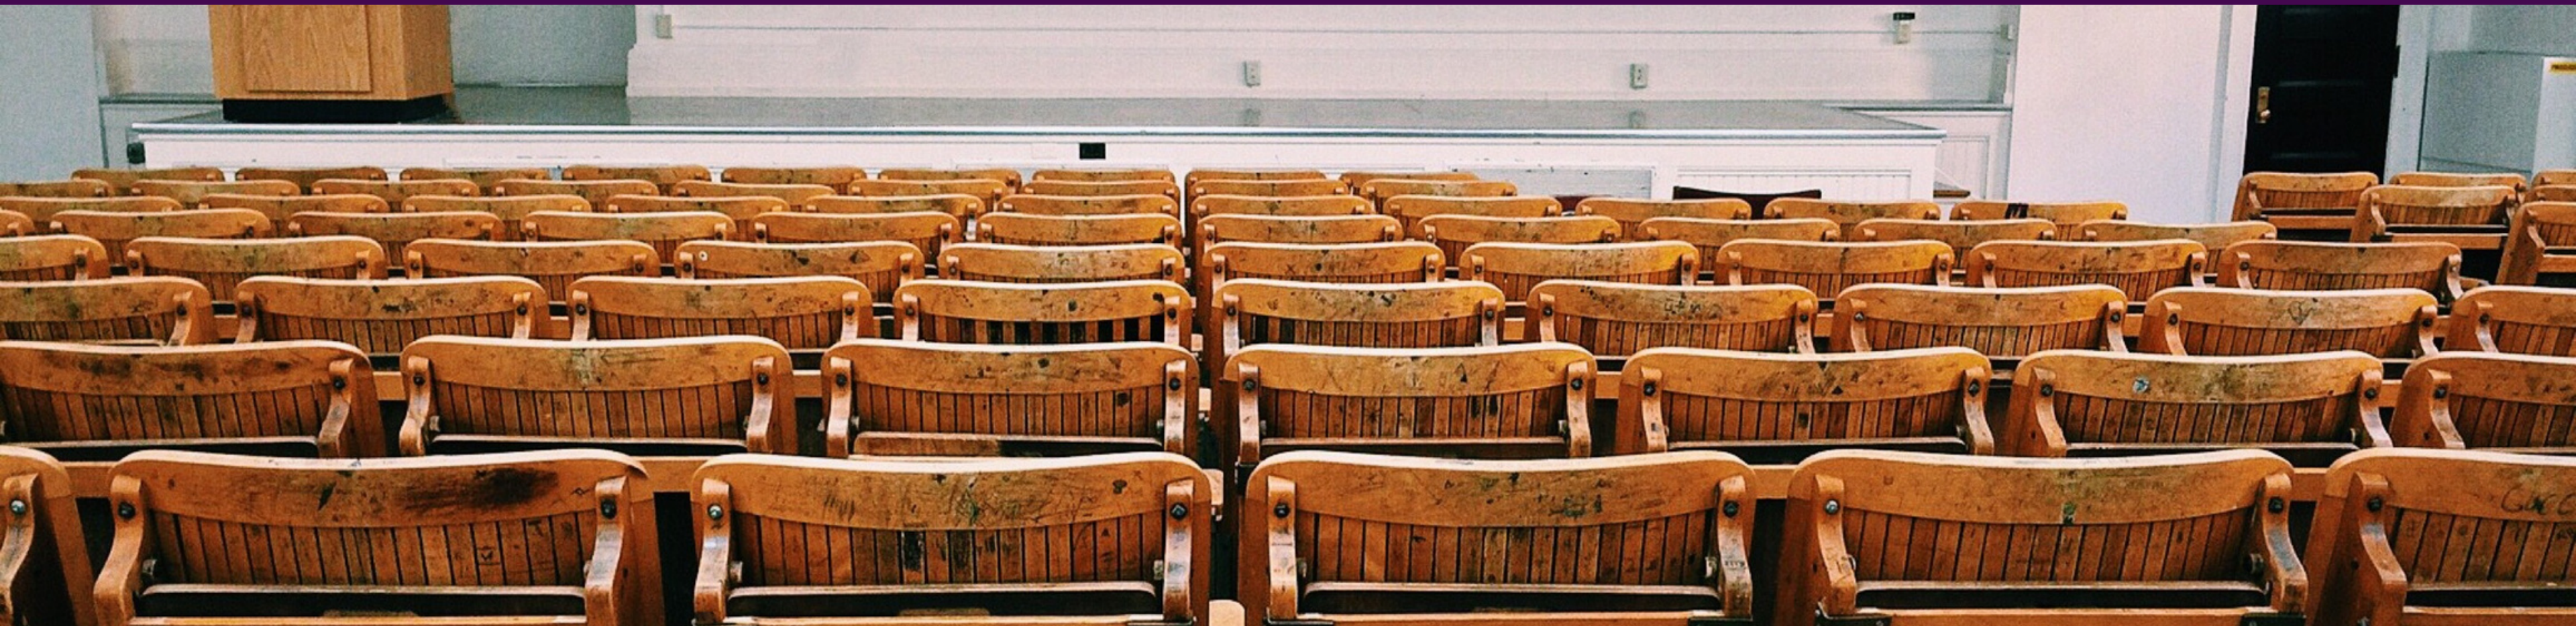

PROBLEM STATEMENT

Understanding what is being taught during lectures can be difficult for some and some key details can be missed during lectures due to lack of focus . AI can help with accurate and efficient transcription, summarization, and note-taking. while also generating content to aid understanding

FEATURES

Automatic transcription of lecture audio.

Summarization of key points for quick review.

Ability to search for keywords within transcribed text.

TARGET MARKET

Our AI lecture app benefits students, educators, and professionals who want to save time and improve learning outcomes.

IMPROVEMENTS

- Creating visual and additional content based on transcription
- Live audio transcriptions

THANK YOU
