

A hand is shown reaching towards a globe of the Earth. A bright yellow sunburst emanates from the center of the globe. The scene is decorated with various paper cutouts: a dark green circular shape with a hole in the top left, a red jagged arrow pointing up and right, a pink jagged arrow pointing down and left, and a brown jagged arrow pointing down and right. A white, torn-edge paper banner is positioned horizontally across the middle of the image.

THE PROBLEM

Too many people in our communities are left confused by complex letters from Government Departments, Insurance and Utilities Businesses. This problem is particularly acute for those without family support

CHALLENGES

**COMPLEX
LANGUAGE**

**LOSS OF
SIGHT**

**NON-
ENGLISH
SPEAKING
BACKGROUN
D**

**IMPAREMENT
COGNATIVE**

What if we can use Large Language
Models to translate complex documents
into actionable summaries- in writing and
in voice

SIMPLIFY DOCS

Existing functionality

- Accepts a photo or an uploaded document as input
- Generates a Concise Actionable Summary
- Allows the user to have the app read the Summary

Future functionality

- Translate into multiple languages using Google Translate
- Option to have the letter and summary sent to a friend
- Chunking longer document summaries

PROSPECTS?

The application will be developed with funding from government and non-profit contributions—via grant application. We will aim to make it available for free

THANK YOU!
