

StoryGen

Promoting Moral
Education Among
Children

Project Overview

Our project is a StoryGenerator powered by AI, designed to deliver valuable life lessons to children through ancient fables from diverse cultures

Team Members

- Heman Heman
- Danyal Raza

Challenge

- Lack of Moral Education: In Today's fast-paced and digital world children often miss out on traditional moral education that was once imparted through fables and tales.
- Global Perspective: Cultures worldwide have a repository of moral stories, but these are often not well-known in diverse communities and are often inaccessible.
- Engaging Learning: Children are more engaged when they learn through Captivating stories.

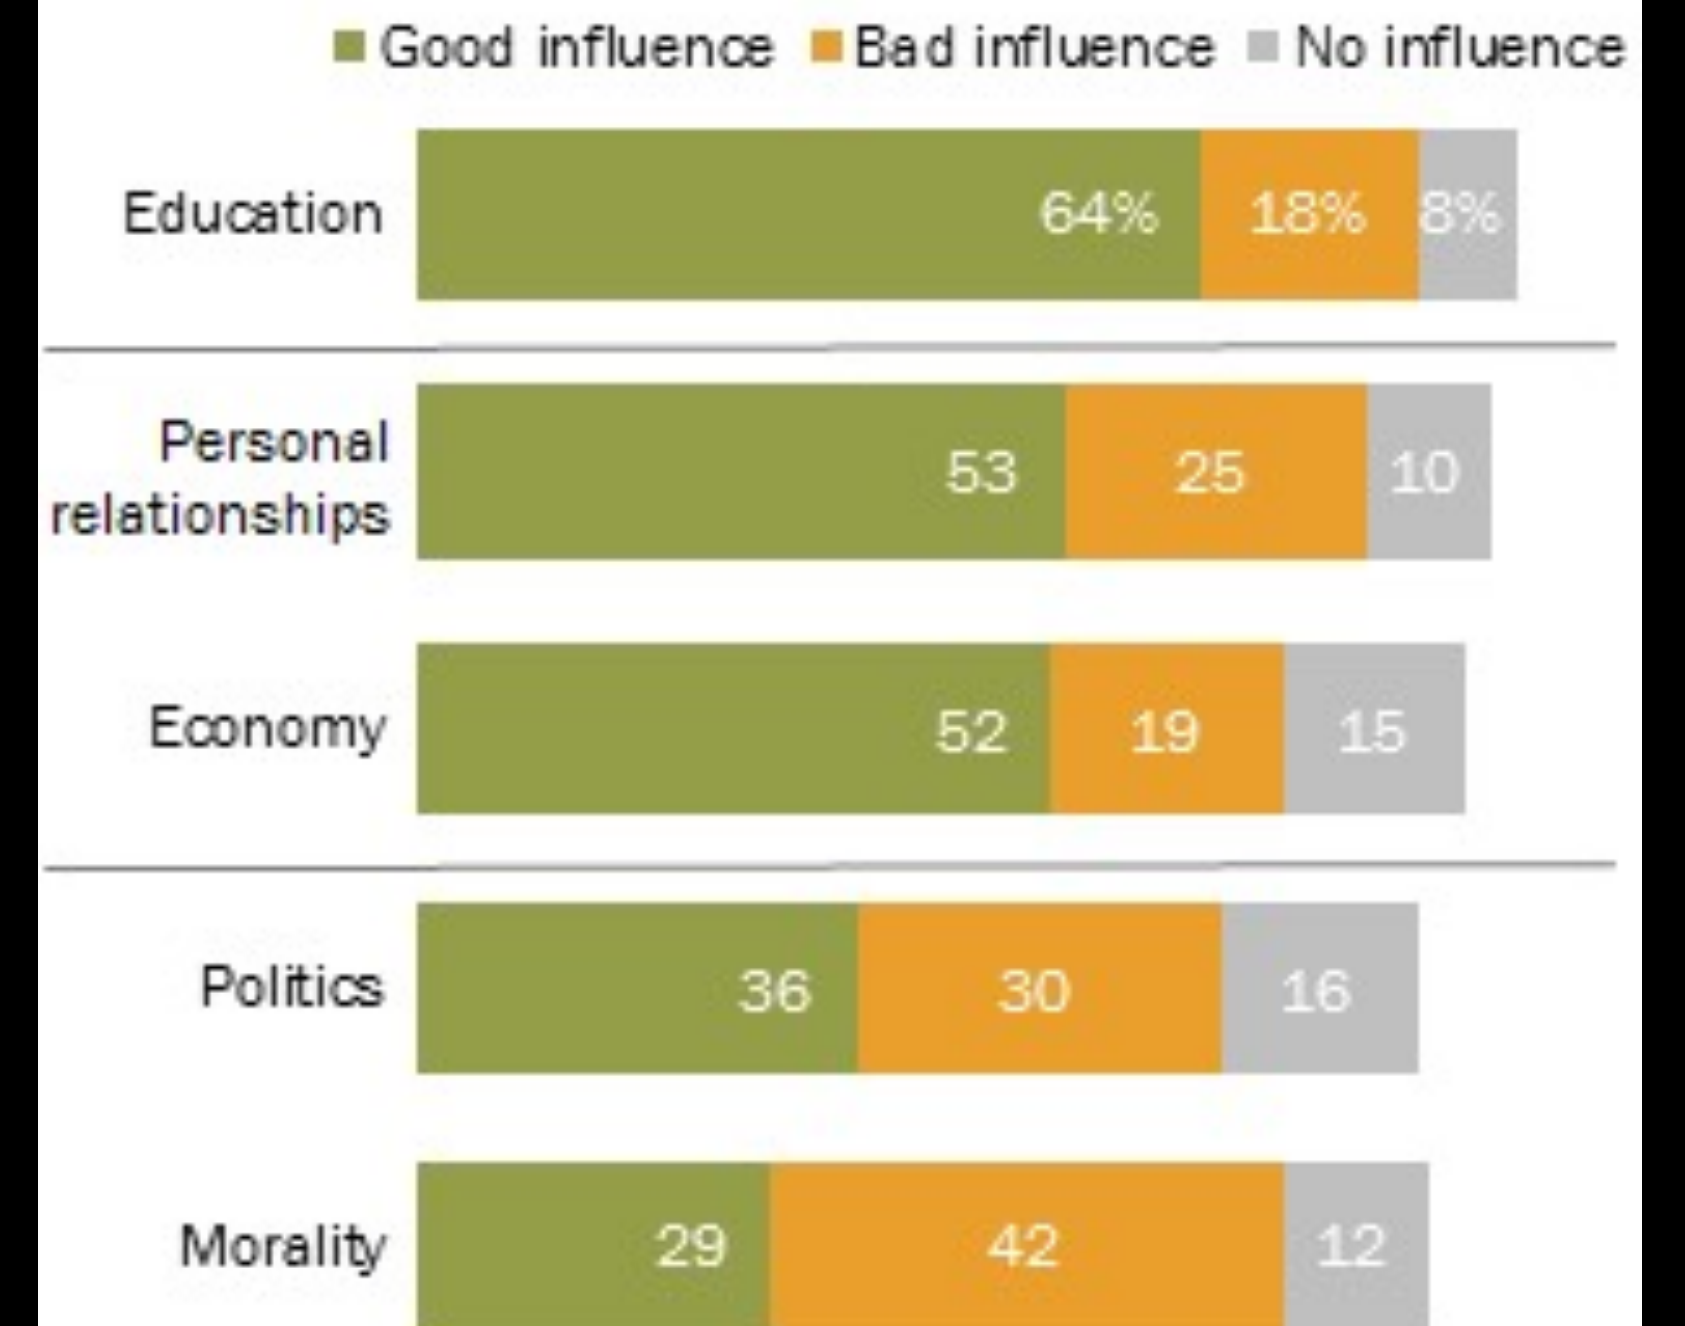

Challenge - Continued

- The lack of Moral Education can lead to a number of negative consequences for children including:
 - Increased aggression
 - Decreased empathy and compassion
 - Increased likelihood of engaging in criminal activity
- Unsupervised use of internet can lead to bad moral education for children

Internet Has Most Positive Influence on Education, Least Positive on Morality

Median saying increasing use of internet has had a ___ on ...*

* Asked in 32 emerging and developing nations.

PEW RESEARCH CENTER

Solution = StoryGen

- Our Solution: StoryGen is an interactive web based Story Generator that uses artificial intelligence to create captivating stories that promote strong moral lessons.
- Cultural Diversity: StoryGen draws from a vast collection of ancient fables from diverse cultures, ensuring a global perspective on moral values.
- Personalised Experience: Each story is dynamically generated based on the child's age, interests and cultural background, providing a personalised learning experience.

Features

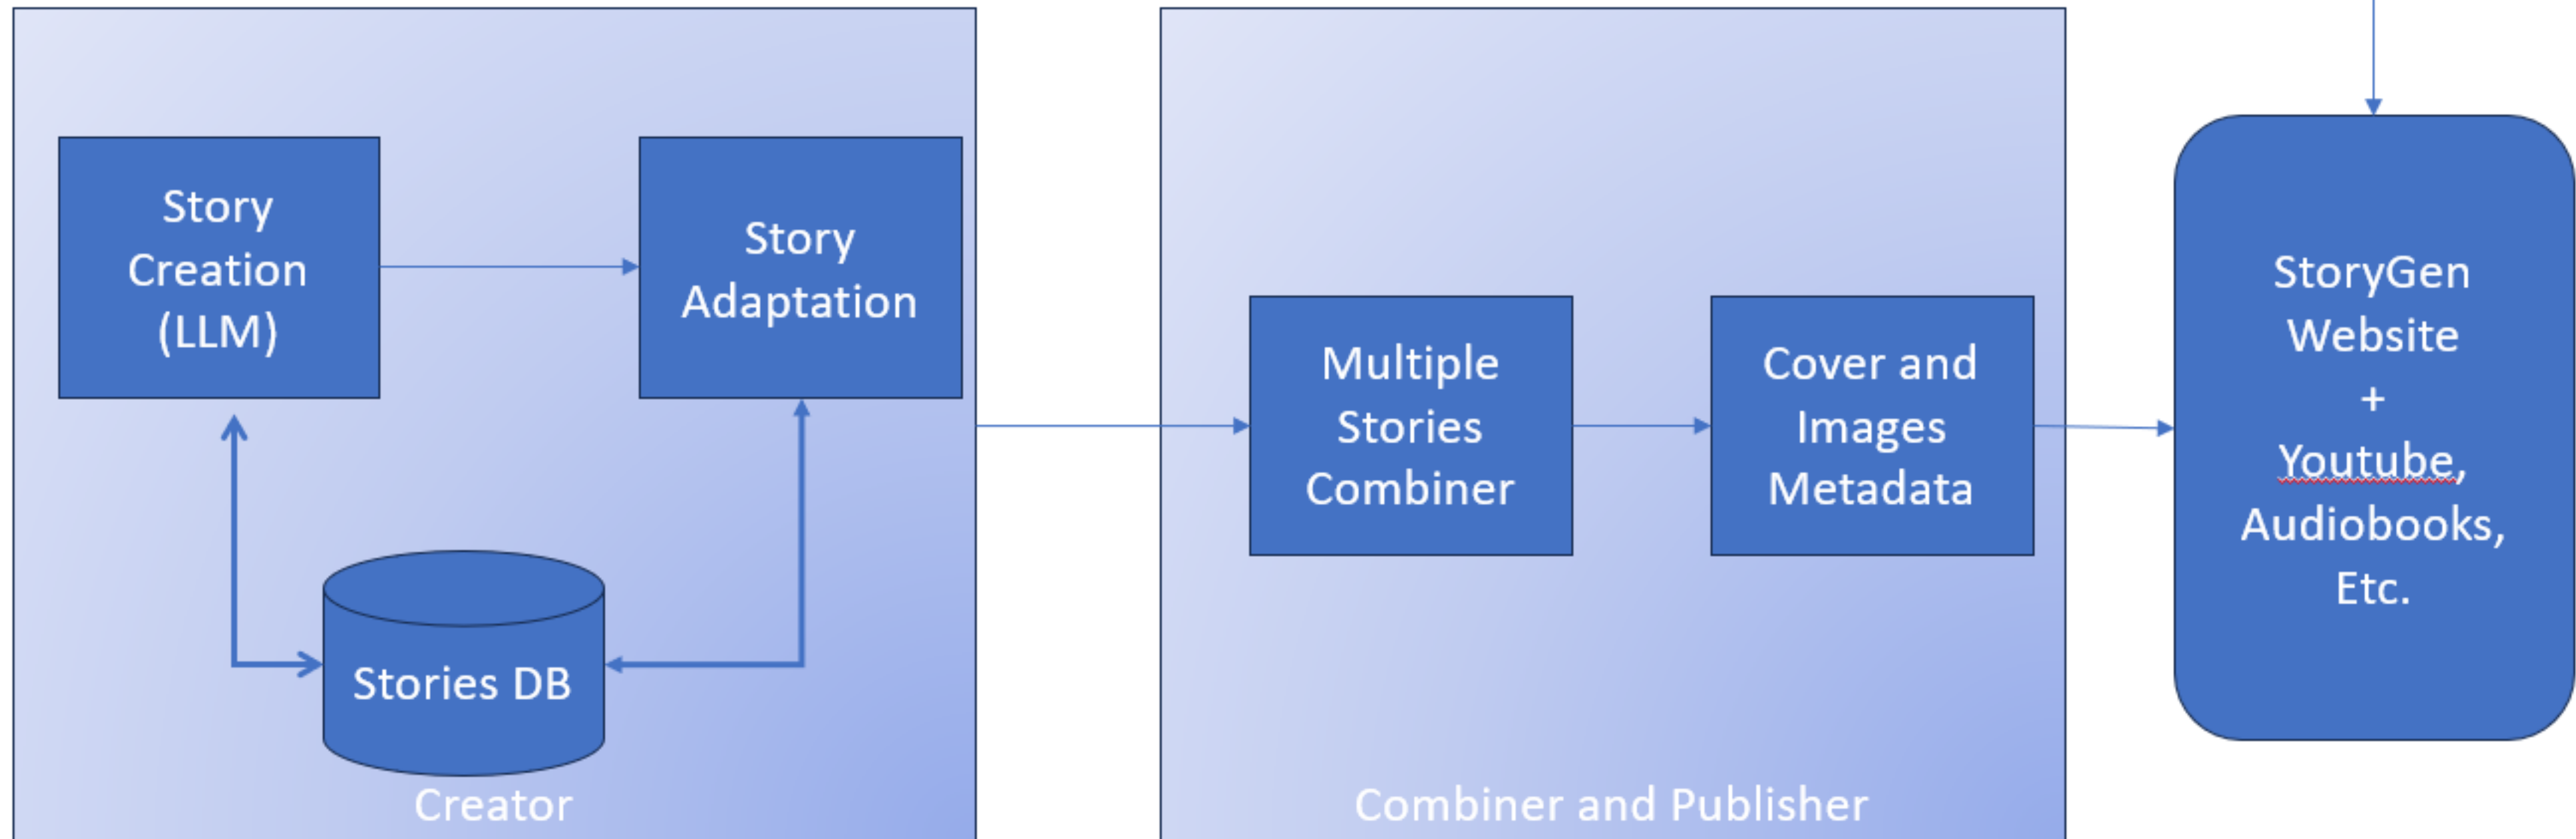

- Age-Appropriate Content: The Ai ensures that the generated stories are suitable for the child's age group.
- Diverse Cultures: Stories from various.
- Language Translation: It can transform global fables into local languages.
- Ethical and Moral Lessons: It Promotes critical thinking, positive values, empathy and develops child's character.
- Language and communication skills: Enhance skills through engaging storytelling.

How it Works

StoryGen Happy Customers

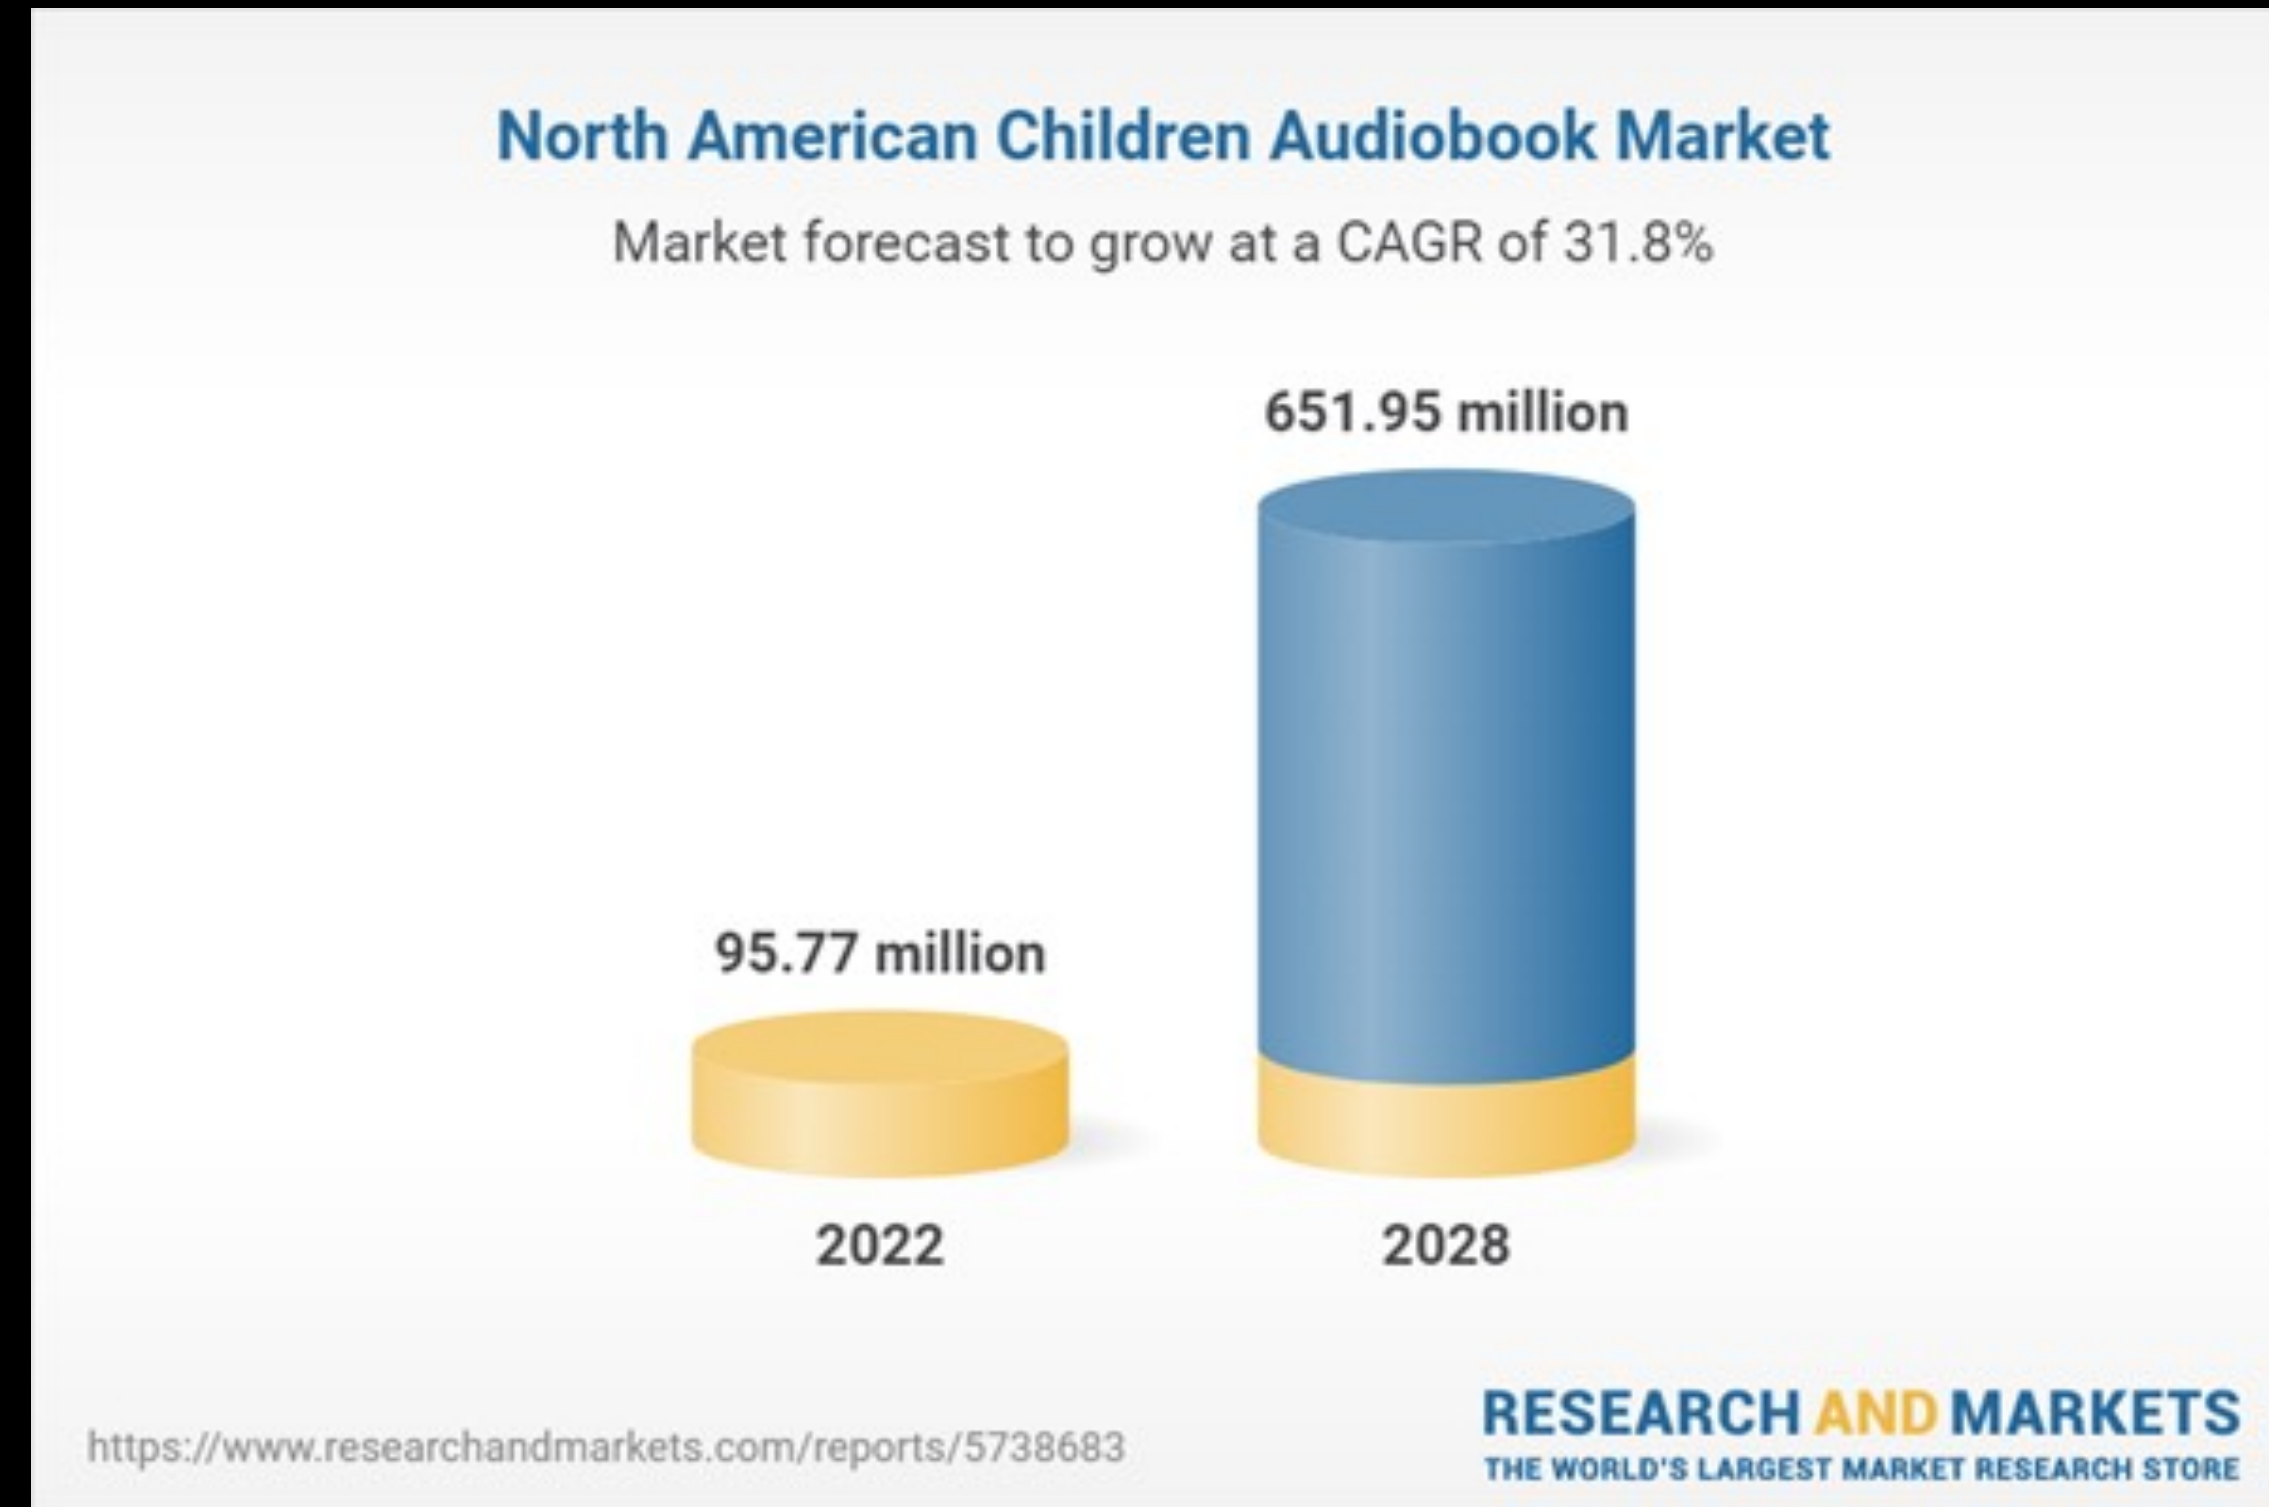

Business Plan

- Freemium Model: Basic stories and limited access are offered for free to attract users.
- Premium Subscription: Monthly or Yearly subscriptions grant access to broader collection of stories, personalised content and audiobooks.
- B2B Partnerships: Partnering with Schools and Libraries through licensing agreements into their educational System.

Market Size

- **Global Reach:** The potential Market size for StoryGen is vast, as children worldwide need engaging moral education tools.
- **Schools and Libraries:** Collaborating with educational institutions can expose millions of students to the platform.
- **Home Users:** Families who prioritize character development for their children present a substantial market segment.
- **Audiobook Market:** Partnering with audiobook platforms can tap into a growing market of young listeners.

Impact

- Empowering future generations: By instilling moral values in children, we can contribute to the development of responsible and compassionate future citizens.
- Global Understanding: Fostering cultural appreciation leads to a more inclusive and understanding society.
- Long-Term Influence: StoryGen can enhance language and communication skills.

Conclusion and Call to Action

- Our Ai powered StoryGen, offers an innovative approach to promoting moral education among children.
- Together, let's shape a better and more empathetic future for our children through the wisdom of ancient fables from diverse cultures.
- Join us on this journey as we harness the power of ancient wisdom and AI-driven storytelling.
- We promote cultural appreciation among children and empower them to learn valuable life lessons.
