

Imancity

The most effective way to learn a new language.

Problems

Learning a new language can be difficult and time-consuming.

- ✘ Traditional learning methods are boring and ineffective.
- ✘ It can be difficult to find the time and stay motivated.
- ✘ It can be expensive to pay courses and buy materials.

Solutions

Makes it easy and effective for everyone to learn new languages

 **Personalization**

Learn language while you grow
your professional knowledge

 **Interactive**

Listen, speak, write and perfect
your grammar

 **Cost-effective**

Pay for one and get
all in one place

How?

Using AI, we were able to simulate all the skills needed to learn a language

01 Listening

Personalized audiobooks focusing on your profession make it easy to stimulate our hearing using human voice technology from Eleven Labs.

02 Speaking & Reading

With speech-to-text solutions like Whisper, it has become easier to speak accurately using any device.

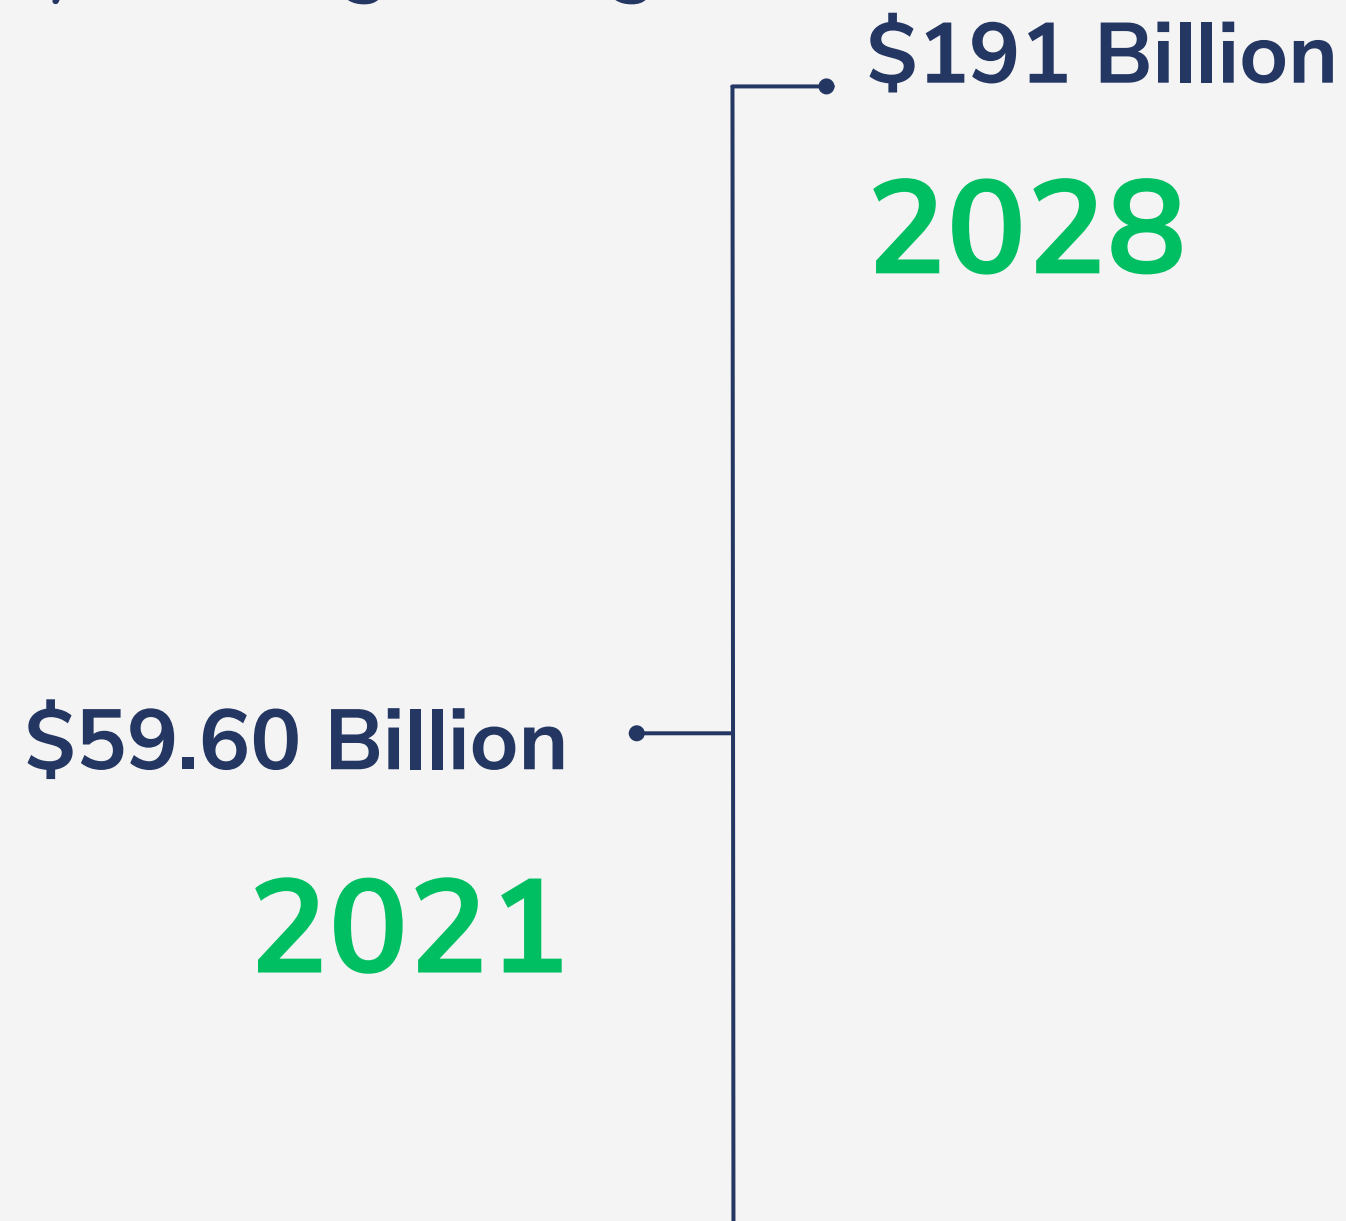

03 Writing & Spelling

We spend a lot of time writing every day, especially on the internet. With LLMs like ChatGPT, we now have our own assistant, teacher, and collaborator.

Opportunity

Learning language market is an industry that's growing rapidly

CAGR of 18.3%
2022 to 2028

Targeting

These are our target customers

Language schools

With the rapid growth of technology, traditional schools have difficulty to challenge app and online platforms. It's time to help them level up their learning methodology.

Individuals

Any person who needs an easy and effective way to master quickly a language. Specifically students, professionals, and travelers.
