NO MORE LOSE FOUCS JUST LISTEN AND NOTER WILL DO THE REST

Introduction

With **Noter,** you're not just taking notes, you're freeing your mind to focus on what really **matters**. **Noter** is the ultimate easy/never miss a detail tool! It automatically transcribes speeches into notes, freeing you up to focus on the task at hand. You can save your notes on your device or subscribe to Noter+ for the ultimate convenience of having all your notes in one place. Plus, with the option to listen to your notes instead of reading them, reviewing your notes has never been easier.

Problems 😠

1. Time-consuming manual note-taking

2. Difficulty in capturing all important details

3. The issue of keeping notes across multiple devices or platforms and in a safe way

4. Difficulty keeping up with fast-paced speeches or presentations

5. Difficulty in reviewing notes while on-the-go

NOTER

Solution 😌

Of course it is Noter (:

Transform any speech to notes, even videos!

Save all of Noter notes in one place.

Listen to your notes instead of reading.
