

About Our Product "Kotodamize!"

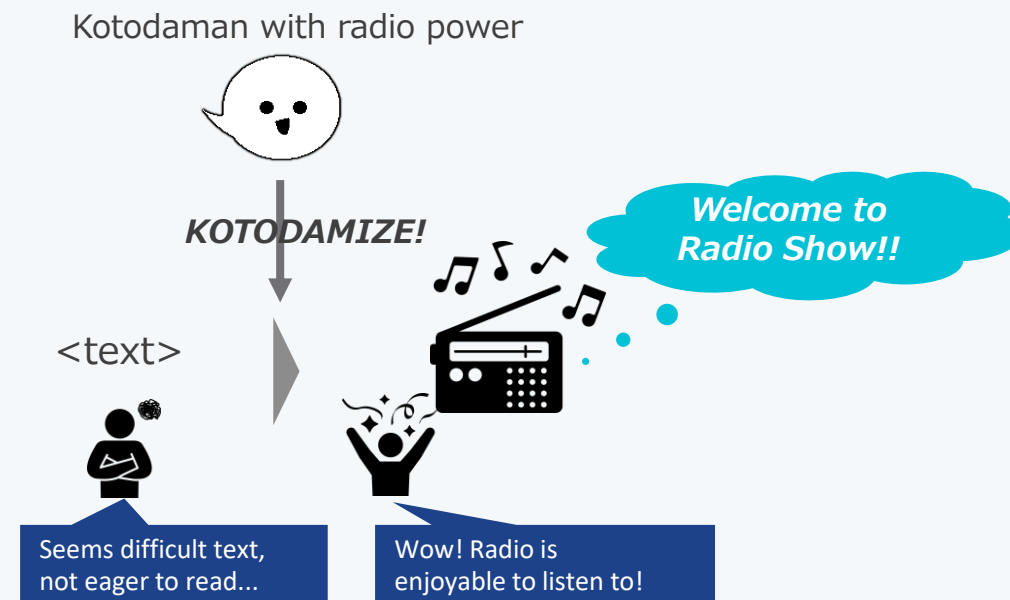

What is "KOTODAMA(言霊)" ??

"words possess a certain power and meaning that can influence things or events."

A Concept related to some Japanese folk beliefs and spiritual thinking that...

"KOTO" : "words" or "speech"

"DAMA" : "spirit" or "mysterious power".

MC: Welcome everyone, today we have the pleasure of talking with a representative from an intriguing voice AI research and deployment company, ElevenLabs. Could you tell us a bit about your mission?

Guest: Of course, our mission at ElevenLabs is to make content universally accessible in any language and voice. We believe in breaking down barriers in communication.

MC: That's very fascinating. Could you expand on what your company creates?

Guest: Absolutely, we create the most realistic, versatile and contextually-aware AI audio. We provide the ability to generate speech in hundreds of new and existing voices, in over 20 languages.

MC: In terms of technology research, where would you position ElevenLabs?

Guest: As a technology research company, ElevenLabs is at the forefront of developing new cutting-edge voice AI. We're pushing the boundaries of what's possible and continually innovating.
