Problem

Inadequate Interview Preparation: Job seekers often struggle to find the right resources and tools to adequately prepare for interviews that are tailored to their specific professions. The lack of specialized interview training can lead to reduced confidence and suboptimal performance during interviews.

Communication Challenges: Some candidates face communication problems or language barriers, making it difficult for them to effectively showcase their skills and qualifications during interviews. This can negatively impact their chances of securing job opportunities.

Our *Solution* —→

Job Jive

Services Offered

AI-Powered **Mock Interview Training** with Eleven Labs Speech Synthesis

Leveraging the cutting-edge Eleven Labs AI **Speech Synthesis** technology, the platform provides mock interviews creating a **lifelike** and **immersive** interview experience for users.

Users receive actionable recommendations, aided by the **natural-sounding** speech synthesis, which guides them to **excel** in real interview scenarios.

Communication Skills Training

Enhance their communication skills:

- pronunciation
- fluency
- language clarity.

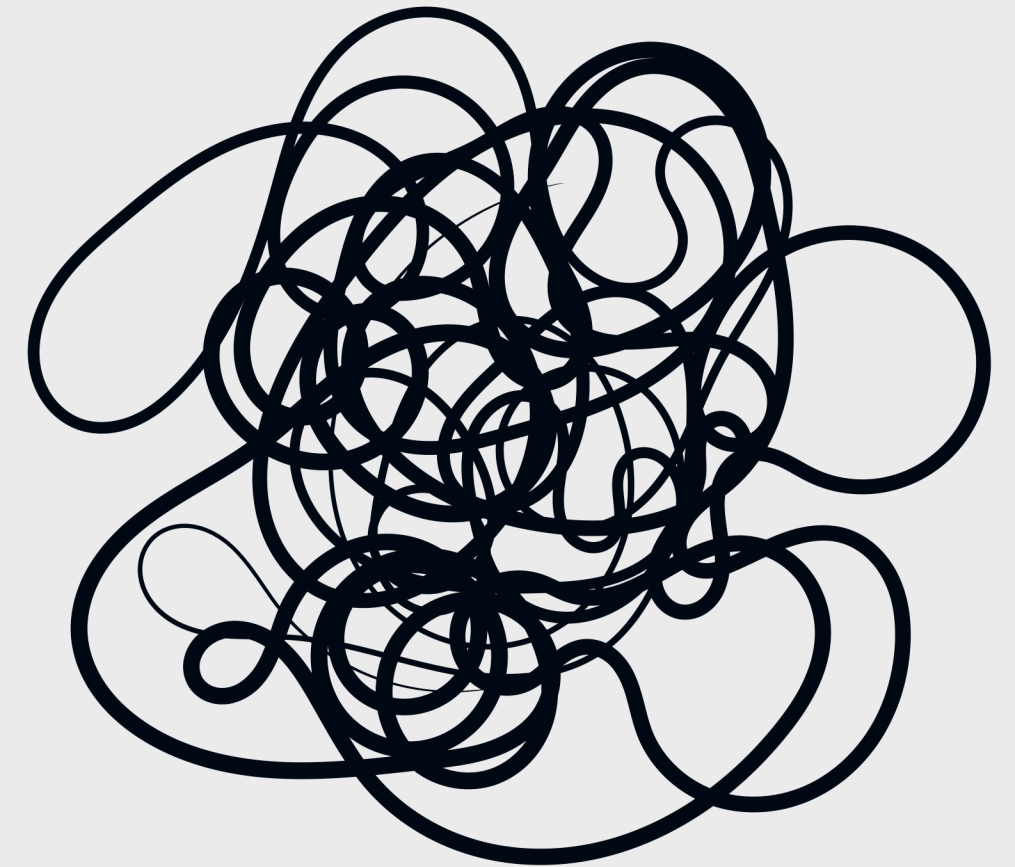

Target *Market*

Fresh Graduates and Entry-Level Job Seekers

Experienced Professionals and Career Changers

Job Seekers with Social Anxiety

67%

Recruiters feel that eye contact is crucial to making a good impression

Eye contact is a powerful nonverbal communication tool that fosters trust, establishes rapport, and conveys confidence.

51%

Recruiters feel that the best candidate is found after three interviews.

Conducting three interviews ensures candidate consistency, revealing genuine qualities and authenticity beyond a single interaction.

Revenue Stream

Subscription Plans:

Offer different tiers of subscription plans with varying levels of access to premium features.

Corporate Partnerships

Collaborate with companies to provide tailored interview training, offering bulk licenses or enterprise-level access.
