Voice AI Hackathon July 28-31

IIElevenLabs  
AI Hackathon

IIElevenLabs   

# The Problem

The main problem we are solving for is *letting content creators re-purpose their voice for a myriad of use cases*

*Use case include:*

1. Advertisements
2. Re-using their own voice for content without being in the studio
3. Async teaching - teachers can re-use their voice and tutor many students at
4. etc.

# The Solution

Simply, paste in  
care of the rest -  
and a UI to crea

# Go to Market

1. Our GTM is to tackle content creators, in the learning/ed-tech space on Youtube as we can get sufficient voice data that's typically clean as teachers speak in a single speaker setting, and the app can create high quality voices with the pre-existing voice data from Youtube
