

Dreaming

**Revolutionize
Language
Learning with
AI.**

dreaming.william.chu@gmail.com

Traditional Tutoring: Costs range from \$10-\$100 per hour, higher rates for native English speakers from the UK, US, and Canada.

Drawbacks: High cost, potential monotony, fear of speaking and being embarrassed, and inconvenience of in-person classes.

Language Learning Apps: Engaging, yet inefficiency due to self-paced learning. Navigation through multiple features may pose difficulty without proper guidance.

Dreaming AI Language Tutor

- **Our offering is engaging, knowledgeable, omnipresent, and eliminates the fear and embarrassment of errors during learning.**
- **It enables immersive language learning, a key factor missing in traditional teaching methods and language learning apps.**
- **Our vision is to make language learning more affordable, enjoyable, convenient, efficient, and highly effective.**
- **At a cost of just \$5 per hour, which can be further reduced with scaling, we aim to revolutionize the language learning process.**

Our Innovative Approach

- **Start by learning through interactive conversations with our AI.**
- **Ease into the language learning experience with intuitive understanding and imitation.**
- **Simplified user interface to keep focus on learning.**
- **In the coming months, we will support additional languages with ElevenLabs.**
- **Language correction, speaking practice scenarios, and user-oriented innovation will be part of our offering.**
- **Our website will be live soon!**

Business Model

B2C:

- **Pay-as-you-go: Speak and learn with AI at your pace and pay by the minute.**
- **Subscription Service: For dedicated learners, we provide a subscription service for daily language interaction.**

B2B:

- **SaaS: We provide advanced language learning software for schools and institutions.**
- **Collaboration: We're open to partnering with businesses to develop cutting-edge language learning tools.**
