VIRTUAL REVOLUTION

By Husnain Bukhari and Xing Yang

"A WEB APPLICATION FOR CREATING VIRTUAL PERSONALITIES."

PROBLEMS

Traditional methods of offering personalized assistance and expert advice are **time-consuming** and **limited** in reach.

personalized assistance and expert advice efficiently?

**MAKING THE MOST DIFFICULT DECISION IN YOUR LIFE??**

24/7 avaliable

The most efficient way to learn a new language by neuro scientist

depression self help

how a real finance guy save money

Jeff Bezzos, how to I build a successful startup

SOLUTION

Use AI Chatbot to mimic "YOU", which is capable to answer any questions that are in their expertise.

A virtual version of you, specially trained on **your data and voice**
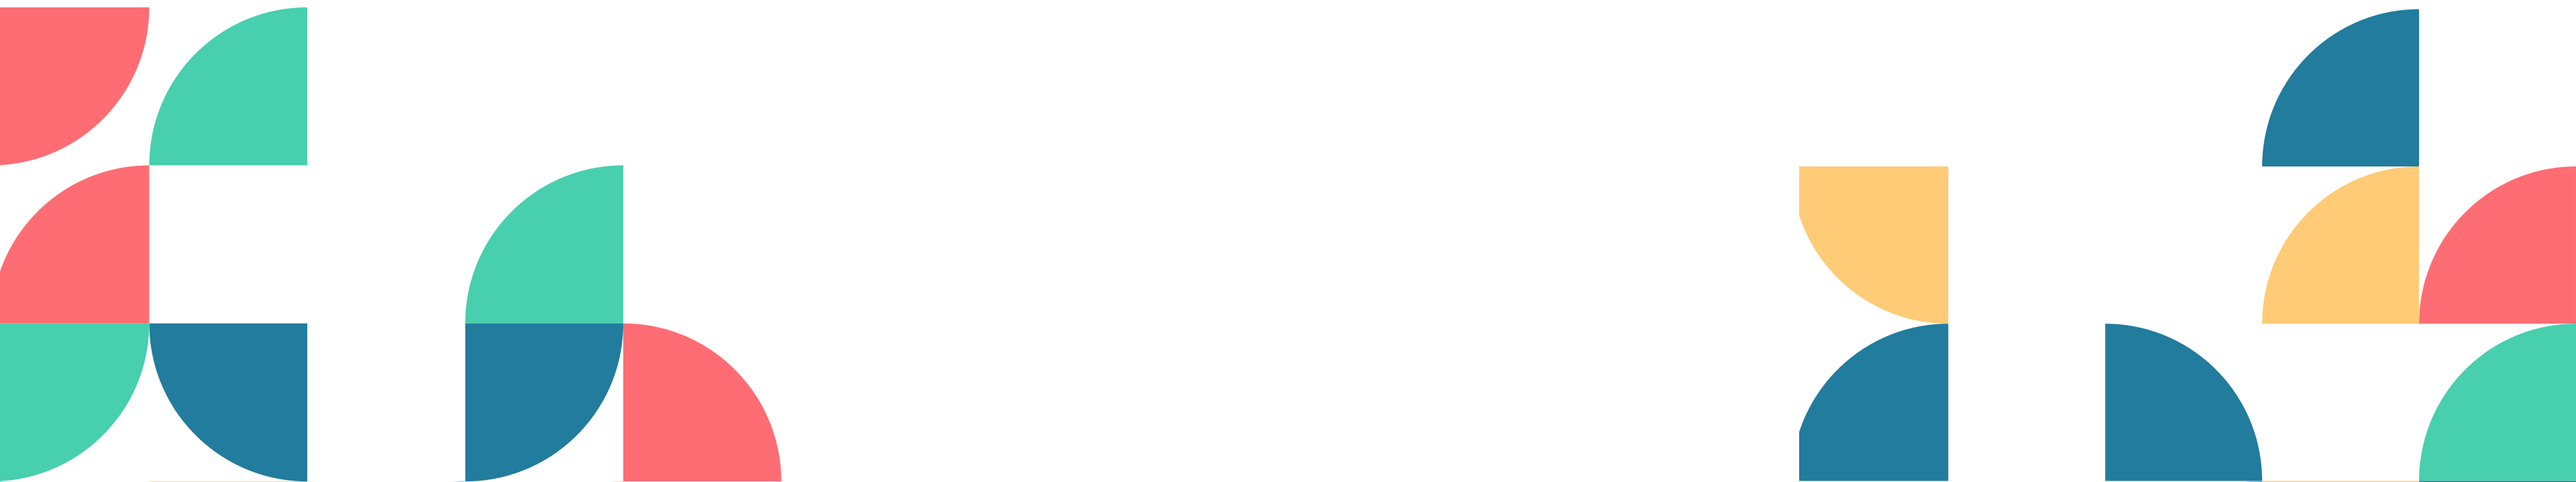

PROBLEM WITH TRADITIONAL CHATBOTS

- No guarantee that the information is from trusted expert.
- Too general suggestions
- NO one to one experience
- NO realistic voice experience

HOW IT WORK
